SOUTH CAROLINA DEPARTMENT OF CONSUMER AFFAIRS

The 2013 Mortgage Log Analysis Report is made available by the South Carolina Department of Consumer Affairs in compliance with S.C. Code Ann. Sections 37-22-210(C)(2) and 40-58-65(A). Pursuant to S.C. Code Ann. Section 2-1-230, an electronic version of the report was forwarded to the Office of Legislative Printing, Information and Technology Systems and to the State Library as provided in Section 60-2-30.

INTRODUCTION

The mortgage log report is a requirement of the South Carolina Mortgage Lending Act (“the Act”), which became effective on January 1, 2010. The Act added Chapter 22 (Mortgage Lending) to Title 37 (Consumer Protection Code) and significantly amended Chapter 58 (Licensing of Mortgage Brokers) of Title 40 (Professions and Occupations). These laws require mortgage lenders and brokers to maintain a mortgage log and report their mortgage log data annually by March 31 for analysis and reporting.

The mortgage log contains the following data concerning all mortgage loan applications taken: credit score of the borrower, type of interest rate on the loan, term of the loan in years, annual percentage rate of the loan, and appraised value of the property. The mortgage log also contains data required under the federal Home Mortgage Disclosure Act (HMDA) including loan type, property type, purpose of the loan, owner/occupancy status, loan amount, action taken including reasons for denials, property location per census data, ethnicity and race of the borrower and co-borrower, sex of the borrower and co-borrower, gross annual income, purchaser of the loan, rate spread, HOEPA status, and lien status.

This report is based on data entered as of June 25, 2014. As of that date, the number of mortgage log entries for each reporting year is **43,739 for 2011**; **65,140 for 2012**; and **69,571 for 2013**. Because licensees have entered additional mortgage log data since the first report was issued, the Department has revisited data from prior years and updated the report to reflect an accurate analysis and comparison of the three years of data. Where noted with an asterisk (*), percentages are based on substantive entries reported for specific categories and do not include entries of “not applicable,” “not provided,” or blanks.

BORROWER DEMOGRAPHICS

Gender*

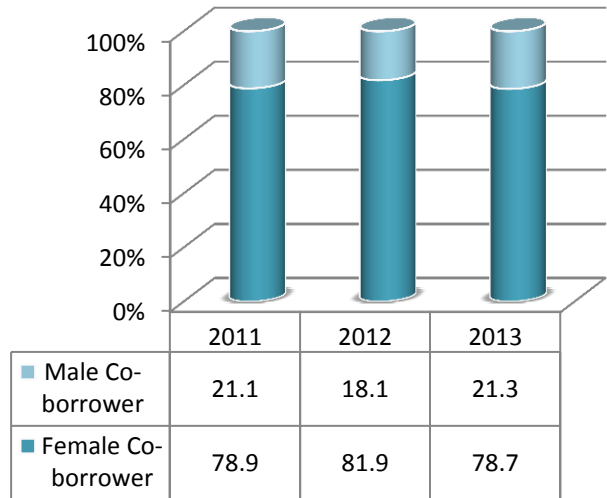

Race*

Hispanic or Latino*
