

Annual Report

January 2019 - Reporting on Fiscal Year 2018

As required by SC Code Section 57-3-760, to include 2017 Act No. 40, Section 57-1-380.

Annual Report

January 2019 - Reporting on Fiscal Year 2018

The South Carolina Department of Transportation (SCDOT) is one of the five largest state agencies in South Carolina and has a staff of approximately 4,500 men and women who work in all of the state's 46 counties, with the central headquarters located in Columbia. The agency's purposes include planning, construction, maintenance, and operation of the state highway system, and the development of a statewide intermodal and freight program.

A State Transportation Commission is the policy making body for SCDOT. It consists of nine-members – one member from each Congressional District and two at-large members. The Commission appoints the Secretary of Transportation who carries out the policies of the Commission, the daily operations of the agency and provides direction to staff.

The Secretary of SCDOT recognizes that the statewide network of all SCDOT divisions, departments, and units in offices at Headquarters and throughout the Districts are one team – **One SCDOT**. In retrospect of the extraordinary events of the past year, the SCDOT workforce not only serves to accomplish the mission and achieve the vision, it has also embodied the following SCDOT values:

Team

Excellence

Accountability

Make a Difference

Our Mission

“SCDOT shall have as its functions and purposes the systematic planning, construction, maintenance, and operation of the state highway system and the development of a statewide intermodal and freight system ... the goal of the Department is to provide adequate, safe, and efficient transportation services for the movement of people and goods.”

(SC Code Section 57-1-30)

SECTION I- AGENCY ACCOMPLISHMENTS

During the 2017-2018 fiscal year, SCDOT accomplished many milestones in “Year One” of the Ten Year Plan and earned major achievements and awards. These successes reflect the strong leadership and hard work of the SCDOT employees. Below are SCDOT highlights for this past fiscal year:

Achievements & Awards:

The Florence Morning News* summed up the first year of the Ten-Year Plan best ... “SCDOT has experienced a record-breaking year in the first year of the agency’s 10-year plan to Rebuild S.C.’s Roads. For the first time in the agency’s history, the total amount of road and bridge work underway on the state’s highways has exceeded \$3 billion...” Secretary of Transportation Christy Hall said employing a strategic 10-year plan is contributing to the success.”

[*https://www.scnw.com/news/pee_dee_weekly/article_b758b604-886d-11e8-bb55-](https://www.scnw.com/news/pee_dee_weekly/article_b758b604-886d-11e8-bb55-)

Last year we provided insight and information on our Ten Year Plan and identified the biggest challenges of the existing highway system as: (1) poor pavement conditions, (2) structurally-deficient bridges, (3) much-needed road widenings, and (4) deadly roads. **This year** we are reporting that we have done exactly what we said we would do. SCDOT prepared this plan and shared it with lawmakers in 2017 during the discussions of the Roads Bill. Secretary Hall said, “We have held to the plan during its first year, which produced better-than-expected results. We will remain unwavering to the priorities within the four major program areas.” This will be a long process of transforming our road system, but below are the updates this first year:

- **POOR PAVEMENT CONDITIONS:** This has been the single largest area of under-investment over the past three decades. SCDOT operates and maintains over 41,000 miles (90,000 lane miles) of roads and over 8,400 bridges, ranking SC as the *fourth largest state-owned highway system in the nation* according to the Federal Highway Administration (FHWA). More than half of our pavements have decayed so much that they need to be completely rebuilt from the foundation up, which is an \$11 billion problem for South Carolina. *Our ten-year target of paving up to 3 percent of the network per year is ahead of plan after year one with up to 5 percent improvement on pavements.*
- **STRUCTURALLY-DEFICIENT BRIDGES:** Last year when the Ten-Year Plan was launched, SCDOT identified the need to strategically target structurally-deficient bridges in the state. With the dramatic increase in bridge investments, we are able to target structurally-deficient bridges and load-restricted bridges on our major corridors. *Our ten-year target of replacing 465 bridges is on schedule with 51 bridges under construction.*
- **INTERSTATE WIDENINGS:** We were at least 10 years behind on widening projects throughout the state. SC needed a major increase in funding dedicated to the interstates. Funding of \$5 billion has been dedicated to this area with \$1 billion in widenings already underway along the heavily traveled I-85 corridor. *Our ten-year target of improving 140 miles of interstates has made excellent progress with over 70 miles underway.*

Annual Report

- **RURAL ROAD/SAFETY:** SC ranks #1 for the Fatality Rate in the nation. About 1,000 people die on our roads annually. The major roads in our rural areas are some of the deadliest roads in the state. We developed a Rural Road Safety Program to target the worst of the worst. *Our ten-year target of making safety improvements on 1,000 miles of rural roads is ahead of schedule after 1-year with 187 miles underway.*

We have had a very good first year! In addition to our efforts on the Ten-Year Plan, SCDOT earned major achievements and awards. These successes reflect the strong leadership and the hard work of the SCDOT employees. Below are a few SCDOT highlights:

- SCDOT managed an influx of nearly 124,000 additional vehicles to South Carolina roads evacuating from neighboring states due to **Hurricane Irma** in September 2017. Nearly 2,100 SCDOT maintenance, district and headquarters employees worked around the clock to keep traffic moving and make needed emergency repairs.
- In just five days during October 2017, **SCDOT crews removed 12,000 cubic yards of sand** that had been left by Irma on a 1.5-mile stretch on Edisto Beach's main artery, Palmetto Boulevard. Some areas on the road were as deep as 4 feet with sand. Employees filled 1,500 dump trucks with sand and swept the boulevard clean. The town's mayor called it a 'miracle.' SCDOT received a **major regional transportation award** for this innovative approach.
- A **rare winter storm** that primarily impacted the coastal regions hit the state during January of 2018. SCDOT employees from the Upstate and Midlands assisted the Low country in an example of the "One DOT" approach that erases district and county lines when it comes to planning, responding to, and recovering from significant events affecting South Carolina.
- **Redesign of the SCDOT website** by March 2018 increased transparency making it more user-friendly.
- Secretary Hall led thousands of SCDOT maintenance workers and volunteers from SCDOT offices on March 22, 2018, for a **litter pick-up** on highways in every county of the state. Those efforts resulted in the collection of over 20,000 (20,170) bags of litter, which was enough to fill over 100 dump trucks.
- On April 27, 2018, SCDOT unveiled the **SCDOT Workers Memorial** in front of SCDOT Headquarters (955 Park Street in Columbia). This memorial is dedicated to the men and women, dating back to the 1920s, who gave their lives in service to SCDOT and the State of South Carolina.
- SCDOT announced on June 2, 2018, that the I-526 **westbound bridge over the Wando River** was open well ahead of schedule, thanks to successful around-the-clock emergency repair operations. The westbound structure was closed when bridge inspectors found a broken cable on May 14.
- There was a record \$3 billion in road and bridge work underway across South Carolina as the first year of the SCDOT **Ten-Year Plan** ended on June 30, 2018.
- SCDOT added a "**Project Viewer**" to the agency's website (www.scdot.org) that allows anyone to "point and click" on an interactive road map of South Carolina. The user can choose between a list

of project types (resurfacing, widening, bridge replacements, etc.) all across South Carolina, or a list of projects within a certain area of the state.

- Additionally, in fiscal year 2017-2018 SCDOT **Maintenance** forces:
 - o Received and processed approximately 63,553 work requests;
 - o Patched approximately 411,000 potholes;
 - o Mowed approximately 162,000 acres;
 - o Removed 6.46 million pounds of litter/debris; and
 - o Approved 11,723 encroachment permits.

SECTION II- 10-Year Plan Detailing Future Needs of the State

With the passage of the Roads Bill by the South Carolina General Assembly last year, the agency has been provided with an increased and sustainable revenue stream, and with that the opportunity to make gradual, but real and significant strides toward bringing the highway system back from three decades of neglect. We recognize that the preservation and modernization of our transportation system are essential to the economic health of our State. The infrastructure challenges for the state are addressed through the management of the Ten-Year Plan, the Statewide Transportation Improvement Program (STIP), the Statewide Multimodal Transportation Plan (SMTP) and, the Transportation Asset Management Plan (TAMP). These plans are explained below:

- The **Ten-Year Plan** shows a comprehensive list of projects that we plan to build over the next decade. We are intentional in our approach by addressing four major areas of Highway Safety, Structurally Deficient Bridges, Road Resurfacing, and Interstate Widening. This list is located at: <https://www.scdot.org/projects/ten-year-plan.aspx> .
- The **STIP** is the states' six-year transportation improvement program for all projects or program areas receiving federal and state funding. The document is updated every three years and is revised on a continual basis to reflect the latest program and project information. The SCDOT Commission, as well as the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) approve the STIP. The STIP is located on the SCDOT website at: https://www.scdot.org/inside/pdf/planning/STIP_DDR_2017.pdf .
- The **2040 SMTP** is the states' twenty-five year Statewide Multimodal Transportation Plan, which focuses on maximizing South Carolina's limited funding resources, maintaining the state's position in the global marketplace, and efficiently moving both people and goods. This plan was developed in conjunction with SCDOT management, staff, and transportation partners and stakeholders. The 2040 MTP was finalized in November 2014, and is located at: http://www.scdot.org/multimodal/pdf/sc_mtp_strategic_corridors_plan_final.pdf

- The **TAMP** describes how SCDOT will operate, maintain, and improve the pavements and bridges with a focus on both engineering and economic analysis based on quality information to identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and maintain a state of good repair over the life cycle of the assets at a minimum practical cost. The TAMP is located at: <https://www.scdot.org/performance/pdf/reports/TAMP.pdf#search=TAMP>

Transportation Asset Management Plan (TAMP):

In addition to the paragraph and link directly above where the TAMP is referenced, this Annual Report satisfies the condition of the *2017 Act No. 40, Section 57-1-380* that requires SCDOT to provide and publish an annual update on achieving the TAMP performance goals. To accomplish this requirement, the TAMP update is following.

SCDOT has moved forward with the development and deployment of a TAMP which ties infrastructure investment to a predicted return on that investment. The TAMP lists the major infrastructure Assets, by type, that SCDOT is charged with managing for the state of SC. Ten-year asset-condition targets are established and funding assigned to achieve these targets through a risk zero-based analytical process intended to optimize the investments across the transportation system to achieve the maximum strategic results. The table following reflects the targets and forecasted average annual investment levels established for SCDOT's safety, pavement, and bridge programs through 2026. The safety program includes dedicated funding of \$50M each year beginning with fiscal year 2018 for the Rural Road Safety Program, which consists of targeted safety improvements on high-risk rural roads.

Implementation of the strategic priorities and TAMP are key to aligning SCDOT's internal and external efforts toward achievable results. "Year One" results indicate successful movement of the needle in the right direction for the important infrastructure items. Thanks to the investment in infrastructure recently passed by the General Assembly, SCDOT has been able to begin to make measurable, positive progress on rebuilding the state's roads and bridges.

POOR PAVEMENT CONDITIONS: *Our ten-year target of paving up to 3 percent of the network per year is ahead of plan after 1-year with up to 5 percent improvement on pavements.*

STRUCTURALLY-DEFICIENT BRIDGES: *Our ten-year target of replacing 465 bridges is on schedule with 51 bridges under construction.*

INTERSTATE WIDENINGS: *Our ten-year target of improving 140 miles of interstates has made excellent progress with over 70 miles underway.*

Annual Report

RURAL ROAD/SAFETY: *Our ten-year target of 1,000 miles for rural road safety improvements is ahead of schedule after 1-year with 187 miles underway.*

2018 has been a “Record Breaking Year” for SCDOT by meeting goals as noted above and in deploying programs in accordance with expectations of the “Roads Bill.” A vital tool of that success is the management of the TAMP, which is shown below.

Transportation Asset Management Plan (TAMP) Performance Targets

Safety						Year One Results					
						2016 Baseline Condition		10-Year Target		2017 Forecasted Values

*Includes a minimum \$50M annually for the Rural Road Safety Program effective FY 2018.

SECTION III- 5-Year Plan Detailing Traffic Regulation

In response to Act 181 of 1993 (also known as the 1993 Restructuring Act), the SC Highway Department was separated into the Department of Public Safety, the Department of Motor Vehicles, and the Department of Transportation. Pursuant to Section 1507 of ACT 181, the duties and powers relating to highways do not contain the traffic regulations (including administration and enforcement of traffic, driver, and motor vehicle laws) and are therefore, not the responsibility of SCDOT.

SECTION IV- Firms, Companies, & Businesses with Contracts

The following are lists by five (5) categories of all firms, companies, or businesses that did business with the South Carolina Department of Transportation for FY 2018 (July 1, 2017 – June 30, 2018). Vendor Payments (pg. 7) include all payments for goods and services made during FY 2018. The Construction Contracts (pg. 77) are agreements for the construction, maintenance and improvement of the state highway system. Capital Improvements Contracts (pg. 84) are contracts related to the construction, renovation or maintenance of SCDOT facilities. Commodities and Services Contracts (pg. 86) are for goods and general services. Professional Services Contracts (pg. 92) are agreements with consultant firms for architectural and engineering related services for the construction and maintenance of South Carolina state roads and bridges. *The vendor names represented on the following lists are obtained from the South Carolina Enterprise System (SCEIS).*

Vendor Payments:

7000094049	CR Jackson Inc	\$ 83,356,551.96
7000042402	Palmetto Corp	\$ 77,538,248.07
7000040944	The Lane Construction Corporation	\$ 72,607,674.96
7000025057	Blythe Construction Inc	\$ 69,286,967.55
7000025456	Satterfield Construction Co Inc	\$ 60,391,338.11
