March 31, 2003

The Honorable Mark Sanford Members of the General Assembly of South Carolina

Dear Governor and Members:

Pursuant to Section 11-15-100 of the Code of Laws of South Carolina, 1976, as amended, I have the honor of transmitting herewith the Annual Local Government Debt Report prepared by the Office of the State Treasurer on the total debt outstanding of local governments in South Carolina for Fiscal Year Ended June 30, 2002.

The debt information provided in this report meets the statutory requirements for reporting annually on the outstanding debt obligations of all local governments. It also serves as a valuable tool to those seeking information for purposes of marketing, purchasing or selling such debt securities, or for economic development in some of these communities.

I am proud to say that the State continues to enjoy the AAA credit rating by all three major credit rating agencies, the highest rating in the nation. This high credit rating saves the taxpayers of the state millions of dollars in financing of its debt as well as political subdivisions in the financing of their debt. South Carolina is currently one of only eight states that enjoy the AAA credit rating from all three major rating services.

I am pleased to submit this comprehensive South Carolina Local Government Debt Report for Fiscal Year Ended June 30, 2002.

With kindest regards, I am

Very truly yours,

Grady L. Patterson, Jr.

State Treasurer

NOTES

Prior to Fiscal Year 2000 – 2001, lease-purchase financings were not included in outstanding debt totals; however, since lease-purchase contracts constitute long-term debt obligations, the value of those contracts has been included in both general obligation and revenue debt for Fiscal Year 2001, and will be included in future years.
