Report Rec #02	AGENCY: Provide a list of the tools case managers need to avoid duplication in performing their job duties along with the associated costs and a potential time frame to provide these tools	Complete	November 2019	No changes in finances	<p>In compliance with a LAC recommendation, DJJ purchased HPX360 small computers and cell phones with hot spots for community case managers. The cell phone device supported the HP X360s and provided an additional level of security for county case managers. However, after 2.5 years of use, it was determined that the HPX360 devices did not meet the needs of the county case managers and that a more robust solution was required.</p> <p>To address this issue, DJJ purchased 318 Dell Latitude 5590 model laptops, at a cost of \$276,032.95, for use by community case managers. In addition to the laptops, i7 phones were issued. These phones have added safety features with imbedded panic systems and are equipped with AirWatch to enable tracking. These devices increase the safety and efficiency of the work produced by community case managers.</p>	No negatives	

Notes:  
\* If implementation of a recommendation will result in a net cost to the agency, please include that as a negative number in column E.
