ABOUT THE COMMISSION

The South Carolina Commission for Minority Affairs was created in 1993 by the General Assembly to provide the citizenry of the State with a single point of contact for information regarding the State's minority population.

Additionally, the Commission was created to:

- Study the causes and effects of the socioeconomic deprivation facing minorities and work to implement initiatives to alleviate such deprivation;
- Establish a database of statistical information for distribution to members of the General Assembly and other entities capable of effecting change;
- Be the State's clearinghouse for minority statistical information and to publish a Statewide statistical abstract on minority affairs;
- Provide communities with a single point of contact to obtain raw data and information necessary for local research and planning;
- Liaison with community leaders, businesses, and elected officials to build the infrastructure needed to foster economic prosperity among the minority population;
- Serve as the catalyst for identifying and linking funding and programs from both the public and private sectors;
- Solicit funding for and coordinate programs necessary to address inequities confronting minorities in the state.

FOREWORD

South Carolina ranks sixth in the nation behind the District of Columbia, Georgia, Maryland, Mississippi, and Louisiana in minority population. South Carolina's population ranks sixth in the nation in terms of the number of African-Americans, following the District of Columbia, Georgia, Maryland, Mississippi, and Louisiana. Minorities constitute 36.3 percent of South Carolina's population, with African Americans representing 88.9% of all minorities in the State.

With such a large minority population, it is imperative that information regarding the socioeconomic status of minorities and their contribution to the overall socioeconomic prosperity of the State be well researched and documented.

This report provides statistical information on South Carolina's 46 counties. Information is presented by race and sex. The fact sheets address the status of poverty, income, single parent families, educational attainment, childbirth rates, drug use, the criminal justice system, and unemployment.

The State fact sheet has the same indicators as the country fact sheets. Comparisons can be made between each country fact sheet and the State figures.

The profile enlightens South Carolina's citizenry concerning the factors that impede minority economic growth and development. By highlighting these alarming statistics, hopefully, it will inspire initiatives that can alleviate conditions causing minority deprivation and poverty.

UNDERSTANDING THE STATISTICAL ABSTRACT

A brief explanation is provided below for each of the statistical categories contained in the abstract. For additional information, please contact the South Carolina Commission for Minority Affairs at (803) 333-9621.

Population – The total population by race and ethnicity.

Percent Population – The percentage of each population by race and ethnicity.

Median Household Income - The sum of money income received in the calendar year by all household members 15 years old and over living in the housing unit. This would include household members not related to the householder, people living alone, and other nonfamily household members. The median divides the household income distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median.

Median Family Income - This includes the income of the householder and all other individuals 15 years old and over in the household, who are related to the householder by birth, marriage or adoption and whom reside together. The median divides the family income distribution into two equal parts: one-half of the cases falling below the median income and one-half above the median.

Per Capita Income - The mean income computed for every man, woman, and child in a geographic area. It is derived by dividing the total income of all people 15 years old and over in a geographic area by the total population in that area.

Family Poverty - Families and persons are classified as **below poverty** if their total family income or unrelated individual income was less than the poverty threshold specified for the applicable family size, age of householder, and number of related children under 18 present.

Birth to Teen Mothers – Women under the age of 20 who have had live births of babies.

Birth to Teen Mothers Not Completing High School – The percentage of women under the age of 20 who have had live births of babies and who did not graduate from high school. Note: data is not available by race.

Birth Rate – The number of live births to women per 1,000 females in the population.

Live Birth - The complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.

Inadequate Prenatal Care – Classified as any woman of childbearing age with the number of expected visits for the unborn child as less than fifty percent of the number of actual visits.

Students Repeating One Grade (K-8) – The percentage of male and female students who had to repeat one or more grades between kindergarten up through the eighth grade.

Infant Mortality – The total number of infants that died prior to their first birthday.

Infant Mortality Rate - The ratio of the total number of infant deaths to live births expressed per 1,000 population.

Drug Use Among Students – The total and percentage of students ages 12- 18 who have used illegal drugs by race and gender.

Juvenile Court Referrals – The total and percentage of juveniles, ages 10-16 whom were referred to juvenile court, along with the percentage of referrals by race.

Adult Incarceration – The percentage of the adult population, ages 18 and over by race, gender and ethnicity. Percentages were compiled for the adult population on probation and parole by county in South Carolina. County totals and percentages by race and ethnicity were also compiled for the adult population housed in SC Department of Corrections facilities around the state.

Unemployment – The annual average percentage of the labor force who are unemployed, but actively seeking work. Annual average unemployment data is compiled by race and ethnicity.

Total Number of Businesses – The total number of businesses by race and ethnicity located in the county.

Total Firms With Paid Employees – The total number of businesses with paid employees by race and ethnicity located within the county.

Total Annual Payroll – The total annual payroll of businesses multiplied by \$1,000.
