B. An architect shall not affix, or permit to be affixed, the architect's seal or name to any plans, specifications, drawings, or other related documents which were not prepared by the architect or under the architect's direct responsible charge. - (2) It is verifiable;
- (3) It is under the professional's direct and sole control;

(4) It is linked to a document in such a manner that changes are readily determined and visually displayed if any data contained in the document file was changed subsequent to the electronic seal and signature having been affixed to the document, and

(5) Changes to the document after affixing the electronic seal and signature shall cause the electronic seal and signature to be removed or altered in such a way as to invalidate the electronic seal and signature;

(6) In addition, once the electronic seal and signature are applied to the document, the document shall be available in a view only format if the document is to be electronically transmitted;

(7) The graphic image of the electronic seal and signature shall be readily available and produced in a manner acceptable to the board. It shall contain the same words and shall have substantially the same graphic appearance and size as required above when the image of the electronically transmitted document is viewed at the same time as the document in its original form.

A. Conflict of Interest.

(1) When conditions of compensation are submitted in a proposal for a study, pre-design, or preliminary design service, where future opportunity for additional work on the project is also available to the offerer, such conditions must be consistent and representative of the real cost of services to be performed.

(2) An architect or firm shall not accept compensation for services from more than one (1) party on a project unless the circumstances are fully disclosed and agreed to (such disclosure and agreement to be in writing) by all interested parties.

(3) If an architect or firm has any business association or direct or indirect financial interest which is substantial enough to influence judgments in connection with the performance of professional services, the architect or firm shall fully disclose in writing to the client or employer the nature of the business association or financial interest, and if the client or employer objects to such association or financial interest, the architect or firm will either terminate such association or interest, or withdraw from the commission or employment.

(4) An architect or firm shall not solicit or accept compensation from materials or equipment suppliers in return for specifying or endorsing their products.

(5) When acting as the interpreter of building contract documents and the judge of contract performance, the architect or firm shall render decisions impartially, favoring neither party to the contract.

B. Full Disclosure.

(1) An architect or firm making public statements on architectural questions shall disclose when being compensated for making such statements.

(2) An architect or firm shall be accurate in representing to a prospective or existing client or employer the qualifications and the scope of responsibility in connection with work for which credit is claimed.

(3) If in the course of work on a project, the architect or firm becomes aware of a decision taken by the employer or client, against the architect's or firm's advice, which violates applicable state or municipal building laws and regulations and which will materially affect adversely the safety to the public of the finished project, the architect or firm shall:

(a) report the decision to the local building inspector or other public official charged with the enforcement of the applicable state or municipal building laws and regulations; and

(b) refuse to consent to the decision; and

(c) terminate services with reference to the project in circumstances where the architect or firm reasonably believes that other such decisions will be taken notwithstanding the architect's or firm's objections.

(4) On a project where a building permit has been issued and the sealing architect and the firm of record have not been engaged to perform at least minimum construction administration services, as defined in subsection (5) below, the sealing architect and firm must report to the permitting authority and the building owner that he and the firm have not been so engaged.

(5) The minimum construction administration services expected of the sealing architect and firm deemed necessary to protect the health, safety, and welfare of the public shall be periodic site observations of the construction progress and quality, review of contractor submittal data and drawings, and reporting to the building official and owner any violations of codes or substantial deviations from the contract documents which the architect observed.

(6) An architect or firm shall not deliberately make a false statement or fail deliberately to disclose a fact requested by the Board.

(7) An architect or firm shall not assist the application for registration of a person known by the architect or firm to be unqualified in respect to education, training, experience, or character.

(8) An architect or firm possessing knowledge of a violation of these rules by another architect or firm shall report such knowledge to the Board.

(9) An architect or firm shall cooperate fully upon request in matters pertaining to any investigation initiated by the Board.

C. Compliance with Laws.

(3) An architect or firm shall comply with the registration laws, rules, and regulations governing the practice of architecture in this State and in any other jurisdiction.

(4) An architect or firm shall not assist or aid any unlicensed person or firm in the unauthorized practice of architecture.

(5) No architect or firm shall be entitled to registration within this State who has been convicted of a felony or a crime of moral turpitude unless suitable evidence of reform is presented to the Board.

D. Professional Conduct.

(1) An architect or firm shall not sign or seal drawings, specifications, reports, or other professional work for which the architect or firm does not have direct professional knowledge and direct supervisory control; provided, however, that in the case of portions of such professional work prepared by the architect's, or firm's consultants, registered under this or another professional registration law of this jurisdiction, the architect or firm may sign or seal that portion of the professional work if the architect or firm has reviewed such portion, has coordinated its preparation, and intends to be responsible for its adequacy.

(2) An architect or firm shall neither offer nor make any gifts, other than gifts of nominal value (including, for example, reasonable entertainment and hospitality), with the intent of influencing the judgment of an existing or prospective client in connection with a project in which the architect or firm is interested.

(3) An architect or firm shall not engage in conduct involving fraud or wanton disregard of the rights of others.

(4) An architect or firm shall not act in any manner so as to mislead a client or the general public or so as to misrepresent its competence or qualifications.

E. Competence.

(1) An architect or firm shall act with reasonable care and competence and shall apply the technical knowledge and skill which is ordinarily applied by architects and firms in good standing in South Carolina.

(2) An architect or firm shall take into account all applicable state and municipal building laws and regulations. While an architect or firm may rely on the advice of other professionals (e.g., attorneys, engineers, and other qualified persons) as to the intent and meaning of such regulations, once having obtained such advice, an architect or firm shall not design a project in violation of such laws and regulations.

(3) An architect or firm, together with those whom the architect or firm may engage as consultants, shall undertake to perform professional services only when qualified by education, training, and experience in the specific technical areas involved.
