(2) Board Payments—These are monthly funds appropriated for daily care and maintenance for eligible children in foster care.

(3) The Foster Family—A family that is generally composed of a father and mother, but may be widowed, divorced or single adults, who are licensed by SCDSS, and who are mutually interested in and evidence a capability to care for foster children.

(4) Kinship Care Foster Family—This is a relative family that has been identified and licensed to provide foster care for a specified child or children. Unless otherwise stated, the term foster parent or foster family includes kinship foster care parents and families.

(5) Assessment Study—This is the actual documentation of the assessment study of a family or related family applying to provide foster care services, completed by designated agency staff of the South Carolina Department of Social Services or designated staff of a child placing agency.

(6) Child Placing Agency—For the purposes of these regulations, any person or entity who holds legal or physical custody of a child for the purpose of placement for foster care or adoption or a private placement, or a person or entity who facilitates the placement of children for the purpose of foster care or adoption or a private placement and, which for the purpose of these regulations, retain their own system of foster homes, is a child placing agency. 114–595. Standards for Supervised Independent Living.

A. Program Framework

(1) The goal of an independent living program is to prepare youths, ages sixteen to twenty-one, for successful adult living through the provision of services related to daily living, problem-solving, and other skills that maximize the youth's potential to be a self-supporting, productive adult. A

continuum of services shall be available and provided in accordance with the developmental readiness of youths served, in addition to their chronological age.

(2) There are three levels of independent living programs which may be offered by the group home, child caring institution, or child placing agency: on campus or in-home supervised services (Level 1); off campus or out-of-home supervised services (Level 2); and in-community, monitored services (Level 3). No program shall be licensed for Level 3, the community living, monitored component.

(3) Program Framework -REQUIRED.

(a) On campus or in-home supervised services (Level 1) provides twenty-four hour supervision by staff or foster parents who have separate quarters (i.e., bedroom and bathroom) within the facility or home with the youths in care. These services are used to initiate independent living concepts and to teach basic skills under immediate supervision.

(b) Off campus or out-of-home services (Level 2) are offered for youths who have some basic knowledge and skills and are ready for limited practice of those skills with some supervision. This level shall be limited to youths who are at least eighteen years of age (or for non-DSS placements at least seventeen if the placement agency defines seventeen as the age of adulthood) and who are employed or are in some type of post-secondary vocational preparation program. Level 2 services provide the youths with some opportunity for independent living through the availability of an apartment or other living arrangement which is separate from, but supervised by staff located on-site (e.g., youths share an apartment and staff has a separate apartment in the same building). The youths assume primary responsibility for daily living (e.g., cooking, shopping, money management, etc.) and staff supervision is supportive, less intensive, and available on-site twenty-four hours a day.

(c) Community, monitored living (Level 3) must be limited to youths who are eighteen years old and above, who have successfully completed at least one other level (1 or 2) of an independent living program, and are in a post-discharge status. No foster care board payments through DSS are available for a youth in a Level 3 program.

(4) Program Framework -RECOMMENDED -Community housing may be owned by the agency or organization licensed to provide the independent living program or rented by the agency, organization, or youth. A. Definitions

(1) Grant—the term used to describe the method of funding an educational or training program to be carried out by an educational institution on behalf of the agency. Such grants are actually formula grants; that is, they consist of seventy-five percent federal funds and twenty-five percent matching funds supplied by the grantee, and are awarded on a reimbursable basis as costs are incurred.

(2) Educational Institution—an accredited school, college, or university of the post-secondary, undergraduate, or graduate level.

(3) Expert—an individual, firm, or agency that possesses by virtue of training, education, or experience the ability to develop or implement any or all portions of a training or educational program needed by the agency.

B. Educational Grants.

(1) The agency, to the extent feasible and practical under existing federal and state regulations and manpower and funding resources, provides for long-and short-range staff development programs through the funding of grants to educational institutions. Such educational grants are for the purpose of providing a needed training or educational program for agency staff or eligible staff of providers. The grant may be for an in-service training program or for an educational program which may include curriculum development, classroom instruction, or field instruction.

(2) The following criteria shall be utilized by the agency in determining whether an educational grant will be funded:

(a) The proposed program must meet an agency determined manpower training and development need;

(b) The proposed program must be directly related to the administration and provision of agency services.

(c) The program must be directed at an appropriate target group within the agency and provider staff.

C. Provider Training Contracts.

(1) The agency may provide funding in support of training for employees of providers under contract with the agency. Such funding may be utilized for certain costs of training, as specified in 45 CFR Part 228, Subpart H. Any such funding shall be in support of training which is directly related to the provision of services under the provider's contract with the agency.

(2) The following criteria shall be utilized by the agency in determining whether training proposed by a provider will be funded:

(2) Forms, guidelines, and applicable federal regulations (45 CFR Part 228 and Part 74) concerning training and contracts are available from SD&T.

(3) Educational institutions, providers, and experts interested in developing a proposal for a training grant or contract should contact SD&T. SD&T will explore with interested parties agency manpower and training needs and coordinate appropriate involvement of agency program and operating staff. In addition, SD&T will provide technical assistance on the interpretation of applicable state and federal regulations.

(4) Written proposals for training and educational programs may be submitted to SD&T in the appropriate format at least two months prior to the proposed funding date. An original and three copies of the proposal are required.

F. General Criteria for Funding Training Grants and Contracts.

(1) The proposal must be soundly based on a training needs assessment.

(2) The proposal must present a sound design or method of design and plan for implementation.

(3) The program shall have objectives against which progress can be measured and success or failure determined.

(4) Programs funded by the agency with educational institutions and providers shall include an evaluation component to measure effectiveness of the program. The institution or provider shall be responsible for the design and implementation of the evaluation, subject to approval by the agency. An evaluation component may be required by the agency in contracts with experts.

(5) The program shall be administered and implemented by qualified staff.

(6) The provider, institution, or expert shall agree to abide by these regulations.

G. General Requirements and Conditions.

(1) Funds in support of the above activities consist of seventy-five percent federal money. The twenty five percent matching funds for grants and contracts will normally come from grantee sources. The matching funds shall be from a non-federal source and shall not be used as match for any other federal programs.

(2) If the agency determines to fund an education or training program, a written legally-binding contract shall be signed by both parties.

(3) Programs may be initiated at any time during the fiscal year; however, no contracts will extend beyond the close of the agency fiscal year, or in the case of providers, beyond the expiration date of their service contract.

(4) Providers, educational institutions, and experts with whom the agency contracts shall agree to furnish all required reports, forms and data on a timely basis and shall make their program-related records available for fiscal and programmatic monitoring and review and fiscal audits upon request of the agency.

F. Adequate Notice. Adequate notice shall be sent to applicants to indicate that assistance has been authorized, including the amount of financial assistance or that it has been denied.

G. Prompt Furnishing of Assistance. Financial assistance and services shall be furnished promptly to eligible individuals without any delay attributable to administrative process, and shall be continued regularly to all eligible individuals.

M. **General Provisions Regarding Coverage and Eligibility.**

The groups selected for inclusion in the State Plan and the eligibility conditions imposed must not exclude individuals or groups on an arbitrary or unreasonable basis, and must not result in inequitable treatment of individuals or groups. There must be clarity as to what groups are included in the State Plan.

(2) Eligibility conditions must be applied on a consistent and equitable basis throughout the State.

(3) Eligibility conditions or Department procedures or methods must not prevent an individual from applying and obtaining a determination of eligibility or ineligibility.

(4) Methods of determining eligibility must be consistent with the objective of assisting all eligible persons to qualify.

N. **Need and Amount of Assistance.**

(1) The determination of need and amount of assistance for all applicants and recipients will be made on an objective and equitable basis and all types of income will be taken into consideration in the same way except where otherwise specifically authorized by state statute.

(2) The needs, income, and resources of individuals receiving Supplemental Security Income (SSI) benefits under Title XVI of the Social Security Act, individuals with respect to whom Federal foster care payments are made, individuals with respect to whom State or local foster care payments are made, individuals with respect to whom Federal adoption assistance payments are made, or individuals with respect to whom State adoption assistance payments are made, for the period for which such benefits or payments are received, shall not be included in determining the need and the amount of the assistance payment.

(3) When the Department learns of an individual who is required to be included in the assistance unit, the Department must redetermine the assistance unit's eligibility and payment amount.

(4) In determining need and the amount of payment for the assistance unit, all income and resources of an individual required to be in the assistance unit, but subject to sanction are considered available to the assistance unit to the same extent that they would be if the person were not subject to a sanction.

114–1130. Non-Financial Criteria.

A. Relationship. A child may be considered to meet the requirement of living with a specified relative if his or her home is with a parent or a person in one of the following groups:

(1) Any blood relative, including those of half-blood, and including first cousins, first cousins once removed, nephews, or nieces, and persons of preceding generations as denoted by prefixes of grand, great, or great-great.

(2) Stepfather, stepmother, stepbrother, and stepsister.

(3) Persons who legally adopt a child or his parent as well as the natural and other legally adopted children of such persons, and other relatives of the adoptive parents in accordance with State law.

(4) Spouses of any persons named in the above groups even after the marriage is terminated by death or divorce.

B. Filing Unit. In order for the family to be eligible, an application with respect to a dependent child must also include, if living in the same household and otherwise eligible for assistance:

(1) Any natural or adoptive parent, and

(2) Any blood-related or adoptive brother or sister including those of half-blood; Exception: needs of disqualified alien siblings are not considered in determining the eligibility and payment of an otherwise eligible dependent child, and

(3) A stepparent living in the home. The stepparent's income may be reduced by any child support paid to legal dependents outside the home.

(4) When an individual who is required to be included in the assistance unit pursuant to paragraphs (1) and (2) above is also required to be included in another assistance unit, those assistance units must be consolidated, and treated as one assistance unit for purposes of determining eligibility and the amount of payment.

(5) Unborn children are not included in the filing unit.

C. Residence. The Department will not impose any residence requirement which excludes any individual who is a resident of the State except as provided in paragraph (2) of this section. For purposes of this section, a resident of the state is one:

(1) Who is living in the State voluntarily with the intention of making his or her home there and not for a temporary purpose. A child is a resident of the State unless he or she is living here on a temporary basis. Residence may not depend upon the reason for which the individual entered the State, except insofar as it may bear upon whether the individual is here voluntarily or for a temporary purpose; or

(2) Who is living in the State and is not receiving assistance from another State.

D. Citizenship and Alienage. To be eligible for assistance the dependent child, the caretaker relative or any other person whose needs are considered in determining the need of the child claiming aid must be either:

(1) A United States citizen or a legal alien who entered the United States before August 22, 1996, or

(2) Belong to one of the following alien categories:

(a) Refugees, asylees, and those whose deportation is withheld (only for their first five years in the United States).

(b) Veterans, persons on active duty, and their spouses and unmarried dependent children.

(c) Immigrants who have worked in the United States for ten years.

E. Age. To receive assistance a dependent child must be under eighteen years of age or under nineteen years of age and a full-time student in a secondary school (or in the equivalent level of vocational or technical training).

F. Furnishing of Social Security Numbers. As a condition of eligibility, each applicant for or recipient of FI benefits will be required:

(1) To furnish to the Department a Social Security Account Number, hereinafter referred to as the SSN (or numbers, if more than one has been issued).

(2) If he cannot furnish a SSN (either because such SSN has not been issued or is not known), to apply for such number with the Social Security Administration (SSA). The applicant or recipient shall apply directly for such number, submit verification of such application, and provide the number to the Department upon its receipt.

(3) The Department will assist the applicant or recipient in making applications for SSN's and will comply with the procedures and requirements established by the Social Security Administration for application, issuance, and verification of SSN's.

(4) The Department will not deny, delay, or discontinue assistance pending the issuance or verification of such numbers if the applicant or recipient has complied with the requirements of paragraph (2) above.

(5) The State or local agency will use such account numbers, in addition to any other means of identification it may determine to employ, in the administration of the FI Program.

(6) "Applicant" and "recipient" include for the purposes of this section the individuals seeking or receiving assistance and any other individual(s) whose needs are considered in determining the amount of assistance.

(7) The Department shall notify the applicant or recipient that the furnishing of the SSN is a condition of eligibility for assistance and that the SSN will be utilized in the administration of the program.

(8) The Department will submit all unverified SSN's to the SSA for verification. The State agency may accept as verified a social security number provided directly to the State agency by SSA or by another Federal or federally-assisted benefit program which has received the number from SSA or has submitted it to SSA for verification.

G. Temporary Absence. The Department will not provide assistance for a minor child or caretaker relative who has been or is expected to be absent from the home for a period of thirty consecutive days or more; however, the casemanager may extend the absence for up to an additional sixty days if it is determined that a longer absence would serve the best interests of the family.

H. Notice Requirements. In cases of intended action to discontinue, terminate, suspend or reduce assistance or to change the manner or form of payment to a protective payment:

(1) The State or local department shall give timely and adequate notice, except as provided for in paragraphs (2) or (4) of this paragraph. Under this requirement:

(a) "Timely" means that the notice is mailed at least 10 days before the date of action, that is, the date upon which the action would become effective;

(b) "Adequate" means a written notice that includes a statement of what action the Department intends to take, the reasons for the intended departmental action, explanation of the individual's right to request a State agency hearing, the circumstances under which assistance is continued if a hearing is requested, and if the agency action is upheld, that such assistance must be repaid.

(2) The Department may dispense with timely notice but shall send adequate notice not later than the date of action when:

(a) The Department has factual information confirming the death of a recipient or of the FI payee when there is no relative available to serve as new payee;

(b) The Department receives a clear written statement signed by a recipient that he no longer wishes assistance, or that gives information which requires termination or reduction of assistance, and the recipient has indicated, in writing, that he understands that this must be the consequence of supplying such information;

(c) The recipient has been admitted or committed to an institution, and is ineligible for further payments;

(d) The recipient has been placed in skilled nursing care, intermediate care or long-term hospitalization;

(e) The claimant's whereabouts are unknown and agency mail directed to him has been returned by the post office indicating no known forwarding address. The claimant's check must, however, be made available to him if his whereabouts become known during the payment period covered by a returned check;

(f) A recipient has been accepted for assistance in a new jurisdiction and that fact has been established by the jurisdiction previously providing assistance;

(g) A FI child is removed from the home as a result of a judicial determination, or voluntarily placed in foster care by his legal guardian.

(3) When changes in either State law require automatic grant adjustments for classes of recipients, adequate notice of such grant adjustments shall be given which includes a statement of the intended action, the reasons for such intended action, and a statement of the circumstances under which a hearing may be obtained and assistance continued.

(4) When the Department obtains facts indicating that assistance should be discontinued, suspended, terminated, or reduced because of the probable fraud of the recipient, and, where possible, such facts have been verified through collateral sources, notice of such grant adjustment shall be timely if it is received by the date the action would become effective.

I. Institutional Status.

(1) Assistance is not available for any individual who is an inmate of a public institution, such as a correctional institution, juvenile detention facility, etc.

(2) Assistance is available for the month of entry and the following month for an individual who enters a medical institution or an institution for mental diseases.

(a) "Medical institution" means an institution which:

(i) Is organized to provide medical care, including nursing and convalescent care;

(ii) Has the necessary professional personnel, equipment, and facilities to manage the medical, nursing, and other health needs of patients on a continuing basis in accordance with accepted standards;

(iii) Is authorized under State law to provide medical care;

(b) "Institution for mental diseases" means an institution which is primarily engaged in providing diagnosis, treatment or care of persons with mental diseases, including medical attention, nursing care, and related services.

(3) Assistance is available for recipients who enter facilities operated by the Department of Alcohol and Other Drug Abuse Substances for the month of entry and the following month.

J. Minor Unmarried Parent. The Department requires a minor unmarried parent under age eighteen to live in the household of her parent, legal guardian, other adult relative or in an adult supervised supportive living arrangement (e.g., a foster home or maternity home) in order to receive FI benefits unless:

(1) The minor parent has no living parent or legal guardian whose whereabouts is known;

(2) No living parent or legal guardian of the minor parent allows the minor parent to live in his or her home;

(3) The minor parent lived apart from his or her own parent or legal guardian for a period of at least one year before either the birth of the dependent child or the parent's having made application for FI;

(4) The physical or emotional health or safety of the minor parent or dependent child would be jeopardized if they resided in the same residence with the minor parent's parent or legal guardian;

(5) There is otherwise good cause for the minor parent and dependent child to receive assistance while living apart from the minor parent's parent, legal guardian, or other adult relative, or an adult-supervised supportive living arrangement.

(6) If a minor parent makes allegations supporting the conclusion that paragraph J(4) of this section applies, the Department shall determine whether it is justified.

(7) The circumstances justifying a determination of good cause include but are not limited to written statements from at least two corroborating persons showing that it is not in the best interest of the minor parent to live with his or her parents, legal guardian or in an adult-supervised supportive living arrangement.

(8) When a minor parent and his or her dependent child are required to live with the minor parent's parent, legal guardian, or other adult relative, or in an adult-supervised supportive living arrangement, then FI is paid (where possible) in the form of a protective payment.

(9) A minor parent applicant shall be informed directly about FI eligibility requirements including his or her rights and responsibilities under the program. He or she shall be told of the possible exemptions set forth in this section and be asked whether one or more of the exemptions is applicable to his or her situation. The Department will assist the minor in obtaining the necessary verification if one or more of these exemptions is alleged.

K. Denial of Benefits to Strikers. Participation in a strike shall not constitute good cause to leave, or to refuse to seek or accept employment.

(1) FI benefits will be denied to any family for any month in which any caretaker relative with whom the child is living is, on the last day of such month, participating in a strike; and

(2) No individual's needs shall be included in determining the amount of assistance payable for any month to a family under the plan if, on the last day of such month, such individual is participating in a strike.

(3) Definitions: "Strike" is defined by using the National Labor Relations Board definition (29 U.S.C. 142(2)). For purposes of paragraph (1) above, "caretaker relative" means any natural or adoptive parent.

L. Identity and Proof of Residence. The Department shall require that all persons applying for assistance shall provide acceptable identification and proof of residence in the State.

M. Change Reporting Requirements. Family Independence applicants and recipients shall report the following changes within ten days:

(1) A change in the composition of the household;

(2) A change of address; or

(3) Obtaining a job or losing a job.

(4) Failure to report any of the above changes does not excuse the client from repayment of benefits in the situation where failure to report caused an overpayment of the FI benefit.

N. Child Support Requirements.

(1) Cooperation with Child Support.

(a) Applicants and recipients of FI must provide as a condition of receiving benefits:

(i) The first and last name of the absent parent and putative father and any known licenses as defined in 1976 Code Section 20-7-941(4); and

(ii) At least two of the following items on each absent parent and each putative father named: date of birth, SSN, last known home address, last known employer's name and address, or either of the absent parent's parent's name and address.

(iii) An applicant or recipient who fails to provide this information or who provides the names of two putative fathers, both of whom are excluded from paternity by genetic testing, is ineligible for assistance for herself and the child for whom parental information was not provided, unless the applicant or recipient asserts, and the Department verifies, there is good cause for not providing this information.

(b) Upon legal establishment of paternity of the child in question, FI benefits may be established or reinstated if all other eligibility requirements are met.

(c) If an applicant or recipient claims good cause for refusing to cooperate with child support requirements, the Department's determination of good cause is to be made within forty-five days from the day the good cause claim is made.

(d) If the Department determines that good cause exists, it also makes the determination of whether child support enforcement could proceed without risk of harm to the child or caretaker relative if the enforcement or collection activities would not involve their participation.

(2) Sanctions. If the applicant or recipient fails to provide the information requested in N(1)(a) above the parent and child for whom the information is requested are sanctioned by having their needs left out of the FI budget.

(3) Assignment of Rights to Child Support and Spousal Support. By the act of accepting FI benefits, the applicant assigns any right he or she has to child support or spousal support monies from responsible absent parents whose children are receiving FI benefits to the Department of Social Services in accordance with § 43-5-65 of the 1976 South Carolina Code. The Department may take action to collect child and/or spousal support from absent parents with or without the permission of the applicant or recipient. The Department may retain these support collections up to the amount allowed under federal laws and regulations.

O. Time Limited Benefits.

(1) Family Independence benefits are limited to no more than twenty-four months in a one hundred twenty month period and to no more than sixty months in a recipient's lifetime.

(2) Twenty-four and sixty month time limits apply to benefit groups containing adult parent/caretaker relatives receiving benefits for themselves and minor children.

(3) Minor children living in the home with the adult caretaker under their daily parental care and guidance are ineligible for benefits within that family unit once the adult has received sixty months of FI regardless of the number of months of benefits the child(ren) has received.

(4) Once a minor child reaches age eighteen, he/she may apply to receive FI, and if eligible, may receive under the time limit standards without regard to the amount of FI he/she received as a child.

(5) Children who have received benefits and who are terminated due to the adult in the household reaching the time limit may not receive benefits in the care of another caretaker relative unless it is established that the child(ren) is abandoned. The presumption will be made by the Department that the child(ren) is not abandoned, except in the case of the death of the parent/caretaker relative. This presumption may be rebutted by the applicant only through the Fair Hearing process.

(6) Additional exceptions to the time limits set forth in paragraph P(1) above are as follows and as such do not cause the adult FI recipient to accumulate countable benefit months against the time limits:

(a) The head of household is permanently and totally disabled, whether physical or mental.

(b) The head of household is providing full-time care for a disabled individual in the home.

(c) The parent of the child for whom benefits are received is a minor under the age of eighteen who has not completed high school. Benefits may be provided for a period of up to twenty-four months after the minor parent attains age eighteen or completes high school, whichever occurs first.

(d) The individual is involved in an approved training program which will not be completed by the twenty-fourth month may receive up to a maximum six month extension of benefits. No extension may be granted beyond the thirtieth month except with the express permission of the county director. To be extended beyond thirty months, the recipient must be currently enrolled in a training or educational program, making satisfactory progress toward completion and completion of the program should provide the recipient entree to employment opportunities that provide a salary significantly above the federal minimum wage.

(e) The adult head of the household is not the parent of a child and is not included in the benefit group.

(f) The adult head of household is providing a home for and caring for a child whom the Department has determined to be abandoned by his/her parents and for whom the alternative placement is foster care. If the adult head of household is included in the FI benefit he/she must comply with all FI program requirements. If failure to comply results in termination of benefits, the Department will evaluate the case to determine whether or not the child(ren) should be placed in foster care. If the Department determines that the child(ren) should remain with the caretaker relative, a protective payee other than the caretaker relative must be appointed.

(g) Lack of child care when the Department is unable to provide child care for a recipient in accordance with Department established guidelines (the participant will be exempt from the time limit standard for the period of time the agency is unable to provide the service).

(h) Lack of transportation when the Department is unable to provide transportation for a recipient, who lives more than one and one-half miles from his/her work, training, education or

child care destination, in accordance with agency established guidelines (the participant will be exempt from the time limit standard for the period of time the agency is unable to provide the service).

(i) [Reserved]

(j) The recipient can establish by clear and convincing evidence to the Department that the recipient has fully complied with the recipient's agreement with the Department including:

(i) Diligently seeking all available employment and following up on all employment opportunities known to the Department or related state agencies, for which the recipient is qualified.

(ii) Demonstrating a willingness to relocate.

(iii) Cooperating fully with all state agencies in order to strive to become gainfully employed; and the Department is satisfied that no available employment reasonably exists for the recipient and that there is no other means of support reasonably available to the recipient's family. Every sixty days the Department shall conduct a review of the recipient's compliance with the requirements of this item. Under this review, benefits provided pursuant to this item may only be extended for a maximum of twelve additional months. At the end of the twelve month extension, further benefits may only be provided with the express permission of the county director who must certify that the person is engaged in education, training, or other employment-related activities.

(k) No sooner than sixty and not later than ninety days after an FI recipient's benefits are terminated under the time limits for the receipt of FI as provided for in this section, the Department shall conduct an assessment of and make recommendations, as appropriate, for the health and well-being of the children in the care and custody of the former FI recipient.

P. Protective Payee.

(1) Protective payments for money mismanagement are made to a protective payee when:

(a) the parent/caretaker relative fails to use the benefits to the best interest of the child. This occurs when the parent/caretaker relative has misused funds to the extent that a threat to the health or safety of the child exists. Also, the mismanagement is willful and consistent and the parent or caretaker relative is mentally and physically capable of learning and carrying out sound money management. The Department must provide the parent/caretaker relative counseling services aimed at improving money management.

(b) the parent/caretaker relative is not physically or mentally capable of learning money management.

(2) The representative payee may be removed when the parent/caretaker relative is considered able to manage the benefits. Protective payee cases will be reviewed at least every 12 months to determine if a protective payee should continue.

(3) Role of and appointment of the protective payee:

(a) The individual who agrees to act as protective payee for a recipient assumes a dual responsibility to the recipient and to the Department. In accepting an appointment, the protective payee assumes the obligation to see that the FI payment is spent for the benefit of the family and to work cooperatively with the Department in fulfilling this role. The protective payee is not responsible for: providing eligibility information; reporting changes; or completing the application.

(b) The selection of a protective payee will be made with the participation and consent of the recipient, to the extent possible. If it is in the best interest of the recipient for a staff member of the Department, of a private agency, or of any other appropriate organization to serve as a protective payee, such selection will be made preferably from the staff of an agency or that part of the agency providing protective services for families. The selection will not include: the county director of a local department administering the FI Program; staff involved in the determining financial eligibility of families; special investigative or resource staff; or staff handling fiscal processes related to the recipient; or landlords, grocers, or other vendors of goods, services, or items dealing directly with the recipient.

Q. Referral for Alcohol and Drug Treatment.

(1) The following recipients shall participate in an alcohol or drug treatment program approved by the Department of Alcohol and Other Drug Abuse Services (DAODAS) as part of their Individual Self-Sufficiency Plan (ISSP). The Department will refer to DAODAS for clinical assessment for participation in an alcohol or drug treatment program FI recipients who:

- (a) Have been identified by a casemanager with concurrence from a supervisor as possibly being in need of alcohol or drug abuse treatment service using indicators provided by DAODAS;
- (b) Have been convicted of an alcohol or drug related offense; or
- (c) Give birth to a child who tests positive for drugs.

(2) Determination that substance abuse treatment is necessary will be made by appropriate clinical staff approved by DAODAS. Such staff will also assess the participant's compliance with the treatment program using recognized methods of assessment including, but not limited to, random testing. In no instance shall failure to pass a random test by itself constitute a non-compliance with treatment.

(3) The Department will monitor participants who complete the approved DAODAS treatment program using recognized methods of assessment including, but not limited to, random testing.

(4) Failure to pass such a random test for alcohol shall not constitute the basis for a sanction, but may constitute grounds for a review by a clinical professional who will determine if there are additional indicators of substance abuse or grounds for resumption of treatment.

(5) The Department may impose a full-family sanction for noncompliance with the ISSP participants who complete treatment and fail to pass a random test for use of illegal drugs.

(6) The Department may impose a full-family sanction for noncompliance with the ISSP participants who fail to complete a treatment program for alcoholism or substance abuse.

(7) Applicants who meet the criteria to be referred to DAODAS for alcohol or drug treatment but who refuse to be referred will have their FI application denied.

(8) The Department will keep records of an individual's alcohol and drug treatment participation confidential and will not release this information to law enforcement personnel.

R. Establishment of Paternity in the FI Program. Establishment of paternity in the FI program solely for the purpose of determining relationship to the child's alleged biological father and paternal relatives can be effected by the following methods:

(1) If the mother is available to give a statement, the person she names is considered to be the child's father, unless denied in a written statement by the alleged biological father.

(2) If the mother is not available (deceased, whereabouts unknown etc.) paternity can be established as follows, unless denied in a written statement by the alleged biological father.

(a) The child's birth certificate or other verification from the Department of Health and Environmental Control listing the father's name;

(b) A written statement from the alleged father acknowledging paternity;

(c) Written evidence that paternity has been proven in a judicial proceeding (divorce decree, child support order, etc.);

(d) The subsequent marriage, ceremonial or common-law, of the alleged father to the mother and his acknowledgment that he is the father of the child;

(e) Prior FI case file documentation of the mother's statement of the child's paternity;

(f) Prior FI case file documentation of the alleged father's acknowledgment of paternity;

(g) Social Security Administration records showing that benefits are being paid on the alleged father's account for the child; or

(h) Court records showing the mother had, under oath, asserted the father's identity, provided the court did not find the man not to be the father.

S. Data Collection and Reporting. The Department will collect and submit to the Secretary of the Department of Health and Human Services the data required in Section 411 of Public Law 104-193, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

HISTORY: Added by State Register Volume 19, Issue No. 5, eff May 26, 1995. Amended by State Register Volume 21, Issue No. 6, Part 2, eff June 27, 1997.

114–1140. Financial Criteria.

A. Need Standard

(1) The Department has a fully consolidated need standard and all needs are included in a flat amount per family size.

(2) The FI need standard, by family size, is set by the Department at fifty percent of the current year's "Health and Human Services Poverty Guidelines for All States (except Alaska and Hawaii) and the District of Columbia." The Department shall adjust the need standard annually after the State's General Appropriation Act is passed and signed by the Governor. The standard will be uniformly applied throughout the State.

(3) The Department does not meet full need as defined by its need standard; therefore, it uses a ratable reduction to control the amount of the benefit. The need standard, by family size, multiplied by the ratable reduction percentage determines the Department's Payment Standard. The ratable reduction is set by the Department annually based on the amount of money appropriated for FI benefits in the General Appropriations Act, also taking into account the anticipated number of FI recipients to whom benefits will be paid in the next State fiscal year. The Department may adjust the ratable reduction during the fiscal year if the anticipated number of recipients increases or decreases. The need standard, payment standard and ratable reduction are available at the Department's State Office, Columbia, South Carolina.

(4) The FI benefit will be rounded down to the next lower whole dollar when the result of determining the standard of need or the payment amount is not a whole dollar. Proration to determine the amount of payment for the month of application must occur before rounding to determine the payment amount for that month.

(5) In the case of FI, no payment of assistance shall be made to an assistance unit in any month in which the amount of assistance prior to any adjustments is determined to be less than ten dollars.

(6) An assistance unit that is denied assistance because of the limitation specified in (5) of this section or because the payment amount is determined to be zero as a result of rounding down the payment shall be deemed a recipient for all other purposes.

(7) A month in which a recipient does not receive a cash benefit, regardless of the reason, does not count as a month against the time limit.

B. No Benefit Increase for a Child Born Ten Months after Receipt of Family Independence Benefits.

(1) In determining the size of the BG for eligibility and payment determination, there must be no increase in BG size due to a child born to an FI recipient ten or more months after the BG begins to receive FI.

(a) This does not include a child born to a minor mother who is required to be in her mother's BG.

(b) Income and resources of this child are counted in the FI eligibility and benefit calculation.

(c) This provision does not apply if it is determined that this child was conceived as a result of rape or incest.

(2) The Department may provide vouchers for a child born ten months or more after initial receipt of FI assistance. The vouchers may be used to pay for goods and services for the child, as determined by the Department, which will enable the mother to participate in education, training and employment related activities. The Department will determine the monthly amount to be expended for these services dependent on the funds available.

C. Resource Limit and Exclusions. The amount of real and personal property that can be reserved for each assistance unit shall not be in excess of twenty-five hundred dollars equity value excluding only:

(1) The home and its contiguous property (even if separated by public right-of-ways) which is the usual residence of the assistance unit;

(2) One burial plot (as defined by the Department) for each member of the assistance unit;

(3) Bona fide funeral agreements (as defined by State law) up to fifteen hundred dollars in value, plus any interest accrued, for each member of the assistance unit;

(4) Real property which the family is making a good faith effort (as defined by the Department) to sell. A good faith effort means agreeing to sell the property at the current market value and putting the property up for sale in the area where it commands a market.

(5) Basic maintenance items essential to day-to-day living such as clothes, furniture and other similarly essential items of limited value.

(6) The cash value of life insurance policies.

(7) Items of assistance technology for a handicapped person required to develop or maintain life or work skills, such as a power wheel chair or computer shall not count against the two thousand five hundred dollar resource limit. Adaptive items added to a care or van shall not increase its book value.

D. Special Benefit Payment Situations.

(1) Payment is made for the entire month, except the month of application, to or for a family which, for any portion of the month, met all of the eligibility conditions, provided the family was eligible on the date payment was made.

(2) Payment is made for the entire month in the course of which a child leaves the home of a specified relative, provided payments are not made for a concurrent period for the same child in the home of another relative or while the child is in a foster care home.

(3) Payment is made to persons acting for relatives in emergency situations that deprive a child of the care of the relative through whom he has been receiving benefits for a temporary period necessary to make and carry out plans for the child's continuing care and support.

E. Vehicles. One licensed vehicle per budget group not to exceed ten thousand dollars fair market value (as determined by N.A.D.A. Official Used Car Guide or equivalent publication) is exempt from the asset limit.

F. Inaccessible Resources. The following resources are considered to be inaccessible and are not counted against the FI resource limit:

(1) Security deposits being held on rental property or utilities.

(2) Property in probate or awaiting probate (includes property of individuals who die intestate).

(3) Property in Chapter 13 bankruptcy unless exempted from bankruptcy proceedings by the Bankruptcy Court and the Trustee in Bankruptcy.

(4) Property in equitable or existing trust where one individual holds the title to the property but another non-budget group member pays the purchase price, including monthly payments, and is responsible for the general upkeep of the property. This principle applies to both liquid and non-liquid resources.

(5) Property with multiple owners when it is not possible to obtain the consent of all the owners to sell the property.

G. Transfer of Resources.

(1) A budget group member that has transferred a countable resource(s) may be sanctioned for up to one year if:

(a) The resource(s) was transferred within the three-month period immediately preceding the application filing date; and

(b) The resource(s) was transferred for the purpose of qualifying for benefits; or

(c) The resource(s) was transferred at any time after approval for benefits.

(2) The length of the disqualification period is based on the amount by which the transferred resource(s) when added to other countable resources exceeds the allowable resource limit. For applicant households, the disqualification period begins with the month of application; for recipient households, the month after the timely notice is received.

(3) Disqualification Periods:

\$0	to	\$249.99	1 month
250	to	999.99	3 months
1,000	to	2,999.99	6 months
3,000	to	4,999.99	9 months
5,000	to	and up	12 months

(4) Transfer of resources will not result in disqualification when:

- (a) The resource would have been excluded; or
- (b) The resource was sold or traded at the approximate fair market value; or
- (c) The resource was transferred to another eligible or sanctioned budget group member; or
- (d) The resource was transferred for a reason other than qualifying for benefits.

H. Irrevocable Trusts. The funds in an irrevocable trust are considered inaccessible to the budget group; however, any income paid from the trust to the budget group is counted as unearned income.

I. Individual Development Accounts.

(1) A savings account owned by a recipient and designated by the recipient as an Individual Development Account (IDA) which has a value of ten thousand dollars or less is excluded from the FI resource limit.

(2) A savings account owned by an FI recipient prior to application, with a value of two thousand five hundred dollars or less, may be converted to an IDA.

(9) Assistance from other agencies and organizations will be excluded in determining the amount of assistance to be paid, provided that no duplication shall exist between such other assistance and that provided by the FI Program. In such complementary program relationships, nonduplication shall be assured by the fact that FI funds are insufficient to meet the total amount of money determined to be needed in accordance with the statewide standard. In such instances, grants by other agencies in an amount sufficient to make it possible for the individual to have the amount of money determined to be needed, in accordance with the FI standard, will not constitute duplication.

(10) Payments for home energy assistance will be excluded if certified by the Division of Economic Opportunity, Office of the Governor (or its successor), as being based on need.

(11) The principal of a bona fide loan will not be counted as income or a resource in the determination of eligibility and the amount of assistance. To be eligible for this deduction, the family must incur a child care expense for a dependent child(ren) living in the home. P. Determination of Need and Amount of Assistance. After all policies governing the reserves and allowances and disregard or setting aside of income and resources referred to in this section have been uniformly applied:

(1) In determining need, financial eligibility and the amount of the assistance payment all remaining income shall be considered in relation to the State's need standard.

(2) Income and resources are considered available both when actually available and when the applicant or recipient has a legal interest in a liquidated sum and has the legal ability to make such sum available for support and maintenance.

(3) Income tax refunds shall be considered as resources.

(4) Lump sum payments shall be treated as resources for applicants and recipients. When the lump sum includes a payment for the current month, that amount is treated as income.

(5) Income received by individuals employed on a contractual basis may be prorated over the period of the contract; or intermittent income received quarterly, semiannually, or yearly may be prorated over the period covered by the income.

(8) Income of sanctioned budget group members will have their income counted toward the budget group.

(9) In family groups living together, income of the spouse is considered available for the budget group and income of a parent(s) is considered available for dependent children under 19. (10) A minor parent recipient living in the home will have income deemed to the minor parent budget group from his or her parent's income. The amount of income to be deemed shall be determined by computing the parent's gross monthly income and then subtracting an amount equal to the monthly gross income limit for a family size comprised of the parents and their legal dependents exclusive of the minor parent; the remainder is the amount of deemed income.

Q. Recovery of Overpayments and Correction of Underpayments.

(1) The Department will specify uniform statewide procedures for recovery of overpayments of assistance, including overpayments resulting from assistance paid pending hearing decisions. Overpayment means a financial assistance payment received by or for an assistance unit for the payment month which exceeds the amount for which that unit was eligible.

(a) Any recovery of an overpayment to a current assistance unit, including a current assistance unit or recipient whose overpayment occurred during a prior period of eligibility, must be recovered through repayment (in part or in full) by the individual responsible for the overpayment or by recovering the overpayment through reducing the amount of any assistance payable to the assistance unit of which he or she is a member, or both.

(b) If recovery is made from the grant, such recovery shall result in the assistance unit retaining, for any payment month, from the combined assistance, income, and liquid resources not less than 90 percent of the amount payable to a family of the same composition with no other income. If the Department chooses to recover at a rate less than the maximum, it must recover promptly.

(c) The Department shall recover an overpayment from:

(i) the assistance unit which was overpaid, or

(ii) any assistance unit of which an adult member of the overpaid assistance unit has subsequently become a member, or

(iii) any adult members of the overpaid assistance unit whether or not currently recipients. If the Department recovers from individuals who are no longer recipients, or from recipients who refuse to repay the overpayment from their income and resources, recovery shall be

made by appropriate action under State law against the income or resources of those individuals, or

(iv) any assistance unit of which an adult member accessed all or part of their monthly payment at a liquor store, a casino, gambling casino or gaming establishment, or an adult-oriented entertainment establishment. The amount of the overpayment shall equal the amount accessed at any of the locations listed in 114–1150(F).

(d) If through recovery, the amount payable to the assistance unit is reduced to zero, members of the assistance unit are still considered recipients of FI.

(e) In cases which have both an underpayment and an overpayment the Department must take one of the following three actions by the end of the quarter following the quarter in which the overpayment is first identified:

- (i) recover the overpayment, or
- (ii) initiate action to locate and/or recover the overpayment from a former recipient, or
- (iii) execute a monthly recovery agreement from a current recipient's grant, income or resources.

(2) Underpayments. The Department will specify uniform statewide policies for prompt correction of any underpayments to current recipients and those who would be a current recipient if the error causing the underpayment had not occurred. Underpayment means a financial assistance payment received by or for an assistance unit for the payment month which is less than the amount for which the assistance unit was eligible, or failure by the State to issue a financial assistance payment for the payment month to an eligible assistance unit if such payment should have been issued. The number of months for which retroactive underpayment corrections shall not exceed twelve. Retroactive corrective payments shall not be considered as income, or as a resource in the month paid nor in the next following month.

(3) In locating former recipients who have outstanding overpayments the Department should use appropriate data sources such as State Unemployment Insurance files, South Carolina Department of Revenue and Taxation information from tax returns, state automobile registration, IEVS, and other files relating to current or former recipients.

(4) The Department must maintain information on the individual and total number and amount of overpayments identified and their disposition for current and former recipients.

(5) The Department may elect not to attempt recovery of an overpayment from an individual no longer receiving assistance where the overpayment amount is less than \$35. Where the overpayment amount owed by an individual no longer receiving assistance is \$35 or more, the Department can determine when it is no longer cost-effective to continue overpayment recovery efforts, provided it has made reasonable efforts to recover the overpayment from the individual. Reasonable efforts must include notification of the amount of and reasons for the overpayment and that repayment is required.

(6) FI established claims for overpayment of benefits that are thirty-five dollars or greater and are more than ninety days delinquent are referred to the South Carolina Department of Revenue and Taxation and/or the United States Internal Revenue Service for intercept of those claims from tax refunds due persons against whom the claims are established. Clients are given written notification by the Department when delinquent claims are referred for state and/or federal tax intercept.

114–1150. Determination of Benefits.

A. Gross Income Limit. Gross monthly countable earned and unearned income of the Family Independence benefit group must not exceed 185 percent of the need standard by family size. The gross income limit is an initial screen of eligibility for assistance.

B. Earned Income and Unearned Income.

(1) Earned income means gross earned income prior to any deductions for taxes or for any other purposes. Such earned income may be derived from an applicant's or recipient's own employment,

such as a business enterprise, or farming; or derived from wages or salary received as an employee. It includes earnings over a period of time for which settlement is made at one given time, as in the instance of the sale of farm crops, livestock, or poultry.

(2) With reference to commissions, wages, or salary, earned income means the total amount, irrespective of personal expenses, such as income-tax deductions, lunches, and transportation to and from work, and irrespective of expenses of employment which are not personal, such as the cost of tools, materials, special uniforms, or transportation to call on customers.

(3) With respect to self-employment income, earned income means the total profit from a business enterprise, farming, etc., resulting from a comparison of the gross receipts with the business expenses (i.e., expenses directly related to producing the goods or services and without which the good or services could not be produced). The profit shall be as determined using Internal Revenue Service methods.

(4) With regard to the degree of activity, earned income is income produced as a result of the performance of services by a recipient; in other words, income which the individual earns by his own efforts, including managerial responsibilities, would be properly classified as earned income, such as management of capital investment in real estate. Conversely, in the instance of capital investment wherein the individual carries no specific responsibility, such as where rental properties are in the hands of rental agencies and the check is forwarded to the recipient, the income would not be classified as earned income.

(5) Unearned income is any income that does not meet the definitions of earned income above, such as direct child support, social security benefits, interest, dividends and gifts.

(6) Unemployment compensation benefits are treated as unearned income in the budgeting process.

C. Disregard of Earned Income. For purposes of eligibility and benefit determination, provided the benefit group has passed the gross income limit test in item A above, the Department will disregard from earned income:

(1) Fifty percent of the monthly gross countable earned income, of each individual whose needs are included in the budget group, for the first four months in which earned income is countable. This disregard can be received only once in twenty-four months.

(2) One hundred dollars per month from gross countable income of each individual whose needs are included in the budget group, for the remaining months of eligibility after the four months in paragraph (1) above have been exhausted.

(3) Casemanagers will counsel with recipients concerning the advantages and disadvantages of receiving a small FI benefit for a few months versus closing their case and possibly losing transitional Medicaid benefits as opposed to saving their time limited months for a possible future emergency, such as becoming unemployed.

D. Prospective Eligibility and Budgeting. All factors of eligibility shall be determined prospectively and the monthly amount of assistance will be computed based on a best estimate of income and circumstances which will exist in the benefit month. This estimate shall be based on the Department's reasonable expectation and knowledge of current, past, or future circumstances. Monthly income is estimated prospectively based on past income from the previous four weeks and anticipated changes in income. Expenses may be estimated prospectively using the same methodology. Weekly income is multiplied by 4.33 to convert it to monthly income.

E. Payment Determination. To determine the amount of the payment for the benefit group, subtract countable income from the full need standard and multiply the result (deficit) by the ratable reduction.

F. Payment Methods. Money payments made to eligible families may be made by checks, warrants immediately redeemable at par, by electronic benefits transfer, or direct deposit to bank accounts. Family Independence payments are not to be accessed, by electronic transaction using a Point-of-Sale device, ATM, or access to an online system for the withdrawal of funds or the processing of a payment for merchandise or a service, at any of the following locations:

(1) A liquor store. A liquor store means any retail establishment which sells exclusively or primarily intoxicating liquor. Such term does not include a grocery store which sells both

intoxicating liquor and groceries including staple foods (within the meaning of section 3(r) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(r)).

(2) A casino, gambling casino or gaming establishment.

(3) An adult oriented entertainment establishment. An adult oriented establishment is defined as a retail establishment that provides adult-oriented entertainment in which performers disrobe or perform in an unclothed state for entertainment.

114–1160. Work Requirements.

A. Individualized Self-Sufficiency Plan.

(1) Each adult and minor parent recipient of FI must sign an Individualized Self-Sufficiency Plan (ISSP) with the Department that states the actions the recipient must take to become employed and the time frames for completing these actions. The agreement must also state the services the Department will provide and coordinate to assist the recipient to become employed. Refusal to sign the ISSP will cause the FI case to be subject to sanction.

(2) An FI recipient who fails, without good cause, to comply with the employment and training requirements of the ISSP shall be granted a thirty-day conciliation period to reconsider the decision not to comply with the terms of the agreement.

(a) The notice of conciliation serves to advise the recipient that a conciliation conference is necessary and that his case may be terminated at the end of the thirty-day conciliation period if conciliation has not been accomplished.

(b) A conciliation conference must be conducted within ten calendar days of the date of the notice, unless the recipient can establish good cause for failure to keep the appointment.

(c) If the recipient agrees to comply, within the thirty-day conciliation period, FI benefits will be continued without interruption, although they may be delayed.

(d) A timely and adequate notice must be sent to terminate benefits to the entire family if the client fails to keep the conciliation appointment or if the client fails to comply with the conciliation requirement.

(e) If the conciliation decision is adverse to the recipient, the recipient has ten days in which to request a fair hearing.

(f) If the recipient agrees to comply after the thirty-day conciliation period has expired, compliance must be demonstrated by participating in the employment and training program for thirty days prior to the reinstatement of FI benefits.

(g) If the recipient's FI case is closed a new written FI application is not required if the recipient agrees to comply with the requirement that caused the case closure and reapplies within sixty days of the closure. The existing application on file must be resigned and dated. The requirement of section A(2)(e) above applies to this reapplication.

(3) A recipient may be exempted from complying with the employment and training requirements for the following reasons:

(a) The parent or caretaker relative has a child under one year of age; however, custodial parents under age twenty-five who have not completed their high school education shall comply with these provisions regardless of the age of the child;

(b) Is at least six months pregnant and the pregnancy is verified by a qualified licensed health care provider;

(c) Is incapacitated and the incapacity is verified by a physician, and if the Department considers it necessary, confirmed by an assessment performed by the Department of Vocational Rehabilitation, as a physical or mental impairment that prevents the recipient from engaging in gainful employment or participating in education or training;

(d) Is caring for an incapacitated person whose incapacity has been verified by a physician, and if the Department considers it necessary, confirmed by an assessment performed by the Department of Vocational Rehabilitation;

(e) Is unable to participate because child care and reasonable transportation were not provided when needed for participation in employment and training programs.

(4) All FI benefits will be terminated if a recipient completes the training requirements contained in the ISSP and then refuses an offer of employment.

B. Initial Job Search.

(1) All adult applicants (includes adults added to open FI cases) who do not meet the exemption criteria of Section 114.1130A(3) above and those who meet exemption criteria but volunteer must conduct an initial job search and shall provide evidence of this search by returning to the Department a listing of the employers contacted, date of contact, and the name and telephone number of the person with whom the applicant spoke. The number of employers to be contacted shall be determined by the Department. An applicant must provide this information before case approval; an applicant who does not provide this information by the thirtieth day must have the application denied.

(2) An employment assessment must be conducted on an approved applicant/recipient who has not found a job to determine if the individual is job ready.

(3) A recipient who has been employed twelve out of the previous twenty-four months or who has graduated from high school or has obtained a General Equivalency Diploma (GED) must be considered job ready and must be enrolled in a job club.

(4) Following participation in a job club, the recipient must conduct a job search for a period not to exceed sixty days or until the recipient obtains a job, whichever comes first.

(5) A recipient who is not job ready or a job ready recipient who is unsuccessful in the sixty day job search must be evaluated for barriers to employment. From the evaluation, the agreement set forth in Section 114.1130A(3) above must be modified to set forth specific training and employment requirements for the recipient.

C. Training Programs.

(1) The Department shall provide information to applicants and recipients regarding the advantages of participation in the employment and training programs.

(2) The Department shall market its training and employment program to education and training program providers and to employers.

(3) The Department shall provide special educational and related services for teen parents under age twenty to assist them in becoming economically independent and to provide health information. The Department shall coordinate the provision of these services with other state and local agencies. Staff for this program should be familiar with school dropout programs, family planning programs which comply with existing law, and parent effectiveness training programs.

(4) Each adult FI recipient and minor mother must participate in the life Skills Training Program (LSTP) as a condition of eligibility even if exempt from the employment and training requirement. Participation in the LSTP must be a part of the ISSP.

(a) The life skills training program must include, but is not limited to, training in parenting skills, financial planning and health information.

(b) The program must include an alcohol and drug assessment for any FI recipient for whom it is deemed appropriate by the Department. The Department shall coordinate the assessment with the Department of Alcohol and Other Drug Abuse Services (DAODAS) and shall include the individually determined terms and conditions of the treatment plan in the recipient's agreement with the Department.

(c) The Department shall provide through its training programs information about the value of family planning services to reproductive age recipients. The program must include a family planning assessment for any FI recipient for whom it is deemed appropriate by the Department. The Department shall coordinate the assessment and family planning education with the Department of Health and Environmental Control (DHEC). Training program placement staff shall

actively seek the cooperation of employers or potential employers in an agreement which permits an FI recipient time off from work, not to exceed four hours, at least once a year to voluntarily seek family planning services, from a provider of the FI recipient's choice, without fear of losing employment or other reprisals. State funds may not be used to pay for an abortion.

D. Provision of Child Care and Transportation.

(1) The Department guarantees child care for a dependent child who is: under age 13; physically or mentally incapable of caring for himself, as verified by a physician or certified psychologist; or under court supervision; or a child who would be a dependent child except for the receipt of Supplemental Security Income, to the extent such child care is necessary to permit an FI eligible family member to:

- (a) Accept employment or remain employed; or
- (b) Participate in an approved education or training activity under the Family Independence Program; or
- (c) Participate in initial job search.

(2) The Department may provide for child care for an individual who is waiting to enter an approved education, training, or FI component or employment:

- (a) For a period not to exceed two weeks; or
- (b) For a period not to exceed one month, on an exception basis, when child care arrangements would otherwise be lost and participation in a FI Program activity or employment is scheduled to begin within that period; or
- (c) For a thirty-day trial period required for an individual to overcome a sanction.
- (d) Assistance with child care payments may be denied or terminated if a client fails to successfully complete the good cause/conciliation process for correcting a non-compliance with FI employment and training program requirements. The recipient shall be informed that he is responsible for all child care payments after the termination date and that an overpayment for child care is subject to recoupment.

(3) Child care assistance shall be provided to a recipient participating in structured FI activities as follows:

- (a) Full-time child care is provided for participation of twenty or more hours per week or attendance at a post secondary institution of at least twelve hours per week; or
- (b) Half-time child care is provided for participation of ten or more hours but less than twenty per week; or
- (c) Hourly rate child care is provided for participation of less than ten hours per week.

(4) In arranging child care, the Department will consider the following:

- (a) The individual needs of the child, including reasonable accessibility of the care to the child's home and school or to the parent's place of employment or training;
- (b) The appropriateness of the care to the age and special needs of the child; and
- (c) Encouraging the recipient to arrange his own child care at no cost to the State when possible.

(d) The local Department will make available for a parent's review the available county listings of regulated child care providers.

(5) Payment of child care by the Department:

- (a) Payment will not be made to any Child Day Care Centers, Group Day Care Homes or Family Day Care Homes that do not meet applicable State and local regulatory requirements.

- (c) Payments cannot be made to an alleged absent parent.
- (d) Payments cannot be made to a child care provider who is a member of the same FI budget group as the parent.
- (e) Payments cannot exceed the prescribed local market rates established by the Department.

(f) A parent who chooses a child care provider whose rates exceed the maximum allowable amount shall be responsible for the excess amount (the excess is not considered to be a fee or co-payment).

(g) Child care registration will be paid only once per year unless there are extenuating circumstances that require a change in child care providers.

(h) Informal child care providers must be at least twenty-one years of age.

(i) Child care payments to relatives, friends, or neighbors are subject to federal and State income taxes; the provider of the child care will be sent a 1099 form showing the amount of the child care payments.

(j) Any child care facility accepting children of FI recipients shall allow parents or guardians unrestricted access to the child care facility.

(6) The Department will provide, pay for, or reimburse transportation expenses which it determines are necessary, based on a recipient's established need which enable the recipient to participate in approved FI employment and training program activities.

(a) Recipients who live less than one and one-half miles from their destination will not receive assistance with transportation costs.

(b) Transportation costs that will be reimbursed include, but are not limited to:

(i) Reimbursing a recipient or operator driving a privately owned vehicle at a rate set by the Department, dependent on funds available. The Department may set a maximum on the amount of the reimbursement.

(iv) Payments to assist with child care transportation to and from the child's home are allowable up to limits established in items (3)(a)-(c) above.

(7) The Department must inform families requesting child care or transportation of their rights and responsibilities:

(a) The Department must respond to a request for child care or transportation within a reasonable period of time.

(b) FI applicants and recipients are entitled a Fair Hearing, under the provisions of R.114-110 and R.114-1180, on issues concerning the appropriateness of, denial of, prompt issuance of, or intended actions to discontinue, terminate, suspend or reduce child care or transportation assistance. The denial or termination of child care or transportation assistance to an applicant or recipient must be communicated in writing.

E. Wage Supplementation.

(1) The Department may operate a wage supplementation program as a part of its Employment and Training Program. The Department may use Family Independence funds to develop and subsidize jobs for FI recipients as an alternative to aid.

(2) A "supplemented job" is a job provided under this section to an eligible individual by an employer for which all or part of the wages are paid by the FI Program.

(3) The Department may provide or subsidize any type of newly created unfilled job. It may determine the length of time the position is to be provided or subsidized not to exceed nine months, the amount of wages to be paid to the recipient, the amount of subsidy to be provided, and the conditions of participation, except that no participant may be assigned to fill any established, unfilled position vacancy.

(4) An eligible individual is one which the Department has determined should be eligible to participate in the Employment and Training Program at the time of placement. Time of placement is the date on which the Department and the employer reach agreement on the terms of the placement and the specific individual to be placed.

(5) The wage supplementation program is a voluntary program.

(6) Participants in a supplemented job will be paid a wage equal to or greater than the federal minimum wage which shall be considered to be earned income.

(7) The Department will calculate the amount of a participant's residual grant (direct FI grant), if any, at the time of placement in the supplemented job and base the amount of the residual grant (the FI grant minus earnings and other countable income) for the duration of the individual's participation in the supplemented job (in whole or in part) on that calculation. This is known as "freezing the grant." If the individual becomes otherwise ineligible for FI benefits, the Department may allow the individual to continue in the supplemented job and divert the FI grant to the wage pool, but the Department shall not pay a residual grant to the individual.

(8) If an individual in a supplemented job would have been eligible for transitional child care at the time of ineligibility for FI, she shall be eligible for transitional child care after her supplemented job ends for up to twenty-four months.

(9) The Department will allow the earned income disregards for the length of the contract period.

F. Relocation Assistance.

(1) A FI caretaker recipient may be assisted in relocating to another area of the State or to another state if he has a verified job offer at the relocation site.

(2) A FI caretaker recipient, in some instances, may be assisted in relocating to another area in the State or to another state without a verified offer of employment if the casemanager and the recipient have thoroughly evaluated the recipient's existing circumstances as well as the opportunities at the relocation site and conclude that the family would be more likely to achieve self-sufficiency at the relocation site. The casemanager should contact social service agencies and agencies operating employment and training programs at the relocation site so that the recipient will know where to seek assistance upon arrival.

(3) Relocation assistance may be provided to a FI caretaker recipient if he needs to move to provide care for an ill family member or if the family will receive assistance at the new location that is unavailable to them at their present location, such as free housing or child care.

(4) The decision to relocate must be a voluntary decision by the recipient.

(5) Relocation expenses of a reasonable amount may be paid to a FI caretaker recipient only once in any twenty-four month period. Travel and moving expenses must utilize the least expensive means of travel; assistance with living expenses for the first thirty days at the new location may not exceed the one hundred eighty-five percent gross income limit by family size. The amount of the relocation expenditure must be approved by both the casemanager and the county director.

G. Participation in Employment and Training Required When Child is One Year Old.

(1) FI recipients must participate in the Department's employment and training program when their youngest child reaches age one, unless exempt under Section 114-1160 A(3).

(2) FI recipients are to be encouraged to volunteer to participate in the Department's employment and training program when their youngest child reaches the age of six months.

(3) Except in the case of information requested from the Income and Eligibility Verification Systems (IEVS) or in the case of an emergency situation when the individual's prior consent for the release of information cannot be obtained, the family or individual is informed whenever possible of a request for information from an outside source, and permission is obtained to meet the request. In an emergency situation when the individual's consent for the release of information cannot be obtained, the individual will be notified immediately.

(4) In the event of the issuance of a subpoena for the case record or for any agency representative to testify concerning an applicant or recipient, the court's attention is called, through proper channels to the statutory provisions and the policies or rules and regulations against disclosure of information.

J. The applicant or recipient may review his case record with the exception of confidential medical reports from third parties.

K. ARTICLE 13 FOOD STAMP PROGRAM

(Statutory Authority: 1976 Code § 43–1–80)

114–1300. General.

A. The Food Stamp Program (FSP) is administered by the Food and Nutrition Service, United States Department of Agriculture. The Food Stamp Program (FSP) is authorized by the Food Stamp Act of 1977, as amended. The eligibility provisions of the Act are further developed in Title 7, Code of Federal Regulations, Parts 210 through 299.

(1) If an alternative is provided and the State does not select the alternative, the primary federal regulation prevails.

(2) Certain parts of these regulations permit the State to select options regarding FSP eligibility criteria. The State follows the federal regulations where no options are permitted.

(3) The State may also submit “waivers” of federal regulations to Food and Nutrition Service for approval that will permit the State to operate certain parts of the FSP according to regulations developed by the state and different than those specified in the Code of Federal Regulations. Such “waivers” are approved for a certain period of time and must be resubmitted for renewal prior to the end of the approved time period.

The State Regulations for the FSP address only the areas where the federal regulations allow the State to choose an option or where the State has obtained a waiver from those regulations.

The Department of Social Services is the designated single State Agency to operate the FSP.

B. Each of the forty-six counties is considered to be a project area for the Food Stamp Program. Applicants may apply for food stamps in any of the forty-six counties within the state. Their eligibility will be determined and maintained in the county in which they currently reside. When a food stamp household moves from one county to another county the food stamp case will remain open. The Department of Social Services County Office will review the household’s circumstances and act on any changes resulting from the move.

C. The Department will extend categorical eligibility to any household in which all members receive or are authorized to receive non-cash or in-kind services from a program that is less than 50 percent funded with Title IV-A money and that is designed to further purposes one and two of the TANF block grant.

D. The Department will use TANF vehicle allowance rules when determining whether a vehicle is an excluded resource. These rules will exclude one licensed/registered vehicle per licensed driver in the household.

E. The Department may opt to provide households leaving Temporary Assistance to Needy Families (TANF) with transitional food stamp benefits. When the household leaves TANF, the Department will freeze the household’s food stamp benefit amount at the level the household received when it received TANF. This does not apply to households that, at the time the household leaves

TANF, are noncompliant with TANF requirements and the Department is imposing a comparable food stamp sanction, households who have violated a food stamp work requirement, households where a member has committed an intentional program violation, or households where the TANF case is being closed because the household failed to comply with food stamp reporting requirements.

F. The Department of Social Services may opt to operate a Simplified Food Stamp Program to conform FSP regulations to the State regulations used to determine eligibility for the Temporary Assistance for Needy Families (TANF) Program. At such time as requirements for such a program are developed, the Department will provide an opportunity for public input. The State Regulations contained in Chapter 114, Article 13, Food Stamp Program, apply to all Food Stamp Program recipients except for those who would receive food stamps under the provisions of the Simplified Food Stamp Program (Section 26 of the Food Stamp Act of 1977, as amended) at such time as it is developed.

G. The State will submit to FNS for renewal annually, the “waiver” to exempt all counties with an annual unemployment rate greater than ten percent and all counties identified as labor surplus areas from policy pertaining to individuals identified as Able-bodied Adults Without Dependents (ABAWDs). Individuals identified as ABAWDS are limited to receipt of three months of food stamp benefits in a three year period unless they are complying with minimum work requirements.

C. The Department will use information obtained through the Income and Eligibility Verification System (IEVS) to verify the eligibility and benefit levels of applicants and participating households

D. If an applicant has failed to complete the initial application process and the Department has taken all action to assist, the applicant is sent a notice of denial on the 31st day following application. If the needed information is provided within 60 days of the date of application the household does not have to complete a new application. Benefits will be prorated from the date the needed information is received by the Department if received within 60 days of the application filing date.

E. If the applicant fails to verify a new or changed deductible expense, the Department will not allow the deduction. The applicant, if eligible, must be certified without the deduction.

F. The household's timely recertification application will continue to be denied at the end of the last month of the certification period if the recipient either fails to appear for an interview or fails to submit required verification(s) within the required time frame.

G. Applicants shall be informed about the eligibility requirements and their rights and responsibilities and the responsibilities of the Department under the Food Stamp Program. Under this requirement, individuals are given information in written form, and orally as appropriate, about coverage, conditions of eligibility, scope of the program, related services available, and the rights and responsibilities of applicants for and recipients of assistance. Specifically developed bulletins or pamphlets explaining the rules regarding eligibility and appeals in simple, understandable terms shall be available. Applicants for and recipients of assistance shall be notified in writing at the time of application and recertification that the Department will regularly request information from other federal and State agencies which will be used to aid in determining their eligibility for and the amount of benefits.

H. Each individual wishing to do so shall have the opportunity to apply for assistance without delay. Under this requirement:

(1) The Department shall require a written application, signed under a penalty of perjury, on a form prescribed by the Department, from the applicant himself or someone acting responsibly for him.

(2) An applicant may be assisted, if he so desires, by an individual(s) of his choice (who need not be a lawyer) in the various aspects of the application process and the redetermination of eligibility and may be accompanied by such individual(s) in contacts with the Department and when so accompanied may also be represented by him.

I. The Standards and methods for determination of eligibility shall be consistent with the objectives of the program, and will respect the rights of individuals under the United States Constitution, the Social Security Act, Title VI of the Civil Rights Act of 1964, Americans with Disabilities Act of 1990, and all other relevant provisions of federal and State laws.

J. Eligibility conditions or Department procedures or methods must not prevent an individual from applying for and obtaining a determination of eligibility or ineligibility. Methods of eligibility determination must be consistent with the objective of assisting all eligible persons to qualify.

K. All applicants and recipients are entitled to due process rights, which include a ten day advance notice of decisions adversely affecting their food stamp benefits and the right to request a fair hearing.

- (1) First violation—one month.
- (2) Second violation—three months.
- (3) Third violation—six months.

The food stamp benefit paid to the household at the time of the Family Independence case closure will not increase as a result of the loss of income from the Family Independence case closure. This process is limited to one year or until such time as the non-compliant individual complies with Family Independence program requirements or becomes exempt from food stamp work requirements, whichever is less.

ARTICLE 15

ESTABLISHING ELIGIBILITY FOR GENERAL DISABILITY ASSISTANCE

114–1510. Definitions and General Requirements.

A. Definitions.

(1) General Disability Assistance (GDA)—totally State-funded financial and medical assistance granted on a one-time basis per application, for a minimum period of one month up to a maximum period of six months, to individuals who meet eligibility criteria specified below.

(2) Total Disability—a serious mental or physical impairment or combination of impairments which renders an individual incapable of engaging in any useful occupation or gainful employment within his competence.

(3) Temporary Disability—an impairment which is expected to last or has lasted at least thirty days, but can be corrected within a one-year period.

B. General Requirements.

(1) An individual must be totally and temporarily disabled, in need, and ineligible for any other category of financial assistance, with the exception of the General Assistance-Ineligible Spouse (GA-IS) of a Supplemental Security Income (SSI) Recipient Program.

(2) The individual must be at least eighteen years of age but less than sixty-five years of age, with the following exceptions:

(a) If the individual is attending school, he must be at least twenty-one years of age.

(b) If the individual is legally married or emancipated, the lower age limit does not apply.

(3) The individual must be either a citizen of the United States or an alien lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law; furthermore, he must be residing in the State with no intention of moving outside the State.

(4) Pregnancy shall not be considered a total and temporary disability.

(5) Individuals who perform homemaking duties for persons other than themselves shall be ineligible for GDA.

(6) All applicants shall be referred to the South Carolina Vocational Rehabilitation Department, and shall accept all available Vocational Rehabilitation services and resources.

114–1520. Eligibility Determination.

A. A medical evaluation must be supplied as evidence of disability. It is the responsibility of the applicant to provide any required medical evaluation(s) on the agency-supplied forms. Additional medical data may be supplied in any form and will be considered by the Agency. If the evaluation shows that the individual is either totally and permanently disabled or is not disabled, the application for GDA shall be denied by the County Department.

B. In all other cases, eligibility decisions based on medical information shall be made by a Medical Social Worker, with the assistance of a consulting physician when necessary. The medical evaluation, along with a social evaluation completed by the County Department and containing information relating to the family, background, work history, and past and present health of the applicant, as well as rehabilitation efforts, will be evaluated by the Medical Social Worker to determine if the individual is medically eligible, and if so, for how many months.

C. If a disability exists but is expected to last longer than six months, the individual shall be referred to the Social Security Administration (SSA) to apply for the SSI program.

D. Eligibility for GDA shall not be extended beyond six months for any one medical diagnosis. A new and different diagnosis, however, may qualify an individual for a new grant. A new application will be necessary in case of a new and different diagnosis of disability.

E. To be considered eligible for GDA, an individual can have no cash reserve or any other resources except the following:

(1) An individual may own or retain a homestead,

(2) An individual may have insurance policies with a face value of any amount, but the total cash surrender or loan value shall not exceed fifteen hundred dollars for all policies.

(3) An individual may have one licensed vehicle that is used for transportation purposes and is not income producing.

(4) An individual may have up to 2 times the maximum monthly payment level for the GDA Program in cash reserves.

F. If an individual sells real or personal property, the money from the sale shall be considered as income for meeting current living expenses. If an individual transfers real or personal property without receiving fair market value therefor, he will not be eligible for GDA until such time as fair market value is received and used for current living expenses.

G. Any income from employment shall render an individual ineligible for GDA. The spouse of the individual may have income from employment. If the spouse is included in the budgetary computation, the spouse's gross wages shall be considered as available income.

H. For purposes of budgeting, an individual and spouse who are living together shall be treated as a unit, except as follows:

(1) If the spouse is receiving SSI or Aid to Families with Dependent Children (AFDC), the spouse is not included in the GDA budget and any income which has been considered by SSA in determining the SSI payment amount or which has been considered in determining the AFDC payment amount shall not be considered available to the GDA applicant or recipient.

(2) If the spouse has children of which the GDA applicant or recipient is not the legal parent and the children are not eligible for SSI or AFDC, the spouse's income shall be allocated to the children according to current AFDC standards. Any income of the children shall be subtracted from the AFDC standard in determining the amount to be allocated from the parent.

(3) If both members of the couple apply for and are found eligible for GDA, a budget is computed for the couple to determine if a deficit exists. If so, each person may be certified for a payment equal to one-half the deficit, not to exceed the maximum payment level per individual.

I. Total needs consist of an allowance for basic requirements and of allowances for special needs, if applicable.

(1) Basic requirements are items of need considered essential to all people in the assistance budget. Allowances are included for food, clothing, medical chest, incidentals, household needs, laundry, insurance, shelter, and utilities. The basic requirements allowance for an individual is ninety-four dollars and fifty-five cents per month and the basic requirement allowance for an individual and spouse is one hundred forty-three dollars and eighty cents per month.

(2) Allowances for the following special needs may be included if verification is provided by an individual's physician that the special need currently exists.

(a) A standard allowance of six dollars per month for a special diet will be included for each person with tuberculosis or an arrested tubercular case who still requires medication for the illness.

(b) An allowance of up to one hundred thirty dollars per month will be included for nursing care in the home if medical necessity is verified and documented and if the care cannot be provided by responsible relatives in the home.

J. Total income for eligibility purposes means total gross income.

If any person in a GDA budget receives income from the sources specified in 114-11-50 B, such income shall be disregarded in the same manner as in the AFDC program. Income received on a weekly basis shall be multiplied by four and one-third to obtain the monthly amount. Irregular unearned income as defined in 114-11-50(A)(2)(b) shall be computed in the same manner as in the AFDC program.

K. Amount of assistance to be granted shall be determined by subtracting total rounded income from total rounded needs. The award will be the amount of the deficit, but may not exceed the maximum payment level.

L. Maximum payment level for GDA shall be set by the agency each year according to funds available from the State General Appropriation Act.

M. An individual who is determined eligible for a GDA money payment shall be eligible for State Medical Assistance beginning with the first day of the month of certification for GDA payment. There shall be no eligibility for medical services performed before this date for GDA clients.

N. Institutional Living Situations.

(1) An individual who needs or desires to live in a public or private institution may be eligible for GDA and medical vendor payments, depending on the nature of the institution and whether the individual is otherwise eligible for GDA.

(2) To be eligible for GDA while living in an institution, the individual must be in a public or private Title XIX certified hospital or nursing facility or a licensed residential care facility.

(3) An individual shall not be eligible for GDA while a patient in or resident of a public or private medical institution which is not Title XIX certified or which is operated primarily for the care of mentally ill or tubercular patients.

(4) The need for nursing care must be certified by the Professional Standards Review Organization (PSRO) before medical vendor payment can be authorized.

(5) The institution in which the individual is living must be licensed by the appropriate State licensing authority.

(6) If the individual is a patient in a public or private hospital, financial eligibility shall be determined according to the individual's home situation.

(7) An individual who resides in a licensed nursing facility shall be allowed a personal needs allowance, the amount of which is set annually by the agency.

(a) If the individual has income it shall be subtracted from the personal needs allowance in determining the amount of the GDA payment. If the income exceeds the personal needs amount, a budget shall be computed to see if the individual would be eligible in his or her home situation. If so, the individual shall be eligible for GDA-Medical Assistance Only.

(b) Any income the individual has in excess of the personal needs allowance shall be applied to his or her cost of care.

(8) A GDA-eligible individual who resides in a licensed residential care facility shall have financial eligibility established according to the Net Income Limitation (NIL) as defined in 114-19-10(C) for the Optional Supplementation Program. The NIL is set by the State General Appropriation Act.

(a) All income available to the individual shall be budgeted against total requirements in determining the GDA payment.

(b) The payment amount will be the exact amount of the deficit.

114-1530. Termination, Suspension, or Reduction of Benefits.

A. GDA is not a continuing assistance program. It is a one-time, single grant program for which an individual may make reapplication. The grant, once authorized, is not reduced or otherwise affected by any change of circumstances. The grant may not be terminated, suspended, reduced or increased prior to the end of the certification period absent fraud or misrepresentation.

B. Notice of right to appeal shall be provided in the document which advises the individual of the grant amount and certification period or the document which denies the award of a grant. No other notice of termination, date of certification, right of appeal, or period (inclusive dates) of the grant shall be made.

C. Appeals under the GDA Program shall be in accordance with DSS Fair Hearing Regulations (R.114-35.1) with the following exceptions:

(1) The period of advance notification shall be fifteen (15) days from the date of the notice of the grant award.

(2) The grant will not continue in excess of six (6) months for any reason.

(3) A new application made by a current grant recipient if denied and appealed, shall not constitute a basis for continued benefits pending an appeal decision.

D. If the current recipient of a grant believes himself to be eligible for additional grants under the GDA Program, a new application and a new medical evaluation must be submitted to the agency, since current grants may not be continued or extended unless a grant award is made for less than six (6) months and an appeal is requested within the period of advance notification. Benefits may then be continued subject to the limitation of C.(2) above.

ARTICLE 19

ESTABLISHING ELIGIBILITY FOR OPTIONAL SUPPLEMENTATION

114–1910. Definitions.

A. Optional Supplementation (OS)—totally State-funded financial and jointly State and Federal funded medical assistance granted by the State to eligible individuals who reside in residential care facilities licensed by the Department of Social Services or the Department of Mental Health.

B. Residential Care Facility (RCF)—any institution, place, building, or agency providing for a period exceeding twenty-four consecutive hours, accommodation, board and a degree of personal assistance in feeding, dressing and other essential daily living activities to two or more individuals eighteen years old or older not related to the administrator or owner thereof within the third degree of consanguinity, who by reason of age, or physical or mental infirmity, though ambulatory, are unable to sufficiently or properly care for themselves or manage their own affairs but who do not require the daily services of a registered or licensed practical nurse.

C. Net Income Limitation (NIL)—the sum of the agency established rate for services provided by the RCF and the personal needs allowance (PNA).

D. Countable Income (CI)—gross income less those exclusions of income allowed under the Federal Supplemental Security Income Program.

E. Supplemental Security Income (SSI) Program—popular name for Title XVI of the Social Security Act.

F. Retirement, Survivors, or Disability Insurance (RSDI)—benefits received under Title II of the Social Security Act.

114–1920. Eligibility Determination.

A. Individuals or couples shall be eligible for OS payments if they meet the following requirements:

(1) Have been determined to be aged, blind or disabled by the Social Security Administration (SSA) or by the agency in accordance with SSA criteria;

(2) Reside in a RCF licensed by either the Department of Social Services or the Department of Mental Health;

(3) Have resources that do not exceed the resource reserve limitations set by the SSI Program;

(4) Receive an SSI payment, which when combined with other countable income gives them total income less than the NIL appropriate to their living situation, or

(5) Receive countable income that exceeds the SSI payment standard, but is less than the NIL appropriate to their living situation.

B. When an RCF charges an amount for its services which is greater than the rate established by the agency, and if such amount is paid by an individual to the RCF for an OS individual's or couple's care, the amount shall be counted as income to the individual or couple in computing the OS payment.

C. OS recipients who lose their eligibility for OS payments due to cost-of-living increases in Social Security Title II benefits shall continue eligible for Medicaid.

D. For an individual, the OS payment shall be the deficit determined by subtracting the CI from the NIL, rounded to the next higher dollar amount.

E. Eligibility in a couple case is determined by measuring a couple's combined countable income against a combined NIL. However, an OS payment must be made to each spouse in a couple case. The OS payment shall be the deficit, rounded to the next higher dollar amount, determined by subtracting each spouse's own income from the NIL for an individual. If one spouse receives all of the couple's income, their income shall be divided evenly between them and their OS payment shall be the deficit,

rounded to the next higher dollar amount determined by subtracting the allocated income to each spouse from the NIL for an individual.

F. Eligibility for OS cases shall be reestablished every twelve months or more frequently as specified by the agency.

G. When a change that might affect a couple's or individual's eligibility is reported, a redetermination of eligibility and grant adjustment shall be made promptly.

114–1930. Termination, Suspension or Reduction of Benefits.

Eligibility for further OS payments shall be terminated as soon as information indicating ineligibility is reported. Procedures of South Carolina Regulation 114-1030 shall be followed.

Federal and State regulations must be consulted for a complete depiction of the State's food stamp issuance responsibilities. These State regulations describe the issuance of food stamp benefits using an Electronic Benefits Transfer System, as permitted by Title 7, Code of Federal Regulations, Part 274. Counties within the state were phased into EBT group by group. Statewide implementation of EBT was accomplished on December 1, 1995.

ARTICLE 47 CHILD SUPPORT GUIDELINES

(Statutory Authority: South Carolina Code § 43–5–580(b) and 45 CFR 302.56)

114–4710. Use of the Guidelines.

A. The Child Support Guidelines are available to be used for temporary and permanent orders, actions for separate maintenance and support, divorce and child support awards. Additionally, the guidelines are to be used to assess the adequacy of agreements for support and encourage settlement of this issue between parties.

1. In any proceeding in which child support is an issue, the amount of the award which would result from the application of these guidelines is the amount of the child support to be awarded. However, a different amount may be awarded upon a showing that application of the guidelines is inappropriate. When the court orders a child support award that varies significantly from the amount resulting from the application of the guidelines, the court shall make specific, written findings of those facts upon which it bases its conclusion supporting that award.

2. In cases where the parents' combined monthly gross income is less than \$750.00, the guidelines provide for a case-by-case determination of child support, which should ordinarily be set at no less than \$100.00 per month. In those cases, the court should take care to award an amount of child support that would not jeopardize the ability of the parent with the legal obligation to pay support to live at a minimum level of subsistence. However, the guidelines encourage that a specific amount of child support always be ordered to establish in the payer's mind the principle of the parent's obligation to pay as well as lay the basis for increased/decreased orders if income changes in the future.

3. These guidelines provide for calculated amounts of child support for a combined parental gross income of up to \$30,000 per month, or \$360,000 per year. Where the combined gross income is higher, courts should determine child support awards on a case-by-case basis.

B. Deviation from the guidelines should be the exception rather than the rule. When the court deviates, it must make written findings that clearly state the nature and extent of the variation from the guidelines. These Child Support Guidelines do not take into account the economic impact of the following factors which can be possible reasons for deviation.

1. Educational expenses for the child(ren) or the spouse (i.e., those incurred for private, parochial, or trade schools, other secondary schools, or post-secondary education where there is tuition or related costs);
2. Equitable distribution of property;
3. Consumer debts;
4. Families with more than six children;
5. Unreimbursed extraordinary medical/dental expenses for either parent, or extraordinary travel expenses for court-ordered visitation;
6. Mandatory deduction of retirement pensions and union fees;
7. Child-related unreimbursed extraordinary medical expenses;
8. Monthly fixed payments imposed by court or operation of law;
9. Significant available income of the child(ren);
10. Substantial disparity of the parents' incomes;
11. Alimony. Because of their unique nature, lump sum, rehabilitative and reimbursement alimony may be considered by the court as a possible reason for deviation from these guidelines;
12. Agreements Reached Between Parties. The court may deviate from the guidelines based on an agreement between the parties if both parties are represented by counsel or if, upon a thorough examination of any party not represented by counsel, the court determines the party fully understands the agreement as to child support. The court still has the discretion and the independent duty to determine if the amount is reasonable and in the best interest of the child(ren).

114-4720. Determination of Child Support Awards.

A. Income

1. Definition

The guidelines define income as the actual gross income of the parent, if employed to full capacity, or potential income if unemployed or underemployed. Gross income is used in order to avoid contention over issues of deductibility which would otherwise arise if net income were used. The guidelines are based on the assumption that the parent with the legal obligation to pay support will have only one federal exemption and will have higher taxes than the parent to whom support is owed. Adjustments have been made in the Schedule of Basic Child Support Obligation for lower child support payments. Other factors included in the schedule are South Carolina taxes, FICA, and earned income.

2. Gross Income

Gross income includes income from any source including salaries, wages, commissions, royalties, bonuses, rents (less allowable business expenses), dividends, severance pay, pensions, interest, trust income, annuities, capital gains, Social Security benefits (but not Supplemental Social Security Income), workers' compensation benefits, unemployment insurance benefits, Veterans' benefits and alimony, including alimony received as a result of another marriage and alimony which a party receives as a result of the current litigation. Unreported case income should also be included if it can be identified.

A. The court may also take into account assets available to generate income for child support. For example, the court may determine the reasonable earning potential of any asset at its market value and assess against it the current treasury bill interest rate or some other similar appropriate method of computing income.

B. In addition to determining potential earnings, the court should impute income to any non-income producing assets of either parent, if significant, other than a primary residence or personal

property. Examples of such assets are vacation homes (if not maintained as rental property) and idle land. The current rate determined by the court is the rate at which income should be imputed to such nonperforming assets.

3. Gross income does not include:

A. Benefits received from means-tested public assistance programs, such as Temporary Assistance to Needy Families (TANF), Supplemental Security Income (SSI), Food Stamps and General Assistance;

B. Income derived by other household members; and/or

C. In-kind income; however, the court should count as income expense reimbursements or in-kind payments received by a parent from self-employment or operation of a business if they are significant and reduce personal living expenses, such as a company car, free housing, or reimbursed meals. With regard to military allotments, individuals not receiving Housing allotments should be imputed with the BAH-II amount for dependents. This differential is consistent and unrelated to the domicile location of the service member, as well as easily obtained.

4. Income from Self-Employment or Operation of a Business

For income from self-employment, proprietorship of a business, or ownership or a partnership or closely held corporation, gross income is defined as gross receipts minus ordinary and necessary expenses required for self-employment or business operation, including employer's share of FICA. However, the court should exclude from those expenses amounts allowed by the Internal Revenue Service for accelerated depreciation of investment tax credits for purposes of the guidelines and add those amounts back in to determine gross income. In general, the court should carefully review income and expenses from self-employment or operation of a business to determine actual levels of gross income available to the parent to satisfy a child support obligation. As may be apparent, this amount may differ from the determination of business income for tax purposes.

5. Potential Income

If the court finds that a parent is voluntarily unemployed or underemployed, it should calculate child support based on a determination of potential income which would otherwise ordinarily be available to the parent. If income is imputed to a parent to whom support is owed, the court may also impute reasonable day care expenses. Although Temporary Assistance to Needy Families (TANF) and other means-tested public assistance benefits are not included in gross income, income may be imputed to these recipients. However, the court may take into account the presence of young children or handicapped children who must be cared for by the parent, necessitating the parent's inability to work.

A. The court may also wish to factor in considerations of rehabilitative alimony in order to enable the parent to become employed.

B. In order to impute income to a parent who is unemployed or underemployed, the court should determine the employment potential and probable earnings level of the parent based on that parent's recent work history, occupational qualifications, and prevailing job opportunities and earning levels in the community.

6. Income Verification

Ordinarily, the court will determine income from verified financial declarations required by the Family Court rules. However, in the absence of any financial declaration, or where the amounts reflected on the financial declaration may be an issue, the court may rely on suitable documentation of current earnings, preferably for at least one month, using such documents as pay stubs, employer statements, or receipts and expenses if the parent is self-employed. Verification of current earnings, whether reflected on a financial declaration or not, can be supported with copies of the most recent tax returns filed by the payer. Income can also be verified through the Employment Security Commission or through the State Department of Revenue.

7. Monthly Alimony (this action)

Any award of alimony between the parties should be taken into consideration by the court when utilizing these guidelines as a deduction from the payer spouse's gross income, and as gross income received by the recipient spouse. Because of their unique nature, lump sum, rehabilitative reimbursement, or any other alimony the court may award, may be considered by the court as a possible reason for deviation from these guidelines. The purpose of this adjustment is not to give priority to alimony

or child support payments, but to recognize that each parent's proportional share of total combined monthly income changes with the introduction of any alimony award between the parties, and to provide for a sharing of the Total Combined Monthly Child Support Obligation based upon each parent's actual percentage share of the total combined monthly income, taking into consideration the financial impact of any alimony award between them, rather than the parent's share of the total combined monthly income as it existed before any alimony award. Accordingly, the court, in its discretion, may consider any modification or termination of any alimony award between the parties of a child support award made under these guidelines. This adjustment does not affect the Total Combined Monthly Child Support Obligation of both parents as determined under these guidelines, which may be determined before any determination on the issue of alimony, as the total combined monthly income of both parties will remain the same irrespective of any income shifting between the parents as the result of an alimony award.

8. Other Monthly Alimony or Child Support Paid

Any previous or existing court orders requiring the payment of child support, alimony, or both, should be protected by any subsequent child support order. Alimony actually paid as a result of another marriage or child support actually paid for the benefit of children other than those considered in this computation, to the extent such payment or payments are required by a previous or existing court order, should be deducted from gross income.

9. Other Children in the Home

Either parent shall receive credit for additional natural or adopted children living in the home, but not for step-children, unless a court order establishes a legal responsibility. Such credit shall be given whether or not such children are supported by a third party. The basis of this is to recognize the responsibility of the parent to whom support is owed and share in supporting those other children in the home just like that parent's responsibility and share to the child or children in the present calculation.

Using the income of the parent with the additional child(ren) in the home only, the basic child support obligation for the number of additional dependents living with that parent (from the Schedule of Basic Child Support Obligations) is determined for that parent. This figure is multiplied by .75 and the resulting credit is subtracted from that parent's gross income.

10. Basic Child Support Obligation

The court can determine the basic child support obligation using the Schedule of Basic Child Support Obligations. "Combined gross income" refers to the combined monthly gross incomes of the parents. Where combined gross income amounts fall between the amounts reflected in the Schedule of Basic Child Support Obligations, the court is encouraged to extrapolate upwardly to set the basic award. The number of children refers to that number for whom the parents share support responsibility and for whom support is being sought.

11. Self Support Reserve

A self support reserve allows a low-income parent with the legal duty to pay support to retain a minimal amount of income before being assessed a full percentage of child support. This insures that the parent with the legal duty to pay support has sufficient income available to maintain a minimum standard of living which does not affect negatively his or her earning capacity, incentive to continue working, and ability to provide for him or herself. These Guidelines incorporate a self support reserve of \$748.00 per month. In order to safeguard the self support reserve in cases where the income of the parent with the obligation to pay support and corresponding number of children fall within the shaded area of the Schedule of Basic Child Support Obligations, the support obligation must be calculated using the obligor's income only. To include the income of the parent to whom support is owed in the calculation of such cases, or include any adjustments like medical insurance or day care expense, would reduce the net income of the parent with the legal duty to pay support to an amount below the self support reserve.

12. Health Insurance

The court shall consider provisions for the children's health care needs through health insurance coverage and/or cash medical support. The court should require coverage by one or both parents who can obtain the most comprehensive coverage through an employer or otherwise, at the most reasonable cost. If either or both parents carry health insurance for the child(ren) who is to receive

support, the cost of the coverage should be added. If the employer provides some measure of coverage, only that amount actually paid by the employee or contributed by the employee should be added. This amount should be determined by the difference between self-only coverage and family coverage, or the cost of private medical insurance for the child. If the amounts for self-only and family coverage cannot be verified, the total cost of the premium should be divided by the total number of persons covered by the policy and then multiplied by the number of children in the support order. The party responsible for paying the health insurance premium will receive a credit. The guidelines are based on the assumption that the parent to whom support is owed will be responsible for up to \$250.00 per year per child in uninsured medical expenses. The Schedule of Basic Child Support Obligations includes \$250 per child per year for uninsured medical expenses such as co-pays, over-the-counter medicines and similar expenses. Reasonable and necessary unreimbursed medical expenses in excess of this \$250 per child per year shall be divided in pro rata percentages based on the proportional share of combined monthly adjusted gross income. The determination of “reasonable and necessary”, e.g. orthodontia and professional counseling, would be at the discretion of the court.

13. Child Care Costs

The cost of day care the parent incurs due to employment or the search for employment, net of the federal and state income tax credit for such day care, is to be added to the basic obligation. This is to encourage parents to work and generate income for themselves as well as their children. However, day care costs must be reasonable, not to exceed the level required to provide high quality care for children from a licensed provider. As 1 parents to whom support is owed may be eligible for qualified tax credits, the actual day care expense should be adjusted to recognize this credit. This adjustment may take place in two ways. In cases where the primary residential parent’s gross income exceeds the thresholds listed below, the actual or allowed day care cost is multiplied by .27 to simulate the federal and state income tax credits. The lesser of the simulated amount and \$67.50 for one child and \$135 for two or more children is subtracted from the actual or allowed day care cost. It is entered as the adjusted amount on the appropriate line 6.c.

	One Child	Two Children	Three Children	Four Children	Five Children	Six Children
Primary Residential Parent’s Monthly Income	\$1,950	\$2,600	\$2,900	\$3,200	\$3,500	\$3,800

These thresholds are based upon the standard deduction for head-of-household, dependent exemptions, and the intricate application of the child care tax credit. While these will hold true in most cases, judges can always review child care costs with the actual credit method, below. The maximum amounts for the tax credits that can be subtracted from actual or allowed day care are based on the maximum qualifying child care expense according to federal and state tax code.

The other method would be to take the actual costs and subtract the actual value of the federal and state tax credit such as determined by the last filed IRS Form 2441 and SC 1040, Line 11. This adjusted amount would then be entered on line 6.c.

14. Computation of Child Support

The court can determine a total child support obligation by adding the basic child support obligation, health insurance premium (portion covering children), and work related child care costs.

A. The total child support obligation is divided between the parents in proportion to their income. Each parent’s proportional share of combined adjusted gross income must be calculated. Compute the obligation of each parent by multiplying each parent’s share of income by the total child support obligation, and give the necessary credit for adjustments to the basic combined child support obligation.

B. Although a monetary obligation is computed for each parent, the guidelines presume that the parent to whom support is owed will spend that parent’s share directly on the child in that parent’s custody. In cases of joint custody or split custody, where both parents have responsibility of the child for a substantial portion of the time, there are provisions for adjustments.

HISTORY: Amended by State Register Volume 18, Issue No. 5, eff May 27, 1994; State Register Volume 23, Issue No. 3, eff March 26, 1999; State Register Volume 30, Issue No. 6, eff June 23, 2006; State Register Volume 38, Issue No. 3, eff March 28, 2014.

114–4730. Unusual Custody Arrangements.

A. Shared Parenting Arrangements

When both parents are deemed fit, and other relevant logistical circumstances apply, active participation in the life of the child(ren) by the parent without custody should be encouraged in order to ensure the maximum involvement by both parents in the life of the child(ren). The amount of visitation, however, is left to the discretion of the judge in consideration of the various factors of the Children’s Code, and the use of the calculation on Worksheet C in shared physical custody cases is advisory and not compulsory. The court should consider each case individually before applying the adjustment to ensure that it does not produce a substantial negative effect on the child(ren)’s standard of living.

For the purpose of this section, shared physical custody means that each parent has court-ordered visitation with the children overnight for more than 109 overnights each year (30%) and that both parents contribute to the expenses of the child(ren) in addition to the payment of child support. If a parent with shared physical custody does not exercise it as ordered by the court, the parent to whom support is owed may petition the court for a reversion to the level of support calculated under the guidelines without the shared parenting adjustment. The shared physical custody adjustment is an annual adjustment only and should not be used when the proportion of overnights exceeds 30% for a shorter period, e.g., a month. For example, child support is not abated during a month-long summer visitation. This adjustment should be applied without regard to legal custody of the child(ren). Legal custody refers to decision-making authority with respect to the child(ren). If the 109 overnights threshold is reached for shared physical custody, this adjustment may be applied even if one parent has sole legal custody.

1. Child support for cases with shared physical custody shall be calculated using Worksheet C. This worksheet should be used only for shared physical custody as defined above.

2. The basic child support obligation shall be multiplied by 1.5 to arrive at a shared custody basic child support obligation. The shared custody basic child support obligation is apportioned to each parent according to his or her income. In turn, a child support obligation is computed for each parent by multiplying that parent’s portion of the shared custody child support obligation by the percentage of time the child(ren) spend(s) with that parent. The respective basic child support obligations are then offset, with the parent owing more basic child support paying the difference between the two amounts, subject to the provisions below. The transfer for the basic obligation for the parent owing less basic child support shall be set at zero dollars.

3. If a parent has more than 109 overnights but less than 128 overnights, a graduated support obligation should be determined. The graduated support obligation reflects a transition between the full shared-physical custody obligation and the sole custody obligation, thus requiring the completion of both Worksheet A and Worksheet C. The sole custody amount is calculated from Worksheet A and the full shared-physical custody order is calculated from Worksheet C. The graduated support obligation is determined by subtracting an amount from the Worksheet A obligation. This amount is the difference between the worksheet A and worksheet C values, multiplied by the number of overnights more than 109 divided by the difference between 128 and 110 overnights. If positive, the graduated support obligation would then be treated as the basic child support obligation for that parent. Otherwise, it would be treated as the basic child support obligation for the other parent.

4. Adjustments for each parent’s additional direct expenses on the child(ren) are made by adding child(ren)’s share of any reimbursed child health care expenses, work-related child care expenses and any other extraordinary expenses agreed to by the parents or ordered by the tribunal, less any extraordinary credits agreed to by the parent or ordered by the tribunal according to their income share. In turn, each parent’s net share of additional direct expenses is determined by subtracting the parent’s actual direct expenses on the child(ren)’s share of any unreimbursed child health care expenses, work-related child care expenses and any other extraordinary expenses agreed to by the parents or ordered by the tribunal from their share. The parent with a positive net share of additional direct expenses owes the other parent the amount of his or her net share of additional direct expenses. The parent with the zero or a negative net share of additional expenses owes zero dollars for additional direct expenses.

5. The final amount of the child support order is determined by summing what each parent owes for the basic support obligation and additional direct expenses as defined in subsections (2), (3) and (4) of this section. The respective sums are then offset, with the parent owing more paying the other parent the difference between the two amounts.

B. Split Custody

Split custody refers to custody arrangements where there are two or more children and each parent has physical custody of at least one child. Using these guidelines, the court should determine a theoretical support payment for the child or children in the custody of the other. In split custody arrangements the guidelines arrive at separate computations for the child or children residing with each parent. The obligations are then offset, with the parent owing the larger amount paying the difference to the other parent.

114–4740. Periodic Review.

Every three years, if there is an assignment under part A of Title IV of the Social Security Act, or upon the request of either parent where an assignment exists under part D of Title IV of the Social Security Act, the Department of Social Services shall with respect to a support order being enforced under this part, taking into account the best interests of the child involved, review and, if appropriate, adjust the order in accordance with the guidelines if the amount of child support award under the order differs from the amount that would be awarded in accordance with the guidelines. Adjustments to support orders can only be done for those with assignments under part A of Title IV of the Social Security Act or part D of Title IV of the Social Security Act, and must be done pursuant to Article 5 of Chapter 17 of the South Carolina Children’s Code.

Copies of the Schedule and worksheets are on file with the Legislative Council and may also be obtained from the State Department of Social Services and local clerks of court offices.
