

PART IB**OPERATION OF STATE GOVERNMENT****SECTION 1 - H630 - DEPARTMENT OF EDUCATION**

1.1. (SDE: Appropriation Transfer Prohibition) The amounts appropriated herein for aid to subdivisions, allocations to school districts, or special line items shall not be transferred and must be expended in accordance with the intent of the appropriation, except that the department may transfer funds that are deducted and retained from a school district's transportation allocation to reimburse the department for the cost of unauthorized mileage. This transfer must be agreed upon by both the school district and the department. Those funds may be transferred into the department's school bus transportation operating account.

1.2. (SDE: DHEC - Comprehensive Health Assessment) All school districts shall participate, to the fullest extent possible, in the Medicaid program by seeking appropriate reimbursement for services and administration of health and social services. Reimbursements to the school districts shall not be used to supplant funds currently being spent on health and social services.

1.3. (SDE: EFA Formula/Base Student Cost Inflation Factor) To the extent possible within available funds, it is the intent of the General Assembly to provide for one hundred percent of full implementation of the Education Finance Act to include an inflation factor projected by the Revenue and Fiscal Affairs Office to match inflation wages of public school employees in the Southeast. The base student cost for the current fiscal year has been determined to be \$2,485. For the current fiscal year, the total pupil count is projected to be 727,513. The average per pupil funding is projected to be \$6,198 state, of which \$2,372 comes from the EFA, \$1,281 federal, and \$5,982 local. This is an average total funding level of \$13,461 excluding revenues of local bond issues. For the current fiscal year the South Carolina Public Charter School District and any institution of higher education sponsoring a public charter school shall receive and distribute state EFA funds to the charter school as determined by one hundred percent of the current year's base student cost, as funded by the General Assembly multiplied by the weighted students pupils enrolled in the charter school, which must be subject to adjustment for student attendance.

The Revenue and Fiscal Affairs Office, must post in a prominent place on their website for each school district projections, including the per

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

pupil state, federal and local revenues, excluding revenues of local bond issues, for the current fiscal year. Also, as soon as practicable, upon determining the exact numbers regarding pupil count and funding, the Revenue and Fiscal Affairs Office, shall also post on their website the one hundred thirty-five day average daily membership for each school district and per pupil state, federal and local revenues, excluding revenues of local bond issues, based on the most recent audited financial statement as reported annually pursuant to Section 59-17-100. The Department of Education and the Education Oversight Committee shall provide in a prominent place on their internet websites a link to the information posted by the Revenue and Fiscal Affairs Office, including the projected numbers and the exact numbers.

For the current fiscal year, the pupil classification weightings are as follows:

- (1) K-12 pupils or base students including homebound students 1.00
 Students served in licensed residential treatment facilities (RTFs) for children and adolescents as defined under Section 44-7-130 of the 1976 Code shall receive a weighting of 2.10.
- (2) Weights for students with disabilities as prescribed in Section 59-20-40(1)(c) Special Programs
- (3) Precareer and Career Technology 1.29
- (4) Additional weights for personalized instruction:
 - (A) Gifted and Talented 0.15
 - (B) Academic Assistance 0.15
 - (C) Limited English Proficiency 0.20
 - (D) Pupils in Poverty 0.20
 - (E) Dual Credit Enrollment 0.15

No local match is required for the additional weightings for personalized instruction in the current school year. Charter school per pupil calculations for locally sponsored charters will continue to be calculated according to Section 59-40-140 of the 1976 Code. Students may receive multiple weights for personalized instruction; however, within each weight, students should only be counted once. These weights are defined below:

Students in poverty are students who qualify for Medicaid, SNAP, TANF, or are homeless, transient, or in foster care.

Gifted and talented students are students who are classified as academically or artistically gifted and talented or who are enrolled in Advanced Placement (AP) and International Baccalaureate (IB) courses in high school. Districts shall set-aside twelve percent of the funds for

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

serving artistically gifted and talented students in grades three through twelve.

Students in need of academic assistance are students who do not meet state standards in mathematics, English language arts, or both on state approved assessments in grades three through eight and high school assessments for grades nine through twelve. The additional weight generates funds needed to provide additional instructional services to these students.

Students with limited English proficiency are students who require intensive English language instruction programs and whose families require specialized parental involvement intervention.

Funds received by a school district pursuant to the dual credit weighting must be used to defray all possible costs of dual credit courses for students. Students identified for dual credit enrollment must be identified in PowerSchool as taking a course that will lead to both high school credit and post-secondary credit. Districts must utilize these funds to offset the cost of tuition, fees, instructors, and instructional materials for qualifying courses with the local technical college or other institution of higher education. Each school district shall report to the department the number of students participating in dual credit courses and specify the cost borne by each entity. School districts must assist students in accessing Lottery Tuition Assistance when applicable.

Further, the Department of Education may use school district student counts for personalized instruction as collected in the same manner as the prior fiscal year, PowerSchool or other available existing data sources as determined by the department to calculate the school district add on weightings for the personalized instruction classifications and the determination of the school districts monetary entitlement. End of year adjustments shall be based on the one hundred thirty-five day student average daily membership for all classifications. During the current fiscal year the department will update PowerSchool calculations, reports, screen development, documentation, and training to incorporate the new pupil classification weightings and to make final district allocation adjustments by June 30. The department must provide districts with technical assistance with regard to student count changes in PowerSchool.

1.4. (SDE: EFA - Formula) The amount appropriated in Part IA, Section 1 for "Education Finance Act" shall be the maximum paid under the provisions of Act 163 of 1977 (the South Carolina Education Finance Act of 1977) to the aggregate of all recipients. The South Carolina

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

Education Department shall develop formulas to determine the state and required local funding as stipulated in the South Carolina Education Finance Act of 1977. Such formulas shall require the approval of the State Board of Education and the State Fiscal Accountability Authority. After computing the EFA allocations for all districts, the department shall determine whether any districts' minimum required local revenue exceeds the districts' total EFA Foundation Program. When such instance is found, the department shall adjust the index of taxpaying ability to reflect a local effort equal to the cost of the districts' EFA Foundation Program. The districts' weighted pupil units are to be included in determination of the funds needed for implementation of the Education Finance Act statewide.

In the event that the formulas as devised by the Department of Education and approved by the State Board of Education and the State Fiscal Accountability Authority should provide for distribution to the various school districts totaling more than the amount appropriated for such purposes, subject to the provisions of this proviso, the Department of Education shall reduce each school district entitlement by an equal amount per weighted pupil so as to bring the total disbursements into conformity with the total funds appropriated for this purpose. If a reduction is required in the state's contribution, the required local funding shall be reduced by the proportionate share of local funds per weighted pupil unit. The Department of Education shall continually monitor the distribution of funds under the provisions of the Education Finance Act and shall make periodic adjustments to disbursements to ensure the aggregate of such disbursements do not exceed the appropriated funds.

Local districts shall not be mandated or required to inflate the base number in their respective salary schedules by any percentage greater than the percentage by which the appropriated base student cost exceeds the appropriated base student cost of the prior fiscal year.

1.5. (SDE: Employer Contributions/Allocations) It is the intent of the General Assembly that the appropriation contained herein for "Public School Employee Benefits" shall not be utilized to provide employer contributions for any portion of a school district employee's salary that is federally funded.

State funds allocated for school district employer contributions must be allocated by the formula and must be used first by each district to cover the cost of fringe benefits for personnel required by the Defined Program, food service personnel and other personnel required by law.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

Once a district has expended all state allocated funds for fringe benefits, the district may utilize food service revenues to fund a proportionate share of fringe benefits costs for food service personnel.

The Department of Juvenile Justice and the Department of Corrections' school districts must be allocated funds under the fringe benefits program in accordance with criteria established for all school districts.

1.6. (SDE: Employer Contributions/Obligations) In order to finalize each school district's allocations of Employer Contributions funds for retiree insurance from the prior fiscal year, the Department of Education is authorized to adjust a school district's allocation in the current fiscal year accordingly to reflect actual payroll and payments to the Retirement System from the prior fiscal year. In the event the Department of Education is notified that an educational subdivision has failed to remit proper payments to cover Employee Fringe Benefit obligations, the Department of Education is directed to withhold the educational subdivision's state funds until such obligations are met.

1.7. (SDE: Governor's School for Science & Math) Any unexpended balance on June thirtieth of the prior fiscal year of funds appropriated to or generated by the Governor's School for Science and Mathematics may be carried forward and expended in the current fiscal year pursuant to the direction of the board of trustees of the school.

1.8. (SDE: Educational Responsibility/Foster Care) The responsibility for providing a free and appropriate public education program for all children including disabled students is vested in the public school district wherein a child of lawful school age resides in a foster home, group home, orphanage, or a state operated health care facility including a facility for treatment of mental illness or chemical dependence and habilitation centers for persons with intellectual disabilities or persons with related conditions located within the jurisdiction of the school district or alternative residences. The districts concerned may agree upon acceptable local cost reimbursement. If no agreement is reached, districts providing education shall receive from the district where the child last resided before placement in a facility an additional amount equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. If a child from out of state is residing in a facility owned and/or operated by a for profit entity, the district providing educational services shall be reimbursed by the for profit entity the local district's local support per weighted pupil above

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

the statewide average base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. This also applies to John de la Howe School who also has the authority to seek reimbursement in any situation that the school district has participation in the placement of the student. John de la Howe School shall be reimbursed the local district's local support per weighted pupil above the statewide average base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. Participation will be evidenced by a written agreement from the IEP team or 504 team, written referral, or the school district initiating the placement process. School districts providing the education shall notify the nonresident district in writing within forty-five calendar days that a student from the nonresident district is receiving education services pursuant to the provisions of the proviso. The notice shall also contain the student's name, date of birth, and disabling condition if available. If appropriate financial arrangements cannot be effected between institutions of the state, including independent school districts under the authority of the Department of Disabilities and Special Needs, and school districts, institutions receiving educational appropriations shall pay the local base student cost multiplied by the appropriate pupil weighting. Children residing in institutions of state agencies shall be educated with nondisabled children in the public school districts if appropriate to their educational needs. Such institutions shall determine, on an individual basis, which children residing in the institution might be eligible to receive appropriate educational services in a public school setting. Once these children are identified, the institution shall convene an IEP meeting with officials of the public school district in which the institution is located. If it is determined by the committee that the least restrictive environment in which to implement the child's IEP is a public school setting, then the school district in which the institution is located must provide the educational services. However, that school district may enter into contractual agreements with any other school district having schools located within a forty-five mile radius of the institution. The cost for educating such children shall be allocated in the following manner: the school district where the child last resided before being placed in an institution shall pay to the school district providing the educational services an amount equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act; the school district providing the

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

educational services shall be able to count the child for all funding sources, both state and federal. The institution and school district, through contractual agreements, will address the special education and related services to be provided to students. Should the school district wherein the institution is located determine that the child cannot be appropriately served in a public school setting, then the institution may request a due process hearing pursuant to the procedures provided for in the Individuals with Disabilities Education Act.

The agreed upon acceptable local cost reimbursement or the additional amount equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting set forth in Section 59-20-40, for instructional services provided to out-of-district students, shall be paid within sixty days of billing, provided the billing district has provided a copy of the invoice to both the Superintendent and the finance office of the district being invoiced. Should the district not pay within sixty days, the billing district can seek relief from the Department of Education. The department shall withhold EFA funding equal to the billing from the district refusing to pay and submit the funding (equal to the invoice) to the billing school district.

The agency placing a child in any situation that requires changing school districts, must work with the schools to assure that all required school records, including confidential records, are transferred from the sending to the receiving school within three working days. School records to be transferred should include grade transcripts, state birth certificate, certificate of immunization, social security card, attendance records, discipline records, IEP's, psychological reports (or notation in the school records that a psychological report on the child is available at the school district office) and any other records necessary for the appropriate placement of the child in the new school. School districts must release all records upon presentation of a court order or appropriate permission for confidential release. If evaluation or placement is pending, the receiving school district is responsible to secure information and to complete the placement. The receiving school will maintain appropriate confidentiality of all records received on a child. Upon discharge or release from the treatment facility, the agency placing the child in the receiving school must work with the school district where the student will reside after treatment to assure continuity of the student's education.

1.9. (SDE: Instruction in Juvenile Detention Centers) It shall be the responsibility of the school district where a local juvenile detention

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

(SDE: Revenue Authorization) The State Department of Education is hereby authorized to collect, expend, and carry forward revenues in the following areas to offset the cost of providing such services: the sale of publications, manuals and forms, the sale of Apple Tags, royalties, contributions, donations, foundation funds, special grants and contracts, brochures, photo copies, listings and labels, Directory of South Carolina Schools, student health record cards, items to be recycled, and high school diplomas and certificates; the collection of out-of-state and in-state investigation fees, registration fees for non-SDE employees, recurring facility inspection fees, teacher certification fees; the handling of audio-visual film; the provision of contract computer services to school districts and other state agencies, joint broadcast service to school districts, and education-related statistics through agreement with the National Center for Education Statistics; the lease or sale of programs of television, audio or microcomputer software; the lease or sale of virtual courses to other states; the collection of damage fees for instructional materials and the sale of unusable instructional materials; sale of fuel; use and repair of transportation equipment; fees for Medicaid reimbursable transportation; the receipt of insurance and warranty payments on Department of Education equipment and the sale of used school buses and support equipment. The Department of Education is authorized to collect revenue for deposit into the State General Fund for testing material purchases and test rescoring fees. The Department of Education is authorized to expend revenue collected for lost and damaged instructional materials and the sale of unusable instructional materials for the purpose of contracting for the purchase and maintenance of a statewide textbook inventory management system, provided that schools' newly-adopted instructional materials needs are met first.

1.11. (SDE: School District Bank Accounts) Each school district in this State, upon the approval of the district's governing body, may maintain its own bank account for the purpose of making disbursement of school district funds as necessary to conduct school district business and each county treasurer is hereby authorized to transfer such amount as needed, upon receipt of a written order certified by the district

The School Bus Specifications Committee shall allow for input from all school bus chassis and body manufacturers. However, if it is safe, more economical, and in the public interest, the department may use the school bus specifications of another state in the procurement of school buses. If the department uses the specifications of another state, the department must submit a report to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee detailing the methodology by which the alternative specifications were determined to be safe, more economical, and in the public interest, when compared to the specifications set forth by the School Bus Specifications Committee.

The reduction may not be greater than the total percentage of reduction of the Section 1 appropriation. Should the department hold back funds in excess of the total percentage reduction those funds must be allocated per the proviso.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

No allocation for teacher salaries shall be reduced as a result of this proviso.

1.26. (SDE: School Districts and Special Schools Flexibility) All school districts and special schools of this State may transfer and expend funds among appropriated state general fund revenues, Education Improvement Act funds, and Education Lottery Act funds, and funds received from the Children's Education Endowment Fund for school facilities and fixed equipment assistance, to ensure the delivery of academic and arts instruction to students. However, a school district may not transfer funds allocated specifically for state level maintenance of effort requirements under IDEA, funds allocated specifically for state level maintenance of effort requirement for federal program, funds provided for the Education and Economic Development Act, funds provided for Career and Technology Education, nor funds required for debt service or bonded indebtedness. All school districts and special schools of this State may suspend professional staffing ratios and expenditure regulations and guidelines at the sub-function and service area level, except for four-year old programs and programs serving students with disabilities who have Individualized Education Programs.

In order for a school district to take advantage of the flexibility provisions, at least seventy-five percent of the school district's per pupil expenditures must be utilized within the InSite categories of instruction, instructional support, and only transportation, food service, and safety within non-instruction pupil services. No portion of the seventy-five percent may be used for facilities, business services, debt service, capital outlay, program management, and leadership services, as defined by InSite. SECTION 1 - H630 - DEPARTMENT OF EDUCATION

competitions, restructuring administrative staffing, and expanding virtual instruction.

School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year.

Prior to implementing the flexibility authorized herein, school districts must provide to Public Charter Schools the per pupil allocation due to them for each categorical program.

Quarterly throughout the current fiscal year, the chairman of each school district's board and the superintendent of each school district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken. The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting, and the certification must be conspicuously posted on the internet website maintained by the school district.

For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the most economical type of bus fuel.

For the current fiscal year, savings generated from the suspension of the assessments enumerated above must be allocated to school districts based on weighted pupil units.

School districts must maintain a transaction register that includes a complete record of all funds expended over one hundred dollars, from whatever source, for whatever purpose. The register must be prominently posted on the district's internet website and made available for public viewing and downloading. The register must include for each expenditure:

- (i) the transaction amount;
- (ii) the name of the payee; and
- (iii) a statement providing a detailed description of the expenditure.

The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must not include any information that can be used to identify an individual

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

employee. The register must be accompanied by a complete explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at least once a month.

Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

The Comptroller General must establish and maintain a website to contain the information required by this section from a school district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate between the school districts and search for the information they are seeking.

The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title 30, of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of Education to exercise its authority to grant waivers under Regulation 43-261.

1.27. (SDE: Medical Examination and Security Reimbursement/Expenditures) From funds authorized in Part IA, Section 1, VII.B. Other Operating Expenses, the Department of Education may directly pay, or reimburse employees, for the cost of a medical examination as required in Part 391, Subpart E of the Federal Motor Carrier Safety Regulations, for employees that are required to operate a state vehicle transporting hazardous materials and that are required to undergo a national security background check because of the required Hazmat endorsement to their CDL.

1.28. (SDE: Budget Reduction) In compensating for any reduction in funding or an operating deficit publically recognized by the School Board of Trustees, local districts must give priority to preserving classroom teachers and operations. Funding reductions should first be applied to administrative and non-classroom expenses before classroom expenses are affected.

1.29. (SDE: Governor's School for the Arts and Humanities Carry Forward) Any unexpended balance on June thirtieth of the prior fiscal year of funds appropriated to or generated by the Governor's School for the Arts and Humanities may be carried forward and expended in the

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

current fiscal year pursuant to the discretion of the Board of Trustees of the School.

1.30. (SDE: Governor's Schools' Fees) The South Carolina Governor's School for the Arts and Humanities and the South Carolina Governor's School for Science and Mathematics are authorized to charge, collect, expend, and carry forward student fees as approved by their respective Board of Directors. The purpose and amount of any such fees will be to maintain program quality in both academics and residential support. No student will be denied admittance or participation due to financial inability to pay. The respective Board of Directors shall promulgate administrative policy governing the collection of all student fees. Both schools shall conspicuously publish a fee schedule on their respective websites.

1.31. (SDE: School District Furlough) Should there be a midyear reduction in state funding to the districts, school districts may institute employee furlough programs for district-level and school-level professional staff. Before any of these employees may be furloughed, the chairman of the governing body of the school district must certify that all fund flexibility provided by the General Assembly has been utilized by the district and that the furlough is necessary to avoid a year-end deficit and a reduction in force. The certification must include a detailed report by the superintendent of the specific action taken by the district to avoid a year-end deficit. The certification and report must be in writing and delivered to the State Superintendent of Education and a copy must be forwarded to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.

The local school district board of trustees may implement a furlough of personnel once certification to the State Superintendent documents all funding flexibility has been exhausted and continued year-end deficits exist. Local school boards of trustees shall have the authority to authorize furloughs of these employees in the manner in which it sees fit. However, instructional personnel may be furloughed for up to five non-instructional days if not prohibited by an applicable employment contract with the district and provided district administrators are furloughed for twice the number of days. District administrators may only be furloughed on non-instructional days and may not be furloughed for a period exceeding ten days. District administrators shall be defined by the Department of Education using the Professional Certified Staff (PCS) System. For individuals not coded in PCS, the determination shall be made based upon whether the individual performs the functions

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

outlined in position codes identified by the department as administration. Educators who would have received a year's experience credit had a furlough not been implemented, shall not have their experience credit negatively impacted because of a furlough implementation.

During any furlough, affected employees shall be entitled to participate in the same benefits as otherwise available to them except for receiving their salaries. As to those benefits that require employer and employee contributions, including, but not limited to, contributions to the South Carolina Retirement System or the optional retirement program, the district will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the employee remains solely responsible for making those contributions. Placement of an employee on furlough under this provision does not constitute a grievance or appeal under any employee grievance procedure. The district may allocate the employee's reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within which the furlough occurs.

Each local school district must prominently post on the district's internet website and make available for public viewing and downloading the most recent version of the school district's policy manual and administrative rule manual.

This proviso shall not abrogate the terms of any contract between any school district and its employees.

1.32. (SDE: School Lunch/Attendance Supervisors) For those counties in which an entity other than the school district administers the school lunch supervisor and/or attendance supervisor programs, the school districts in that county shall transfer to the entity the amount available in the previous fiscal year for administration of the school lunch supervisor and/or attendance supervisor programs. Each district shall transfer a pro rata share of the total cost based upon the percentage of state EFA funds distributed to the districts within the county.

1.33. All unexpended general funds appropriated to the Department of Education for the Education Finance Act in the current fiscal year shall be transferred to the Education Finance Act Reserve Fund. In the event that the amount appropriated for the Education Finance Act is insufficient to fully fund the base student cost as established by this act, revenues from the Education Finance Act Reserve Fund may be used to supplement the funds appropriated. By June 30th of the current fiscal year, if the department determines that the funds are not needed to supplement the Education Finance Act, the department may utilize the funds for bus purchase. The General Assembly may make direct appropriations to this fund. All unexpended funds in the Education Finance Act Reserve Fund and any interest accrued by the fund must remain in the fund and may be carried forward into the current fiscal year.

1.39. (SDE: Prohibit Advertising on School Buses) The Department of Education and local school districts are prohibited from selling space for or the placement of advertisements on the outside or inside of state-owned school buses.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

1.40. (SDE: Residential Treatment Facilities Student Enrollment and Funding) Each South Carolina resident of lawful school age residing in licensed residential treatment facilities (RTFs) for children and adolescents identified on the State Qualified Providers list and meets the requirements of Section 44-7-130 of the 1976 Code, (students) shall be entitled to receive educational services from the school district in which the RTF is located (facility school district). The responsibility for providing appropriate educational programs and services for these students, both with and without disabilities, who are referred, authorized, or placed by the State is vested in the facility school districts. For purposes of this proviso, an authorization must be pursuant to a physician's determination of medical necessity. If clinically appropriate, the facility school district, the RTF, and the parent or guardian of a student referred or placed in a RTF may consider the appropriateness of providing the student's education program virtually through enrollment in either the facility district's virtual program, the South Carolina virtual school program provided through the Department of Education (Virtual SC), or a virtual charter school authorized by the South Carolina Public Charter School District, or a virtual charter school authorized by an approved institute of higher education. This decision should be made jointly with the best interest of the student and what is clinically indicated being considered.

A facility school district must provide the necessary educational programs and services directly to the student at the RTF's facility, provided that the RTF facility provides and maintains comparable adequate space for the educational programs and services consistent with all federal and state least restrictive environment requirements. Adequate space shall include appropriate electrical support and Internet accessibility. Unless the parent or legal guardian of the student seeks to continue the student's enrollment in the resident school district under a medical homebound instruction program and the district approves, if appropriate, then, under these circumstances, the facility school district shall enroll the student and assume full legal and financial responsibility for the educational services including enrolling the student, approving the student's entry into a medical homebound instructional program, if appropriate, and receiving and expending funds, unless the resident school district undertakes to carry out its educational responsibilities for the student directly. Alternatively, a facility school district may choose to provide the necessary educational programs and services by contracting with the RTF provided that the RTF agrees to provide

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

educational services to the student at the RTF's facility. Under these circumstances, the facility school district must enroll the student and pay the RTF for the educational services provided. If the facility school district determines the educational program being offered by the RTF does not meet the educational standards outlines in the contract, the facility district shall be justified in terminating the contract.

The facility school districts are entitled to receive the base student cost multiplied by the Education Finance Act pupil weighting for Homebound pupils of 2.10, as set forth in Section 59-20-40 of the 1976 Code and any eligible categorical and federal funds. These funds may be retained by the facility school districts for the purpose of providing the educational programs and services directly to students referred or placed by the State or the facility school districts may use these funds to reimburse RTFs for the educational programs and services provided directly by the RTFs. A facility school district is entitled to reimbursement from a resident school district for the difference between (1) the reasonable costs expended for the educational services provided directly by the facility school district or the amount paid to the RTF and (2) the aggregate amount of federal and state funding received by the facility school district for that student. However, the reimbursement rate may not exceed \$45 per student per day. Facility school districts providing the educational services shall notify the resident district in writing within forty-five calendar days that a student from the resident district is receiving educational services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided the facility district has provided a copy of the invoice to both the District Superintendent and the finance office of the resident district being invoiced. Should the facility school district be unable to reach agreement with the resident school district regarding reasonable costs differences, the facility school district shall notify the Department of Education's Office of General Counsel. The Department of Education shall facilitate a resolution of the dispute between the facility school district and the resident school district within forty-five days of the notice of dispute. If the issue of reasonable cost differences should remain unresolved, a facility school district shall have the right to file a complaint in a Circuit Court. Should a resident school district fail to distribute the entitled funding to the facility school district by the one hundred thirty-five day count, the Department of Education is authorized to withhold the equivalent amount of EFA funds and transfer those funds to the facility school district.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

RTF facilities on the State Qualified Provider List not located within the boundaries of the state shall be reimbursed at a rate that may not exceed \$45 per student per day for education services and school districts shall be eligible to receive a base student cost weighted funding of 2.10 provided that the student remains enrolled in the school district. Facilities providing the educational services shall notify the resident district in writing within forty-five calendar days that a student from the resident district is receiving educational services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided the qualified facility has provided a copy of the invoice to both the District Superintendent and the finance office of the resident district being invoiced. Should the facility be unable to reach agreement with the resident school district regarding reasonable costs differences, the provider shall notify the Department of Education's Office of General Counsel. The Department of Education shall facilitate a resolution of the dispute between the facility and the resident school district within forty-five days of the notice of dispute. If the issue of reasonable cost differences should remain unresolved, a facility shall have the right to file a complaint in a Circuit Court. Additionally, qualified RTF providers' general education curriculum must be aligned to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible for special education and related services under the Individuals with Disabilities Education Act (IDEA), as amended, and the State Board of Education (SBE) regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel. Students in a qualified RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their educational efforts. The resident school district and the RTF should develop a memorandum of understanding to outline the responsibilities of the RTF in providing the educational services and responsibilities, if any, of the resident school district while the student is housed in the RTF.

If a child from out of state is placed in a RTF by an out-of-state school district or agency, the child's home state remains responsible for the educational services. The facility school district may choose to provide the educational program to the child and, upon choosing to do so, shall contract with the appropriate entity for payment of educational services provided to the child. Out-of-state students provided educational services by a facility school district shall not be eligible for funding through the Education Finance Act.

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

If a child is placed in a RTF by the child's parent or guardian and is not referred, authorized, or placed by the State, the facility school district may choose to provide the educational program to the child, and upon doing so, must negotiate with the resident school district for services through medical homebound procedures. A facility school district is responsible for compliance with all child find requirements under Section 504 of the Rehabilitation Act of 1973 and Individuals with Disabilities Act of 2004 (IDEA).

All students enrolled in the facility school districts shall have access to the facility school districts' general education curriculum, which will be tied to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible for special education and related services under the Individuals with IDEA, as amended, and the State Board of Education (SBE) regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel. Students in an RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their educational efforts.

With respect to students enrolled in the facility school districts, for accountability purposes, the assessment and accountability measures for students residing in RTFs shall be attributed to a specific school only if the child physically attends the school. The performance of students residing in a RTF who receive their educational program on site at the RTF must be reflected on a separate line on the facility school district's report card and must not be included in the overall performance ratings of the facility school district. The Department of Education shall examine the feasibility of issuing report cards for RTFs. For the current fiscal year, a facility school district shall not have the district's state accreditation rating negatively impacted by deficiencies related to the delivery of an educational program at a RTF.

RTFs shall notify the facility school district as soon as practical, and before admission to the RTF if practical, of a student's admission to the RTF. RTFs, the facility school districts and the Department of Education shall use their best efforts to secure and/or exchange information, including documents and records necessary to provide appropriate educational services and/or related services as necessary to assist the facility school district in determining the resident school district. 1.65. (SDE: South Carolina Community Block Grants for Education Pilot Program) There is created the South Carolina Community Block

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

Grants for Education Pilot Program. The purpose of this matching grants program is to encourage and sustain partnerships between a community and its local public school district or school for the implementation of innovative, state-of-the-art education initiatives and models to improve student learning. The initiatives and models funded by the grant must be well designed, based on strong evidence of effectiveness, and have a history of improved student performance.

The General Assembly finds that the success offered by these initiatives and programs is assured best when vigorous community support is integral to their development and implementation. It is the intent of this proviso to encourage public school and district communities and their entrepreneurial public educators to undertake state-of-the-art initiatives to improve student learning and to share the results of these efforts with the state's public education community.

As used in this proviso:

(1) "Community" is defined as a group of parents, educators, and individuals from business, faith groups, elected officials, nonprofit organizations and others who support the public school district or school in its efforts to provide an outstanding education for each child. As applied to the schools impacted within a district or an individual school, "community" includes the school faculty and the School Improvement Council as established in Section 59-20-60 of the 1976 Code;

(2) "Poverty" is defined as the percent of students eligible in the prior year for the free and reduced price lunch program and or Medicaid; and

(3) "Achievement" is as established by the Education Oversight Committee for the report card ratings developed pursuant to Section 59-18-900 of the 1976 Code.

The Executive Director of the Education Oversight Committee is directed to appoint an independent grants committee to develop the process for awarding the grants including the application procedure, selection process, and matching grant formula. The grants committee will be comprised of seven members, three members selected from the education community and four members from the business community. The chairman of the committee will be selected by the committee members at the first meeting of the grants committee. The grants committee will review and select the recipients of the Community Block Grants for Education.

The criteria for awarding the grants must include, but are not limited to:

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

(1) the establishment and continuation of a robust community advisory committee to leverage funding, expertise, and other resources to assist the district or school throughout the implementation of the initiatives funded through the Block Grant Program;

(2) a demonstrated ability to meet the match throughout the granting period;

(3) a demonstrated ability to implement the initiative or model as set forth in the application; and

(4) an explanation of the manner in which the initiative supports the district's or school's strategic plan required by Section 59-18-1310 of the 1976 Code.

In addition, the district or school, with input from the community advisory committee, must include:

(1) a comprehensive plan to examine delivery implementation and measure impact of the model;

(2) a report on implementation problems and successes and impact of the innovation or model; and

(3) evidence of support for the project from the school district administration when an individual school applies for a grant.

The match required from a grant recipient is based on the poverty of the district or school. No matching amount will exceed more than seventy percent of the grant request or be less than ten percent of the request. The required match may be met by funds or by in-kind donations, such as technology, to be further defined by the grants committee. Public school districts and schools that have high poverty and low achievement will receive priority for grants when their applications are judged to meet the criteria established for the grant program.

However, no grant may exceed \$250,000 annually unless the grants committee finds that exceptional circumstances warrant exceeding this amount.

The Education Oversight Committee will review the grantee reports and examine the implementation of the initiatives and models to understand the delivery of services and any contextual factors. The Oversight Committee will then highlight the accomplishments and common challenges of the initiatives and models funded by the Community Block Grant for Education Pilot Program to share the lessons learned with the state's public education community.

For the current fiscal year, funds allocated to the Community Block Grant for Education Pilot Program must be used to provide or expand

SECTION 1 - H630 - DEPARTMENT OF EDUCATION

high-quality early childhood programs for a targeted population of at-risk four-year-olds. High-quality is defined as meeting the minimum program requirements of the Child Early Reading Development and Education Program and providing measurable high-quality child-teacher interactions, curricula and instruction. Priority will be given to applications that involve public-private partnerships between school districts, schools, Head Start, and private child care providers who collaborate to: (1) provide high-quality programs to four-year-olds to maximize the return on investment; (2) assist in making the transition to kindergarten; (3) improve the early literacy, social and emotional, and numeracy readiness of children; and (4) engage families in improving their children's readiness.

Special schools include the Governor's School for Science and Math, the Governor's School for the Arts and Humanities, Wil Lou Gray Opportunity School, John de la Howe School, School for the Deaf and the Blind, Felton Lab, Department of Juvenile Justice, and Palmetto Unified School District. Funds distributed to school districts or allocated to schools must not supplant existing supply money paid to teachers from other sources. If a school district requires receipts for tax purposes the receipts may not be required before December thirty-first. Districts that do not wish to require receipts may have teachers retain the receipts and certify for the district they have received the allocation for purchase of teaching supplies and/or materials and that they have purchased or will purchase supplies and/or materials during the fiscal year for the amount of the allocation. Districts shall not have an audit exception related to non-retention of receipts in any instances where a similar instrument is utilized. Any district requiring receipts must notify any teacher from whom receipts have not been submitted between November twenty-fifth and December sixth that receipts must be submitted to the district. Districts may not add any additional requirement not listed herein related to this reimbursement.

Any classroom teacher, including a classroom teacher at a South Carolina private school, that is not eligible for the reimbursement allowed by this provision, may claim a refundable income tax credit on the teacher's 2018 tax return, provided that the return or any amended return claiming the credit is filed prior to the end of the fiscal year. The credit is equal to two hundred seventy-five dollars, or the amount the teacher expends on teacher supplies and materials, whichever is less. If any expenditures eligible for a credit are made after December thirty-first, the teacher may include the expenditures on his initial return

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

or may file an amended 2018 return claiming the credit, so long as the return or amended return is filed in this fiscal year. The Department of Revenue may require whatever proof it deems necessary to implement the credit provided by this part of this provision. Any person receiving the reimbursement provided by this proviso is ineligible to take the income tax credit allowed by this proviso.

1A.10. (SDE-EIA: Teacher of the Year Awards) Of the funds provided herein for Teacher of the Year Awards, each district Teacher of the Year shall receive an award of \$1,000. In addition, the State Teacher of the Year shall receive an award of \$25,000, and each of the four Honor Roll Teachers of the Year will receive an award of \$10,000. To be eligible, districts must participate in the State Teacher of the Year Program sponsored by the State Department of Education. These awards shall not be subject to South Carolina income taxes.

1A.11. (SDE-EIA: EOC) The Education Oversight Committee may collect, retain and expend revenue from conference registration and fees; charges for materials supplied to local school districts or other entities not otherwise mandated to be provided by state law; and from other activities or functions sponsored by the committee including public awareness campaign activities. Any unexpended revenue from these sources may be carried forward into the current fiscal year and expended for the same purposes.

1A.12. (SDE-EIA: Technical Assistance) In order to best meet the needs of underperforming schools, funds appropriated for technical assistance must be used to provide intensive support to schools and districts with an absolute rating of below average or at-risk on the most recent annual school report card or with the lowest percentages of students meeting state standards on state assessments on the most recent state assessments or with the lowest high school graduation rates. The department will create a system of tiers of technical assistance for low-performing schools and districts that will receive technical assistance. The tiers will be determined by factors that include, but are not limited to, length of time performance of the school or district has been at-risk/below average, annual achievement ratings, annual growth ratings, school or district accreditation, and/or financial risk status. The tiers of technical assistance may include a per student allocation, placement of a principal mentor, transformation coach, instructional leader, replacement of the principal, reconstitution of a school, and declaration of a state of emergency. Low-performing schools and

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

districts shall be placed within the tiered technical assistance framework not later than December fifteenth.

Low-performing schools shall receive a diagnostic review through the department. In addition, newly identified low-performing schools and districts must be reviewed by an External Review Team in the year of designation, and every third year thereafter. These reports shall be made available on the Department of Education's website; any information pertaining to personnel matters or containing personally identifiable information shall be exempted. Based upon the recommendations in the review(s), low-performing schools and districts must develop and submit to the Department of Education an updated school renewal or district strategic plan outlining goals for improvements. The amended plans must address specific strategies designed to increase student achievement and must include measures to evaluate the success of implementation of the plan.

With the funds appropriated to the Department of Education, and any experts placed in the school or district for technical assistance services, the department will assist low-performing schools and districts in designing and implementing the strategies and measurement identified in the amended plans and in brokering for technical assistance personnel as stipulated in the plan. In addition, the department must monitor student academic achievement and progress on implementation and report their findings to the Chairman of the Senate Finance Committee, the Chairman of the House Ways and Means Committee, the Chairman of the Senate Education Committee, the Chairman of the House Education and Public Works Committee, the local legislative delegation, and the Governor in the fall following the school or district designation as low-performing. If the school or school district does not provide the evaluation information necessary to determine effective use, the principal of the school or the district superintendent may be subject to receiving a public reprimand by the State Board of Education if it is determined that those individuals are responsible for the failure to provide the required information.

Funds must be used by the department for implementation and delivery of technical assistance services. Using previous report card data and monitoring reports on the status of implementation of the school renewal plan, the department shall identify priority schools. Funds appropriated for technical assistance shall be used by the department to work with those schools identified as low-performing and to support priority schools under the tiered system. These funds shall not be

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

transferred to any other funding category by the school district without prior approval of the State Superintendent of Education and funds are not subject to agency flexibility provisions.

Reconstitution means the redesign or reorganization of the school, which may include the declaration that all positions in the school are considered vacant. Certified staff currently employed in priority schools must undergo an evaluation in the spring following the school's identification as a priority school and must meet determined goals to be rehired and continue their employment at that school. Educators who were employed at a school that is being reconstituted prior to July 2009, and to whom the employment and dismissal laws apply will not lose their rights in the reconstitution. If they are not rehired or are not assigned to another school in the school district they have the opportunity for a hearing. However, employment and dismissal laws shall not apply to educators who are employed in the district and assigned to the priority schools July 1, 2009, in the event of a reconstitution of the school in which the educator is employed. Those rights are only suspended in the event of a reconstitution of the entire school staff. Additionally, the rights and requirements of the employment and dismissal laws do not apply to educators who on July 1, 2009, were on an induction or annual contract, that subsequently were offered continuing contract status after the effective date of this proviso, and are employed at a school that is subject to reconstitution under this proviso.

The reconstitution of a school could take place if the school has been identified as a priority school that has failed to improve satisfactorily. The decision to reconstitute a school shall be made by the State Superintendent of Education in consultation with the principal the school board of trustees, and the district superintendent. The decision to reconstitute a school shall be made by April first, at which time notice shall be given to all employees of the school. The department, in consultation with the district superintendent, shall develop a staffing plan and a budget for each reconstituted school.

The State Superintendent of Education may declare a state of emergency in a district if the accreditation status is probation or denied, if a majority of the schools fail to show improvement, if the district is classified as being in "high risk" status financially, or for financial mismanagement resulting in a deficit. The State Superintendent of Education may declare a state of emergency in a school if the accreditation status is probation or denied, or if the school fails to show improvement. Upon declaration of a state of emergency, the

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

Superintendent may take over management of the school or district. Management of the school or district may include direct management, consolidation with another district, charter management, public/private management, or contracting with an educational management organization or another school district.

1A.13. (SDE-EIA: Proviso Allocations) In the event an official EIA revenue shortfall is declared by the Board of Economic Advisors, the Department of Education may reduce any allocation in Section 1A specifically designated by proviso in accordance with the lower Board of Economic Advisors revenue estimate as directed by the Executive Budget Office. No allocation for teacher salaries shall be reduced as a result of this proviso.

1A.14. (SDE-EIA: School Districts and Special Schools Flexibility) All school districts and special schools of this State may transfer and expend funds among appropriated state general fund revenues, Education Improvement Act funds, and Education Lottery Act funds, and funds received from the Children's Education Endowment Fund for school facilities and fixed equipment assistance, to ensure the delivery of academic and arts instruction to students. However, a school district may not transfer funds allocated specifically for state level maintenance of effort requirements under IDEA, funds allocated specifically for state level maintenance of effort requirement for federal program, funds provided for the Education and Economic Development Act, funds provided for Career and Technology Education, nor funds required for debt service or bonded indebtedness. All school districts and special schools of this State may suspend professional staffing ratios and expenditure regulations and guidelines at the sub-function and service area level, except for four-year old programs and programs serving students with disabilities who have Individualized Education Programs.

In order for a school district to take advantage of the flexibility provisions, at least seventy-five percent of the school district's per pupil expenditures must be utilized within the In\$ite categories of instruction, instructional support, and only transportation, food service, and safety within non-instruction pupil services. No portion of the seventy-five percent may be used for facilities, business services, debt service, capital outlay, program management, and leadership services, as defined by In\$ite. The school district shall report to the Department of Education the actual percentage of its per pupil expenditures used for classroom instruction, instructional support, and transportation, food service, and safety within non-instruction pupil services for the current school year

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

ending June thirtieth. Salaries of on-site principals must be included in the calculation of the district's per pupil expenditures.

"In\$ite" means the financial analysis model for education programs utilized by the Department of Education.

School districts are encouraged to reduce expenditures by means, including, but not limited to, limiting the number of low enrollment courses, reducing travel for the staff and the school district's board, reducing and limiting activities requiring dues and memberships, reducing transportation costs for extracurricular and academic competitions, restructuring administrative staffing, and expanding virtual instruction.

School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year.

Prior to implementing the flexibility authorized herein, school districts must provide to Public Charter Schools the per pupil allocation due to them for each categorical program.

Quarterly throughout the current fiscal year, the chairman of each school district's board and the superintendent of each school district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken. The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting, and the certification must be conspicuously posted on the internet website maintained by the school district.

For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the most economical type of bus fuel.

For the current fiscal year, savings generated from the suspension of the assessments enumerated above must be allocated to school districts based on weighted pupil units.

School districts must maintain a transaction register that includes a complete record of all funds expended over one hundred dollars, from whatever source, for whatever purpose. The register must be

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

prominently posted on the district's internet website and made available for public viewing and downloading. The register must include for each expenditure:

- (i) the transaction amount;
- (ii) the name of the payee; and
- (iii) a statement providing a detailed description of the expenditure.

The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must not include any information that can be used to identify an individual employee. The register must be accompanied by a complete explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at least once a month.

Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

The Comptroller General must establish and maintain a website to contain the information required by this section from a school district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate between the school districts and search for the information they are seeking.

The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title 30, of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of Education to exercise its authority to grant waivers under Regulation 43-261.

1A.15. (SDE-EIA: Teacher Salary Supplement) The department is directed to carry forward prior year unobligated teacher salary supplement and related employer contribution funds into the current fiscal year to be used for the same purpose. Any unexpended funds in teacher salary supplement may be used to fund shortfalls in the associated employer contribution funding in the current fiscal year.

1A.16. (SDE-EIA: Dropout Prevention and High Schools That Work Programs) The Department of Education must report annually by December first, to the Governor, the Chairman of the Senate Finance Committee, the Chairman of the House Ways and Means Committee, the Chairman of the Senate Education Committee, and the Chairman of

1A.18. (SDE-EIA: Report Card Information) The percentage each school district expended on classroom instruction as defined by the Department of Education's InSite classification for "Instruction" must be printed on the Annual School and District Report Card.

1A.19. (SDE-EIA: Core Curriculum Materials) The funds appropriated in Part IA, Section 1, VIII.A.3 for instructional materials for core curriculum shall be expended consistent with the requirements of Section 59-31-600 of the 1976 Code requiring the development of higher order thinking skills and critical thinking which should be integrated throughout the core curriculum instructional materials. Furthermore, the evaluation criteria used to select instructional materials with funds appropriated in Part IA, Section 1, VIII.A.3 shall include a weight of up to ten percent of the overall criteria to the development of higher order thinking skills and critical thinking.

1A.20. (SDE-EIA: Certified Staff Technology Proficiency) To ensure the effective and efficient use of the funding provided by the General Assembly in Part IA, Section 1 VIII.D. for school technology in the classroom and internet access, the State Department of Education shall approve district technology plans that specifically address and incorporate certified staff technology competency standards and local school districts must require certified staff to demonstrate proficiency in these standards as part of each certified staff's Professional Development plan. District adopted technology proficiency standards and plans should be, at minimum, aligned to the International Society for Technology in Education (ISTE) teacher standards. Evidence that districts are meeting the requirement is a prerequisite to expenditure of a district's technology funds.

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

1A.21. (SDE-EIA: Accountability Program Implementation) To support implementation of the accountability program, the Education Oversight Committee may carry forward unexpended Education Accountability Act funds authorized specifically for the administration of the Education Oversight Committee. For the current fiscal year the Education Oversight Committee may carry forward prior year EIA South Carolina Community Block Grants for Education Pilot Program funds not awarded by the grant committee. 1A.22. (SDE-EIA: 4K Targeting) EIA funds allocated for the provision of four-year-old kindergarten shall be utilized for the provision of services to age-eligible children qualifying for free or reduced-price lunch or Medicaid. Children with developmental delays documented through state approved screening assessments or children with medically documented disabilities who do not already qualify for special need services should also be considered for enrollment. In the event that more students seek to enroll than available space permits, districts shall prioritize students (at the time of acceptance) on the basis of family income expressed as a percentage of the federal poverty guidelines, with the lowest family incomes given the highest enrollment priority.

1A.23. (SDE-EIA: Reading) The funds allocated to the Department of Education for reading shall be used to provide districts with research-based strategies and professional development and to work directly with schools and districts to assist with implementation of research-based strategies. When providing professional development the department and school districts must use the most cost effective method and when able utilize ETV to provide such services throughout the state. The department shall establish measurements for monitoring impact on student achievement.

1A.24. (SDE-EIA: Students at Risk of School Failure) For the current fiscal year, EIA funds appropriated for students at academic risk of school failure, must be allocated to school districts based upon two factors: (1) poverty as determined for the poverty add on weight in Proviso 1.3; and (2) the number of weighted pupil units identified in the prior fiscal year as in need of academic assistance. At least eighty-five percent of the funds must be spent on instruction and instructional support for students at academic risk. Instructional support may include family literacy and parenting programs to students at-risk for school failure and their families. Students at academic risk are defined as

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

students who are not meeting grade level standards in English language arts/reading and mathematics as evidenced by summative state assessments in grades three through eight or students who are not on track to meeting or exceeding English language arts/reading or mathematics standards by the end of third grade. Public charter schools, the Palmetto Unified School District, and the Department of Juvenile Justice must also receive a proportionate per pupil allocation based on the number of students at academic risk of school failure served.

The remaining funds will be allocated to districts based on a formula which includes factors such as target populations without a high school credential, program enrollment the previous school year, number of students making an educational gain the previous school year, and performance factors such as number of high school credentials and career readiness certificates awarded the previous school year. Overall levels of state funding must meet the federal requirement of state maintenance of effort. Each school district must collect information from both the student and the school including why the student has enrolled in Adult Education and whether or not the student

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

is pursuing a GED or Diploma. The school district must then provide a quarterly report to the Department of Education and must include the unique student identifier. The department, in turn, will provide summary information to the House Ways and Means Committee, the House Education and Public Works Committee, the Senate Finance Committee and the Senate Education Committee on the information. Up to a maximum of \$300,000, of funds may be used to establish an initiative by which qualifying adult education students may qualify for a free high school equivalency test. Public and private providers shall be funded for instructional costs at a rate of \$4,510 per student enrolled. Eligible students enrolling during the school year or withdrawing during the school year shall be funded on a pro rata basis determined by the length of their enrollment. Private providers transporting eligible children to and from school shall also be eligible for a reimbursement of \$574 per eligible child transported. All providers who are reimbursed are required to retain records as required by their fiscal agent. New providers participating for the first time in the current fiscal year and enrolling between one and six eligible children shall be eligible to receive up to \$1,000 per child in materials and equipment funding, with providers enrolling seven or more such children eligible for funding not to exceed \$10,000. Providers receiving equipment funding are expected to participate in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years will require the provider to return a portion of the equipment allocation at a level determined by the Department of Education and the Office of First Steps to School Readiness. Funding to providers is contingent upon

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

receipt of data as requested by the Department of Education and the Office of First Steps. The Department of Education shall only provide funding for public school students whose complete records have been entered into PowerSchool based on the one hundred and thirty-five day student average daily membership.

Annually, the Department of Education is directed to audit the annual allocations to public providers to ensure that allocations are accurate and aligned to the appropriate pro rata per student allocation, materials, and equipment funding. In the event the department, during the audit process determines that the annual allocations of the prior fiscal year are not accurate, the department must adjust the allocations for the current fiscal year to account for the audit findings. The department must provide the results of the annual audit findings to the General Assembly no later than December first. Likewise, in the event the Office of First Steps determines that the annual allocations of the prior fiscal year to private providers are not accurate, the Office of First Steps must adjust the allocations for the current fiscal year to account for the findings.

Of the funds appropriated, \$300,000 shall be allocated to the Education Oversight Committee to conduct an annual evaluation of the South Carolina Child Development Education Pilot Program and to issue findings in a report to the General Assembly by January fifteenth of each year. To aid in this evaluation, the Education Oversight Committee shall determine the data necessary and both public and private providers are required to submit the necessary data as a condition of continued participation in and funding of the program. This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall issue a unique student identifier for each child receiving services from a private provider. The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's implementation and assessment of student success in the early elementary grades.

1A.31. (SDE-EIA: Centers of Excellence) Of the funds appropriated for Centers of Excellence, \$350,000 must be allocated to the Francis Marion University Center of Excellence to Prepare Teachers of Children of Poverty to expand statewide training for individuals who teach children of poverty through weekend college, nontraditional or alternative learning opportunities.

1A.32. (SDE-EIA: IDEA Maintenance of Effort) Prior to the dispersal of funds appropriated in Section VIII.A.1. Aid to Districts according to Proviso 1A.30 for the current fiscal year, in the event that there is a reduction in state funds or there are changes in the Education Finance Act/Base Student Cost formula that would reduce support for children with disabilities, the Department of Education is authorized to utilize funds appropriated in Section VIII.A.1. Aid to Districts to ensure maintenance of state financial support for the IDEA. The department shall distribute these funds using the current fiscal year one hundred thirty-five day Average Daily Membership or as directed by the United States Department of Education. Funds provided for these purposes may not be transferred to any other purpose and therefore are not subject to flexibility. For continued compliance with the federal maintenance of state financial support requirements of the IDEA, funding for children with disabilities must, to the extent practicable, be held harmless to budget cuts or reductions to the extent those funds are required to meet federal maintenance of state financial support requirements under the IDEA. In the event cuts to funds that are needed to maintain fiscal effort are necessary, when administering such cuts, the department must not reduce funding to support children with disabilities who qualify for services under the IDEA in a manner that is disproportionate to the level of overall reduction to state programs in general. By December first, the department must submit an estimate of the IDEA maintenance of state financial support requirement to the General Assembly and the Governor. For the current fiscal year, the department may carry forward IDEA Maintenance of Effort funds from the prior fiscal year and expend them in the same manner.

1A.33. (SDE-EIA: Career Cluster Industry Partnerships) From the funds appropriated to the Department of Education, \$800,000 must be provided as direct grants to the private sector statewide trade association or educational foundation providing nationally certified programs in career and technology education representing the automotive,

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

construction, engineering, healthcare, mechanical contracting/construction, and hospitality tourism career clusters. Organizations applying for a grant must do so by July thirty-first and the Department of Education must award a minimum of one grant of at least \$150,000 in at least four of these specified career clusters to be used exclusively for career and technology education. The recipient industry organization must conduct end-of-course exams graded by a national industry organization and must include in their grant request how the money will be spent in direct support of students to further industry-specific career technology education; a description and history of their program nationally and within South Carolina; estimates of future employment growth in their industry; and the national scope of their program. By August first of the following year, the organization must submit to the department a report detailing how the grant increased industry/employer awareness; the number of increased schools using the industry-based curriculum and partnered with the industry organization; the increased number of students in the program; and an overview and analysis of the organization's statewide student competition. The grant must be used for career awareness programs for that industry cluster; statewide student competitions leading to national competitions; teacher development and training; post-secondary scholarships in industry-specific degree programs; student recruitment into that career cluster programs; programs to educate middle and high school Career or Guidance Counselors about the industry; service to disadvantaged youth; and administering business/employer awareness and partnerships which help lead to experience-based, career-oriented experiences including internships, apprenticeships, mentoring, co-op education and service learning. The Office of Career and Technology Education of the department will develop goals with each career cluster on the number of new schools using the industry-based curriculum and partnered with that career cluster organization. These funds may not be used to supplant or replace, in whole or in part, other existing resources/assets sourced outside the present grant being used to provide the same services or programs. Organizations may carry-over grants for up to three years when a large project is identified in the grant application to be used at a future date; otherwise excess funds must be returned to the state. Organizations awarded must submit a semi-annual programmatic and financial report on the last day of December in addition to the final report due August first that has been audited by a third party accounting firm.

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

1A.34. (SDE-EIA: Partnerships/Other Agencies & Entities) For the current fiscal year, agencies and other entities receiving funds appropriated in Part IA, Section 1, VIII. F. will continue to report annually to the Education Oversight Committee (EOC). Any entity receiving funds that must flow through a state agency will receive those funds through the EOC, unless requested in writing by the entity to match federal or other funds. The EOC will make funding recommendations to the Governor and General Assembly as part of the agency's annual budget request.

1A.35. (SDE-EIA: ETV Teacher Training/Support) Of the funds appropriated in Part IA, Section 1, VIII.E. South Carolina Educational Television must provide training and technical support on the educational resources available to teachers and school districts.

1A.36. (SDE-EIA: Teacher Salaries/SE Average) The projected Southeastern average teacher salary shall be the average of the average teachers' salaries of the southeastern states as projected by the Revenue and Fiscal Affairs Office. For the current school year the Southeastern average teacher salary is projected to be \$52,152. The General Assembly remains desirous of raising the average teacher salary in South Carolina through incremental increases over the next few years so as to make such equivalent to the national average teacher salary.

The statewide minimum teacher salary schedule used in Fiscal Year 2017-18 will continue to be used in Fiscal Year 2018-19 and the starting salary shall be increased to \$32,000 with the remaining salary schedule increased by one percent.

Additionally, for the current fiscal year, a local school district board of trustees must increase the salary compensation for all eligible certified teachers employed by the district by no less than one year of experience credit using the district salary schedule utilized the prior fiscal year as the basis for providing the step. Application of this provision must be applied uniformly for all eligible certified teachers. For Fiscal Year 2018-19, the requirement that school districts maintain local salary supplements per teacher no less than their prior fiscal year level is suspended if additional State funds fill the gap.

Funds appropriated in Part IA, Section 1, VIII.C.2. for Teacher Salaries must be used to increase salaries of those teachers eligible pursuant to Section 59-20-50(4)(b), to include classroom teachers, librarians, guidance counselors, psychologists, social workers, occupational and physical therapists, school nurses, orientation/mobility instructors, and audiologists in the school districts of the state.

SECTION 1A - H630 - DEPARTMENT OF EDUCATION-EIA

For purposes of this provision teachers shall be defined by the Department of Education using the Professional Certified Staff (PCS) System.

1A.37. (SDE-EIA: PowerSchool Dropout Recovery Data) With the funds appropriated to the Department of Education for PowerSchool and data collection, the department will begin in the current fiscal year to collect data from schools and school districts on the number of students who had previously dropped out of school and who reenrolled in a public school or adult education to pursue a high school diploma. The Education Oversight Committee working with the Department of Education will determine how to calculate a dropout recovery rate that will be reflected on the annual school and district report cards.

1A.38. (SDE-EIA: Assisting, Developing and Evaluating Professional Teaching -ADEPT) With funds appropriated in the current fiscal year, the Department of Education, school districts, the Department of Juvenile Justice and special schools of the state may continue implementation of the ADEPT program. Governing boards of public institutions of higher education may provide by policy or regulation for a tuition waiver for the tuition for one three-hour course at that institution for those public school teachers who serve as supervisors for full-time students completing education degree requirements. Unexpended funds appropriated for this purpose may be carried forward from the prior fiscal year into the current fiscal year and expended for the same purposes.

1A.39. (SDE-EIA: Educational Partnerships) The funds provided to the Center for Educational Partnerships at the College of Education at the University of South Carolina will be used to create a consortium of educational initiatives and services to schools and communities. These initiatives will include, but are not limited to, professional development in writing, geography and other content areas; training; research; advocacy; and practical consultancy. If prior approval by written order of the court is not obtained, no additional fees shall be paid under any circumstances.

Upon a finding in ex parte proceedings that investigative, expert, or other services are reasonable and necessary for the representation of the defendant, the court shall authorize the defendant's attorney to obtain such services on behalf of the defendant and shall authorize the payment, from funds available to the Commission on Indigent Defense, of fees and expenses not to exceed five hundred dollars as the court considers appropriate. (INDEF: Public Defender Fee) Every person placed on probation on or after July 1, 2003, who was represented by a public defender or appointed counsel, shall be assessed a fee of five hundred dollars. The revenue generated from this fee must be collected by the clerk of court and sent on a monthly basis to the Commission on Indigent Defense. However, if a defendant fails to pay this fee, this failure alone is not sufficient basis for incarceration for a probation violation. This assessment shall be collected and paid over before any other fees.

61.7. (INDEF: Defense of Indigents Civil Action Application Fee) (A) A person requesting appointment of counsel in any termination of parental rights (TPR), abuse and neglect, or any other civil court action in this state shall execute an affidavit that the person is financially unable to employ counsel and that affidavit shall set forth all of the person's assets. The clerk of court or other appropriate official shall collect the application fee imposed by this section and remit the proceeds to the Commission on Indigent Defense on a monthly basis. The monies must be deposited in an interest-bearing account separate from the general fund and used only to provide for indigent defense services. The monies shall be administered by the Commission on Indigent Defense. The clerk of court or other appropriate official shall maintain a record of all persons applying for representation and the disposition of the application and shall provide this information to the Commission on Indigent Defense

(C) In matters in which a juvenile is brought before a court, the parents or legal guardian of such juvenile shall execute the above affidavit based upon their financial status and shall be responsible for paying any fee. In matters concerning juveniles, the parents or legal guardians of said juvenile, shall be advised in writing of this requirement at the earliest stage of the proceedings against said juvenile.

(D) Nothing contained above shall restrict or hinder a court from appointing counsel in any emergency proceedings or where existing statutes do not provide sufficient time for an individual to complete the application process.

(E) The appointment of counsel, as herein before provided, creates a claim against the assets and estate of the person who is provided counsel or the parents or legal guardians of a juvenile in an amount equal to the costs of representation as determined by a voucher submitted by the appointed counsel and approved by the court, less that amount that the person pays to the appointed counsel.

(F) Such claim shall be filed in the office of the clerk of court in the county where the person is assigned counsel, but the filing of a claim shall not constitute a lien against real or personal property of the person unless, in the discretion of the court, part or all of such claim is reduced to judgment by appropriate order of the court, after serving the person with at least thirty days' notice that judgment will be entered. The Public Employee Benefit Authority must determine the amount of the total premium paid for health coverage necessary to cover the risks associated with reimbursing participants in the plan for obtaining an abortion in the circumstances covered by this provision. The determination must be based on actuarial data and empirical study in the same manner and by the same method that other risks are adjusted for in similar circumstances. 117.13. This policy is to apply to all levels and phases of personnel within state government, including but not limited to recruiting, hiring, compensation, benefits, promotions, transfers, layoffs, recalls from layoffs, and educational, social, or recreational programs. It is the policy of the State to take affirmative action to remove the disparate effects of past discrimination, if any, because of race, color, sex, national origin, age, religion or physical disability.

Each agency may transfer FTEs between programs as needed to accomplish the agency mission.

The Department of Administration is authorized to approve temporary salary adjustments for classified and unclassified employees who perform temporary duties which are limited by time and/or funds. When approved, a temporary salary adjustment shall not be added to an employee's base salary and shall end when the duties are completed and/or the funds expire. For travel outside of South Carolina the maximum daily reimbursement for meals shall not exceed \$32. related to the agency's mission. All such leave is at the agency head's discretion.

These agencies may enter into an agreement with individuals employed in critical needs positions to repay them for their outstanding student loans associated with completion of a relevant degree. Agencies may pay these employees up to twenty percent or \$7,500, whichever is less, of their outstanding student loan each year over a five-year period. Payments will be made directly to the employee at the end of each year of employment. The agency will be responsible for verifying the principal balance of the employee's student loan prior to issuing payments.

Agencies are also authorized to allow tuition reimbursement from a maximum of ten credit hours per semester; allow probationary employees to participate in tuition programs; and provide tuition prepayment instead of tuition reimbursement for employees willing to pursue a degree in a healthcare program. An agency may pay up to fifty percent of an employee's tuition through tuition prepayment. The remaining tuition could be reimbursed to the employee after successful completion of the class.

The Department of Administration shall approve of the designation of critical needs positions applicable to this provision using guidelines that include, but are not limited to: 1) the difficulty recruiting for the positions as reflected by data such as the vacancy rate maintained, the average time to fill, the lack of sufficient qualified applicants, and other objective factors; 2) the difficulty retaining employees in the positions as shown by turnover data; 3) justification by the state agency that the position is critical to the core mission of the agency and directly impacts the health, safety and welfare of the public; and 4) assurances from the state agency that there are sufficient existing funds available to pay for items under this provision.

Healthcare employees in approved critical needs positions working on a practicum or required clinical experience towards completion of a healthcare degree may be allowed to complete these requirements at their state agency or another state agency at the discretion of the agency head. This field placement at another state agency may be considered work time for participating employees.

State agencies must report to the Department of Administration by August 31st of each year any expenditure under this provision. The Department of Administration shall compile a report of the responses and submit them to the Chairman of the Senate Finance Committee and

SECTION 117 - X900 - GENERAL PROVISIONS

the Chairman of the House Ways and Means Committee by October 1st of each year.

117.66. (GP: Governor's Budget Certification) The annual Executive Budget proposed by the Governor must be certified by the Director of the Revenue and Fiscal Affairs Office or his designee in the same manner as the House Ways and Means and Senate Finance Committee versions of the budget bill are certified.

(GP: Sexually Violent Predator Program) After the Department of Mental Health obtains all necessary project approvals, the Department of Corrections may utilize inmate labor to perform any portion of the construction of an addition to the Edisto Unit at the Broad River Correctional Institution, which houses the Department of Mental Health's Sexually Violent Predator Treatment Program, such addition to be used for additional treatment space and staff offices. For purposes of this project, the Department of Corrections may exceed the \$350,000 limit on projects for which it may use inmate labor.

117.68. (GP: Voluntary Furlough) Agency heads may institute a voluntary employee furlough program of not more than ninety days per fiscal year. During this voluntary furlough, the state employees shall be entitled to participate in the same state benefits as otherwise available to them except for receiving their salaries. As to those benefits which require employer and employee contributions, the state agencies, institutions and departments will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the employee remains solely responsible for making those contributions. In the event an agency's reduction is due solely to the General Assembly transferring or deleting a program, this provision does not apply.

117.69. (GP: Governor's Security Detail) The State Law Enforcement Division, the Department of Public Safety, and the Department of Natural Resources shall provide a security detail to the Governor in a manner agreed to by the State Law Enforcement Division, the Department of Public Safety, the Department of Natural Resources, and the Office of Governor. Reimbursement to the State Law Enforcement Division, the Department of Public Safety, and the Department of Natural Resources to offset the cost of the security detail for the Governor shall be made in an amount agreed to by the State Law Enforcement Division, the Department of Public Safety, the Department of Natural Resources, and the Office of Governor from funds

The agency head will retain all responsibilities and authority during the furlough. All monies saved from this furlough may be retained by that agency and expended at the discretion of the agency head. During this furlough, the agency head shall be entitled to participate in the same state benefits as otherwise available to them except for receiving their salaries. As to those benefits which require employer and employee contributions, the state agency will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the agency head remains solely responsible for making those contributions.

Placement of an agency head on furlough under this provision does not constitute a grievance or appeal under the State Employee Grievance Procedure Act. In the event the reduction for the state agency or institution of higher learning is due solely to the General Assembly transferring or deleting a program, this provision does not apply. Agencies may allocate the agency head's reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within which the furlough occurs. The Department of Administration shall promulgate guidelines and policies, as necessary, to implement the provisions of this proviso. State agencies shall report information regarding furloughs to the Department of Administration.

(B) For Fiscal Year 2018-19, the Department of Agriculture shall not be required to submit printed reports mandated by Section 46-49-10 of the 1976 Code. The department shall provide these reports electronically and shall use any monetary savings for K5-12 agricultural education programs.

117.77. (GP: Cost Savings When Filling Vacancies Created by Retirements) During the current fiscal year, whenever classified FTEs become vacant because of employee retirements, it is the intent of the General Assembly that state agencies should realize personnel costs savings of at least twenty-five percent in the aggregate when managing these vacant positions. Prior to filling the vacant FTE, agencies must follow all laws and regulations concerning posting and competitive solicitation and consideration of applicants. No agency shall enter into any agreement with any employee that violates the terms of this proviso.

The Educational Television Commission shall retain and expend funds received pursuant to the lease for agency operations. The commission shall be authorized to carry forward unexpended funds from the prior fiscal year into the current fiscal year.
