**Explanation of Fiscal Impact**

**Introduced on January 10, 2017**

**State Expenditure**

This bill amends Section 40-43-86 by changing the quantity of a prescription a pharmacist may refill in an emergency from a seventy-two hour supply to a thirty day supply. The prescription may not be for a controlled substance, and the medication must be essential to the maintenance of life or the continuation of therapy. The pharmacist must also notify the prescriber of the emergency refill within thirty days after the emergency refill is provided. This change does not alter the responsibilities of the South Carolina Board of Pharmacy for licensure of pharmacists or add any new responsibilities as a result of the change. Therefore, the bill is not expected to impact expenditures for the General Fund, Other Funds, or Federal Funds.
