The Senate assembled at 11:00 A.M., the hour to which it stood adjourned, and was called to order by the PRESIDENT.

A quorum being present, the proceedings were opened with a devotion by the Chaplain as follows:

Philippians 2:3-4

“Instead of being motivated by selfish ambition or vanity, each of you should, in humility, be moved to treat one another as more important than yourself.”

Let us pray. O Spirit of the living God, guide and direct the minds of all those here who share the responsibility of decision making for the governance of our State. This is an awesome responsibility and a daunting task.

Gracious God, You have chosen those who serve here for a worthy purpose. May they be willing to fulfill this purpose with integrity and unselfish service which is fair minded and statesmanlike.

Help all who serve here to put aside personal ambition so that they might consider more carefully what is best for all the people of this State. Help them to put away resentment and petty grudges that cloud their judgement and alter Your will for this Body.

May we all see others who are different as You see them -- important, loved and worthy of consideration. We offer this prayer in Your holy name, Amen.

The PRESIDENT called for Petitions, Memorials, Presentments of Grand Juries and such like papers.

“Section 47-1-145. (A) Any person, organization, or other entity that is awarded custody of an animal under the provisions of Section 47-1-150, due to the arrest of a defendant for a violation of any provision of Chapter 1, Title 47 or Chapter 27, Title 16, and that provides services to the animal without compensation may file a petition with the court requesting that the defendant, if found guilty, be ordered to deposit funds

(C)(1) If the court makes a final determination of the charges or claims against the defendant in his favor, then the defendant may recover custody of his animal.

(2) If the defendant is found guilty, the custodian of the animal may then determine if the animal is suitable for adoption and if adoption can be arranged for the animal. (D) Within thirty days of an animal's impoundment, the animal's custodian must provide a good faith estimate, pursuant to subsection (A), of the daily custodial cost of the impounded animal. Upon receipt of the good faith estimate, the court shall then issue a notice to the defendant about his impounded animal that includes:

(1) an estimate of the daily custodial costs required to care for the animal;

(2) a statement that the defendant, if found guilty, shall be required to pay for the animal's care during impoundment, beginning with the date of notification; and

(3) a statement that the defendant, at any time prior to final adjudication, has the right to forfeit ownership of the animal and avoid all future custodial costs, related to the animal's care, but not costs already accrued.

(E) The remedy provided for in this section is in addition to any other remedy provided by law."

Amend the bill, as and if amended, by deleting all after the enacting words and inserting:

/ SECTION 1. Section 59-39-100 of the 1976 Code, as last amended by Act 49 of 2005, is further amended to read:

“Section 59-39-100. (A) Diplomas issued to graduates of accredited high schools within this State must be uniform in every respect and particularly as to color, size, lettering, and marking. ~~The number of units required for a state high school diploma is twenty units as prescribed by the State Board of Education. Beginning in the 1986-87 academic year, a minimum of three units must be earned in mathematics and a minimum of two units must be earned in science~~ In accordance with Section 59-59-10, et seq., districts and schools shall provide students with personalized pathways for earning the uniform diploma, and students may earn endorsements based upon their course of study, which may be represented by seals added to the student’s uniform diploma. The State Board of Education shall promulgate regulations establishing these pathways and endorsements.

~~(B) One unit in computer science, if approved by the State Department of Education for this purpose, may be counted toward the mathematics requirement. Beginning with students entering the ninth grade in School Year 1997-1998, the number of units required for a high school diploma was increased to twenty-four units. To support the Profile of the Graduate, for students entering the ninth grade beginning with the 2018-2019 School Year, the twenty-four units required are as~~

prescribed in this section and in regulation by the State Board of Education.

(1) Students will continue to be required to earn the units of credit as prescribed in regulation, to include one unit in computer science, which shall include courses that include computer design, coding, or programming, and when applicable offer national industry certifications or credentials.

(2) Coursework must be aligned with a student's personalized diploma pathway. The State Board of Education shall promulgate regulations that outline the process and procedures for approval of courses to personalize pathways based on students' postsecondary plans and include an annually updated course activity coding manual listing approved courses. The individualized graduation planning process must plan each student's personalized pathway based on his postsecondary plans.

(C) Students who earn one unit in science and six or more units in a specific occupational service area will meet the science requirements for a state high school diploma. Career and technology programs operating on a 3-2-1 structure may count pre-career and technology education as one of the six required units.

(D) Beginning with the ninth grade class of school year 1997-98, the number of units required for a high school diploma is twenty-four units as prescribed by the State Board of Education by regulation, with one additional unit required in mathematics, science, and computer science to include keyboarding. For students in a college preparatory track, as defined by the state board, one additional unit must be earned in a foreign language; and for students in a track designed to enter the work force, as defined by the state board, one additional career and technology unit must be earned. Beginning with the ninth grade class of school year 1997-98, if a student counts one unit of computer science toward his mathematics requirement as permitted above, one additional unit of computer science must be earned. The State Board of Education, through the Department of Education and in collaboration with the Vocational Rehabilitation Department, the Department of Employment and Workforce, businesses, and stakeholders shall develop criteria for a uniform state-recognized employability credential that is aligned to the program of study for students with a disability whose Individualized Education Program (IEP) team determines, and agrees in writing, that a diploma pathway would not provide a free appropriate public education. The State Board of Education, in conjunction with the department, shall

develop a rubric and guidelines to identify and assess the employability skills of the students, based on appropriate standards established. The credentials must be uniform in size, shape, and design.

(D) The department shall monitor the number of diplomas and employability credentials earned by students and shall report to the State Board of Education and the General Assembly biannually by February 15, beginning in 2020.

(E) Nothing in this section prohibits local school boards of trustees from awarding recognition to students who complete additional units and credits beyond those required by this section.”
