On behalf of the State, the Circuit Solicitor's office prosecutes trial-level criminal cases and handles juvenile matters. The Solicitor attends the courts of General Sessions for their respective circuits. Preparation of the dockets for General Sessions Court is exclusively vested in the circuit solicitor and the solicitors determine the order in which the cases on the docket are called for trial. Their legal authorization is established in the Constitution of South Carolina, Article V, Section 20, and the Code of Laws of South Carolina, Title 1, Section 1-7-310 (1977), establishes the position of Circuit Solicitor.

Category 5: WORKFORCE FOCUS

The Commission encourages and develops legal education programs and training programs for solicitors and their affiliate services, organizes and provides seminars to help increase the effectiveness and efficiency of the prosecution of criminal cases in this State, and acts as a clearinghouse and distribution source for publications involving the solicitors and their affiliate services and provides legal updates on matters of law affecting the prosecution of cases in this State.

The Commission surveys the various Solicitors' offices and affiliate services to ascertain the need for future various training components as well as the skill level. Each Agency Head is responsible for the submission of an annual employee performance evaluation. These evaluations are utilized to determine the criteria for future training programs throughout the various affiliate services.

Category 6: PROCESS MANAGEMENT

The Commission provides blank indictments for the Judicial Circuit Solicitors. Currently, the Commission is in the final phases of providing an electronic process for developing General Sessions Court indictments and Family Court petitions in a prosecutorial-based case management system. The prosecutorial-based case management system will also allow the sharing of criminal and juvenile justice information among the various Solicitors' offices. In addition, the Commission is constructing a website to improve the communication of information relating to the various Solicitors' offices and their affiliate services.

Category 7: RESULTS

The South Carolina Commission on Prosecution Coordination's primary purpose is the coordination of activities involving the prosecution of criminal cases in this State. The South Carolina Court Administration is the State's repository of criminal records for both General Sessions Court and Family Court. Court Administration's year-end reports best describe the activities of the Office of Solicitor as it relates to adult and juvenile prosecutions. In the area of adult criminal prosecution, please consider the following: In FY 2007-2008, the Solicitors of this State disposed 120,094 of in General Sessions Court. During FY 2006-07, they disposed of 124,171. In the area of juvenile criminal prosecution, please consider the following: In FY 2007-2008, the Solicitors of this State disposed of 14,617 Family Court petitions. During FY 2006-07, they disposed of 16,405.

South Carolina Court Administration's goal of the disposition of criminal cases within 180 days from the date of arrest is a significant factor in all prosecutorial decisions as well as Family Court petitions are being disposed of within 365 days or less. The number of General Sessions Court and Family Court cases handled by the sixteen (16) Judicial Circuit Solicitors has dropped during FY 2007/08 due reduced funding and the passage of certain legislation. Without proper funding of the Offices of Solicitor and other criminal and juvenile justice agencies, the backlog will continue to increase and cases will become more stale as they await their dispositional dates.
