# Fiscal Year 2018-19 Accountability Report

#### **SUBMISSION FORM**

Francis Marion University is a four-year public institution established by the state of South Carolina. It is located in the northeastern part of the state near the city of Florence. Enrollment is approximately 4,000.

Its purpose is threefold: to provide students with an excellent education, stimulate inquiry and research, and serve the Pee Dee region and the state of South Carolina.

Francis Marion University adheres to the primary purpose of its establishment as a college in 1970: to make available excellent educational programs for the people of the region and the state. The University offers bachelor's degrees in a wide range of liberal arts disciplines, as well as in the health sciences, education, engineering, and business. The University also offers professional degrees at the baccalaureate, master's, and specialist levels, and a professional doctorate. While maintaining high standards, FMU serves students with a broad range of preparation and ability. The University seeks a wide variety of students, primarily from the Pee Dee region, but also from the entire state, other states, and foreign countries. We believe that a student body diverse in age, racial and ethnic background, and country of origin enriches the education of all students.

#### **AGENCY MISSION**

To achieve its educational goals, the University has outstanding faculty members distinguished by high achievement and diverse academic backgrounds. We provide traditional and, when appropriate, non-traditional instruction, access to an excellent library as well as electronic resources, and staff members committed to student learning and success. A low student-faculty ratio and faculty concern for the individual student help us to achieve our goals. The University recognizes the importance of the out-of-the-classroom experience and offers opportunities for students to engage in activities that promote personal growth. In addition, the University provides students with special learning opportunities, such as an honors program, internships, study abroad destinations, and cooperative degree programs.

Since our highest priority is excellence in teaching and learning, we believe that intellectual inquiry and analysis by students and faculty members are essential. We encourage all scholarly pursuits, including student research for courses and faculty research for presentation and publication and for use in the classroom. The University provides faculty members with support for professional development through resources for innovative teaching, scholarship, and service. Our goal of an academic experience built on inquiry and research as well as the transmission of information allows students to develop their ability to think and communicate, to gain knowledge and skills, to pursue a career or further study, to appreciate the creativeness of the

AGENCY NAME:	Francis Marion University		
AGENCY CODE:	H18	SECTION:	17

human mind, to be aware of the human and natural environment of the world, and to have the capacity to pursue a life of learning and understanding.

The University also serves the needs of Florence and the surrounding area in ways beyond formal education. Numerous artistic and cultural activities, athletic programs, health initiatives, and outreach efforts benefit not only our students, but also the community. To foster the economic development of the region, we offer consulting services to business, industry, and government. Academic and practical assistance to area schools is basic to our endeavors. Faculty and staff members participate in and contribute to a wide range of community activities.

Francis Marion emphasizes liberal arts education while offering new academic programs with innovative technology. It is small enough to provide attention to each student, but large enough to offer a variety of academic and cultural resources. It thus combines the advantages of a liberal arts college with the resources and programs of a public university.

Revision Approved by the FMU Faculty, October 13, 2016
Revision Approved by the FMU Board of Trustees, November 17, 2016
Revision Approved by SC CHE, February 2, 2017
Revision Approved by SC Legislature, April 19, 2017
Revision Approved by SC Governor, April 24, 2017

Francis Marion University aspires to be an academic leader recognized for innovation and quality in teaching and learning with a commitment to outreach and service to the Pee Dee Region of South Carolina and beyond.

Ongoing objectives:

- 1. **Transforming Education for a Rapidly Changing World**: We must create a transformative faculty whose scholarship crosses disciplinary boundaries and whose energy sparks intellectual creativity. As such, we need to:
  - a. Maintain and expand quality academic programs.
  - b. Continue to support and build an excellent faculty
  - c. Maintain academic accreditations as indicators of program quality
- Success Starts Here: We must develop new initiatives and measures to increase our student success rates and further support our campus community of scholars and learners. As such, we must:
  - a. Improve student academic success rates
  - b. Increase student enrollment and retention
  - c. Develop the technology on campus to address future needs of students, faculty, staff and administrators
  - d. Maintain investments in informational resources and educational support services
  - e. Increase external funding

## **AGENCY VISION**

AGENCY NAME:	Francis Marion University		
AGENCY CODE:	H18	SECTION:	17

- f. Develop the physical facilities, natural resources and infrastructure of the campus
- g. Enhance the University's image through an aggressive, focused marketing campaign
- 3. **Creating Scholarship with Consequence**: We must be responsive to our local community which means launching new programs to support local industry and creating organizations and structures that enhance culture and public life in the Pee Dee Region and across the State. We must increase our commitment to translational research, creative work, and practice in order to address great challenges, notably in health care, life sciences, and engineering, but also in the arts, humanities, professions, and social sciences. As such, we must:
  - a. Raise the quality, variety, and visibility of athletic, artistic, cultural, and other community-supported programs
  - b. Emphasize career development and job placement services for all students of the University
  - c. Increase internship opportunities for our students with business, governmental, and public organizations
  - d. Develop new programs that support the initiatives and needs of local employers
- 4. **Connecting the Individual to the World**: We must promote global and local engagement to foster mutual understanding and encourage citizenship in a global context. As the world grows more interconnected, so does the need for self-reflection and critical thought, appreciation of diversity, civility, reconciliation, and empathy across all spheres of life. As such we need to:
  - a. Increase opportunities for all students and faculty to become aware of multicultural and global issues and to have international educational opportunities
  - b. Support and fund student and faculty travel
  - c. Develop international partnerships

This strategic vision is a call to action, a call to think boldly and to enact the transformations envisioned.

Approved by the FMU Faculty, October 18, 2012 Ratified by FMU Board of Trustees, November 9, 2012

# **AGENCY'S DISCUSSION AND ANALYSIS**

Founded as a state college in 1970, Francis Marion University (FMU) adheres to the primary purpose of its establishment: to make available excellent educational programs for the people of the region and the state. The University offers bachelor's degrees in a wide range of liberal arts disciplines, as well as in the health sciences, education, engineering, and business. FMU provides traditional classroom and laboratory instruction, innovative on-line and hybrid courses, as well as access to an excellent library and electronic learning resources. The University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

FMU places high value on academic and intellectual development of students, scholarly and professional development of faculty, and educational and cultural enrichment of citizens of the Pee Dee. The University also delivers educational opportunities to a diverse population and prepares South Carolina students to contribute to the growth and quality of life in South Carolina. FMU embraces the development of professional and graduate programs in response to community needs while recognizing the importance of increased interdependence in the world and awareness of other cultures. The hope is that an examination of a common body of knowledge will ensure that students have the necessary skills and information to function independently, effectively and ethically in a rapidly changing world.

The FMU Industrial Engineering program has been gifted \$50,000 by Duke Energy for the implementation of a new Engineering Makerspace. In January 2020 we welcomed our first cohort of Mechanical Engineering Students who are on pace to graduate in May 2022.

The FMU Physician Assistant (PA) Program is expected to receive continued accreditation from the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) following submission of our Final Provisional-Monitoring Application. The application was submitted in February 2020, and we hosted a subsequent virtual site visit in June 2020. We have received feedback from that report and site visit and expect to have the accreditation decision following the Board of Commissioners' meeting on September 24-26, 2020.

The Council for Academic Accreditation (CAA) in Audiology and Speech-Language Pathology, the accreditation arm of the American Speech-Language-Hearing Association (ASHA), granted accreditation candidate status for five years to FMU's Master of Speech-Language Pathology program (MSLP). Our second of five Candidacy Annual Progress Reports was submitted in September 2020.

The FMU Nursing Programs BSN, MSN, and DNP, have received accreditation for five years from the Commission on Collegiate Nursing Education. In addition, FMU has been recognized as one of 17 schools named as a Center of Excellence by the National League for Nursing, the nation's premier organization for nurse faculty and leaders in nursing education. May 2020 saw our first cohort of students graduate from our Master of Speech-Language Pathology program. The FMU Nursing Program in now in its final year of a HRSA *Nursing Workforce Diversity* grant totaling \$1,817,437 for 4 years.

FMU's School of Education is currently awaiting confirmation of their re-accreditation from the Council for the Accreditation of Educator Preparation (CAEP). Their application was submitted in spring 2020 and the follow-up response to the Formative Feedback Report has been returned for consideration. The School was the recipient of a Project CREATE Grant totaling \$479,871. The bulk of that money is going to graduate student tuition. In addition, we are active participants in the Teaching Fellows Program and have the largest Teacher Cadet program in the state.

AGENCY NAME:	Francis Marion University		
AGENCY CODE:	H18	SECTION:	17

The Association to Advance Collegiate Schools of Business (AACSB) extend accreditation for the degree programs in business offered by Francis Marion University in May 2020. Francis Marion University has achieved accreditation for five additional years. The next on-site continuous improvement review occurs in the fifth year, 2024-2025. AACSB awarded the FMU School of Business commendations in educating first generation and local students, the visibility and accessibility of the president of the university and the dean of the school, and faculty support through professional development and collegiality.

As a part of our SACSCOC reaffirmation of accreditation process, we developed a new Quality Enhancement Program (QEP) focused on professional preparation for the benefit of our students. Fall 2019 saw the inauguration of our new QEP program, PEAK (Professional Experience And Knowledge). By supporting our students' professional endeavors, PEAK fosters skills and experiences that are attractive to employers, with the end goal of assisting our students in obtaining career positions. It provides a necessary complement to our REAL (Ready to Experience Applied Learning) program; one that will help students make the transition from the university to the workplace.

Francis Marion University has continued working through the Pee Dee Health Education Partnership—a consortium composed of the University of South Carolina, Francis Marion University, Carolinas Hospital System, and McLeod Health—to deliver healthcare education programs to the region and the state. We collaborate as appropriate with the USC School of Medicine in bring third- and fourth-year medical students to the Florence regional clinical campus of USC-SOM. Additionally, in cooperation with The City of Florence, FMU's Kelley Center for Enterprise and Innovation will further grow and develop in Downtown Florence in the Business Incubator in the North Dargan Innovation Center (NDIC). Building upon the successful launch last September, FMU's School of Business and the Kelley Center for Enterprise and Innovation will continue to partner in a Certificate in Executive Management program.

The Center of Excellence to Prepare Teachers of Children of Poverty hosted its 13<sup>th</sup> Annual Summer Institute in summer 2020. This year the conference was offered virtually as a series of webinars. This new format provided professional study opportunities for more than 5700 teachers, school leaders, and education stakeholders from across the US and 6 countries. The Center of Excellence Research Consortium as well as the Higher Education Collaboration shifted to virtual and had registrants from across the US and 3 countries with representation from 10 sister institutions of higher education.

The Center of Excellence for College and Career Readiness provided professional development to over 100 South Carolina teachers this year, both in person and through on-demand webinars and virtual book clubs. Additionally, they worked with more than 100 students, meeting with alumni from their Activate Academy and helping local students compose college admission essays.

In December 2017 FMU and Coastal Carolina University entered into an agreement with the Belle W. Baruch Foundation to create the Belle W. Baruch Institute for South Carolina Studies at Hobcaw Barony, a 16,000-acre research reserve located on the South Carolina coast near Georgetown, SC. At present there are multiple active research projects involving FMU faculty and students in progress at Hobcaw Barony.

In summer 2019, FMU entered into a unique partnership with Coastal Carolina University, Florence-Darlington Technical College, and Horry-Georgetown Technical College to provide assistance and mutual aid during the COVID-19 pandemic. This compact provides the four institutions with the assurance of mutual aid in planning, facilities access and support, and staffing, should the need arise.

AGENCY NAME:	Francis Marion University		
AGENCY CODE:	H18	SECTION:	17

Through the sponsorship and continued partnership with Duke Energy, FMU offers the Non-Profit Leadership Institute (NPLI). This Institute brings together nonprofit professionals from across the Pee Dee region to develop and enhance their skills over the course of several months. The Duke Energy Foundation provides for scholarships to attend NPLI and to create a workshop on grant writing.

In 2019-20, Francis Marion University was once again recognized by *The Chronicle of Higher Education* as a "Great College to Work for" Honor Roll Recipient. This marks the eighth year in a row that FMU received this recognition. The University was also recognized as one of the South's Best Regional Universities, Top Performer for Social Mobility, and Top Public University in *U.S. News and World Report's* "America's Best Colleges" issue. FMU was ranked as one of the "50 Most Affordable Colleges and Universities in America" by study.com, and we were ranked among *Washington Monthly's* top master's universities and that same publication's "Best Bang for the Buck" ratings. Fall 2019 saw the opening of our newest community engagement effort, the Continuum. Located in Lake City, SC, the Continuum is a state-of-the-art educational facility developed in partnership with the Darla Moore Foundation (DMF), Florence-Darlington Technical College (FDTC) and FMU. This innovative facility houses a number of classrooms and labs for dual enrollment and certificate programs for high school students from the Pee Dee region. The Continuum also houses a business incubator run by the University's Kelley Center for Economic development to serve the Lake City area.

FMU's Kelley Center for Economic Development provides business incubator services, post-launch assistance, technical support, and enterprise development aid to new and expanding businesses throughout the Pee Dee. Summer 2019 saw the completion of construction of the Kelley Center's new home, University Place, in downtown Florence. The Center now has locations in both Florence and Lake City to serve a greater population of the Pee Dee. The new building also houses the North Eastern Strategic Alliance (NESA) and an expansive gallery space contributing to downtown Florence's designation as a Cultural District.

As a part of our continued commitment to maintaining and improving our campus facilities in order to foster a productive learning environment, we implemented the second stage in the renovation of our Forest Villa Apartments. Looking ahead, we will be initiating a number of building projects in FY2020-21. We will soon have completed renovating the former Federal Post Office in downtown Florence into a Health Sciences building. This building will be a support facility for our Nurse Practitioner, Physician Assistant, Clinical Psychology, and Speech-Language Pathology programs. We are also nearing completion on our new Honors Center to house the University Honors program, our international exchange program, and the McNair Institute for history and government here on the FMU main campus. We have been the recipient of land north of campus to begin the development and construction of a Freshwater Ecology Center. These initiatives will be supported by both state appropriations and private donations to improve our facilities and infrastructure.

# **Subsection One: Risk Assessment and Mitigation Strategies**

In this subsection we are required to identify the potentially most negative impact on the public as a result of Francis Marion University not accomplishing our goals and objectives. Simply put, if we do not meet our self-imposed goals or address those Statewide Enterprise Strategic Objectives, we will fail in our very mission to exist; which is to provide students with an excellent education, stimulate inquiry and research, and serve the Pee Dee region and the state of South Carolina. From new program development, through accreditation compliance and completion, undertaking faculty and staff development, and continuing with campus infrastructure upgrades and maintenance, while safeguarding revenue for operations, we must embrace a levelheaded, multifaceted approach to have success and serve the citizens of the Pee Dee region and our state. Significant problems could arise if we

AGENCY NAME:	Francis Marion University		
AGENCY CODE:	H18	SECTION:	17

as an institution fail to keep current with educational accreditations and requirements as well as not remain current with new developments in all the various fields. Moreover, if we fail to be good stewards and trustees of public funds, disastrous consequences could befall our agency. While we are very prudent and efficient in regards to our agency's operations, progressive and forward thinking on the part of the agency's leadership will help to mitigate the effects of an economic downturn or significant loss of enrollment. Our ongoing initiatives of growing new programs, most recently in the area of the health sciences, have aided in keeping our enrollments at very sustainable levels. Other alleviation strategies to deal with possible financial concerns for the agency could include the return of state appropriations to levels prior to the 2008 recession. A continued appeal planned for the fiscal year will be an in-state student supplement, which requests for legislative appropriations to help shoulder our cost of educating a high percentage (95%) of in-state students. An additional request in legislative appropriations is designed to grow and develop our new initiatives and programs in engineering and the health sciences to recruit and hire additional STEM faculty in the areas of Science, Technology, Engineering, and Math to help us expand these programs to better serve our students, our region, and the State.

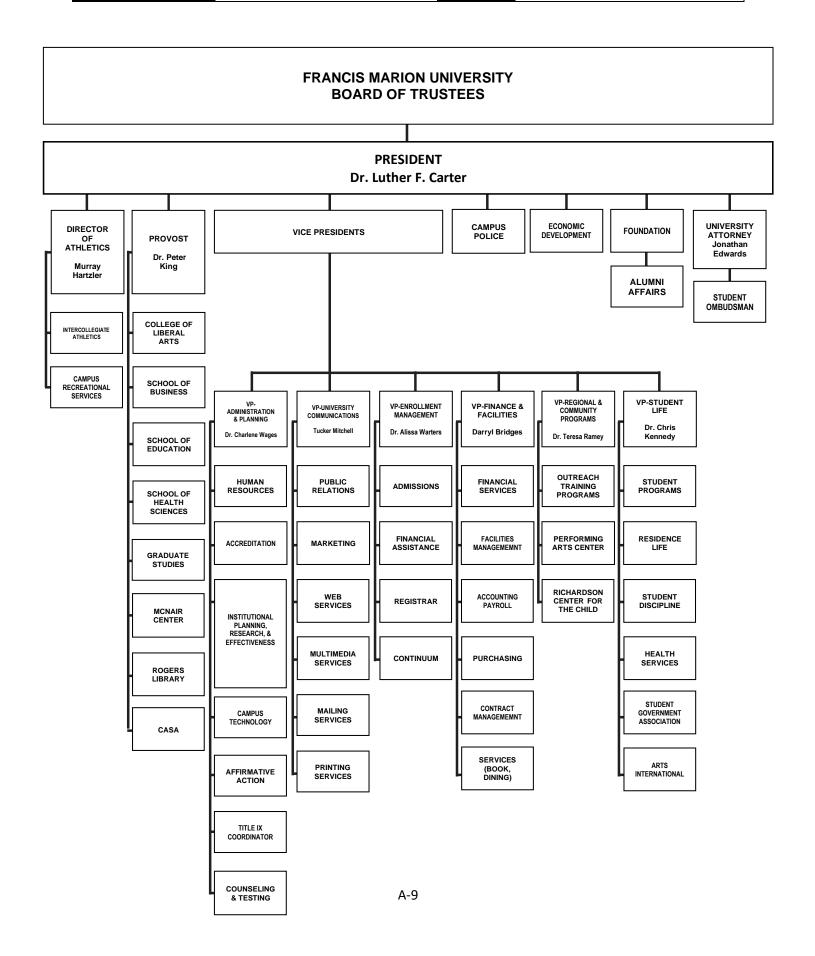

### <u>Subsection Two: Restructuring Recommendations and Implementations</u>

One area of internal restructuring that came out of recommendations from our SACSCOC reaffirmation process was the creation of a University Planning Council. This new entity will be comprised of President, Provost, vice president for administration, vice president for business affairs, education foundation director, faculty chair, and other vice presidents, when appropriate. This Body was created by the university's President in April 2018 to perform more systematically the planning, budgeting, and assessment responsibilities previously assumed by the senior staff. Serving the University Planning Council will be staff which includes: the director of institutional planning, the director of institutional effectiveness, and the director of institutional research. Some stated duties and areas of concern for the University Planning Council would include the following:

- Review Faculty Budget Review and Planning Committee recommendations
- Review finances of university (accounts, unallocated contingencies, reserves, development, and education foundation balances)
- Assess implications to the university plans, goals, and programs
- Begin development of university Accountability Report
- Receive reports for programmatic accreditation reviews for existing year
- Review legislative FY19-20 appropriations
- Review FY20-21 planning assumptions [e.g., expected growth; availability of FTEs; community activities and support (e.g., outreach to rural counties)]

Beyond the creation and implementation of the University Planning Council, there are no additional restructuring recommendations at this time.
