Alcohol & Other Drug Abuse Services, Department of

**very unprofessional agency especially when it comes to their employees ... the director is very unprofessional and the human resources manager is never in the office . The polices that are in place seem to not effect Human Resources. They do not treat staff fairly especially those who work hard are not rewarded for their accomplishments. This agency needs to be thoroughly looked at for all the complaints that have been done against the director and all the people that she and human resources have fired. I think the committee needs to talk with the employees of the agency because in speaking with he director you will not get the while truth only lies. She is very unprofessional when it comes to her staff. She tells them to use their common sense when she came from nothing and it was her luck that she is in the position that she is in now. She does not know how to run the agency, if it wasn't for this opioid epidemic she would have no idea on what to do with the agency. I really think this agency needs to be looked at more thoroughly.**
