Q1 Please share any comments, suggestions or concerns you may have about these agencies. Please note your responses will be posted online and may be included in a Committee report.

Minority Affairs Commission

The commission is a great resource to the marginalized communities and a much needed resource. The commission has been able to provide opportunities of service to communities that are otherwise deprived of the quality of services and providers. It lends experience to high school and college youth who may not have the opportunities at gaining experience and insight from governmental agencies. Mr. Smith has done his best to provide for the communities that need this agency the most. I know that the commission is currently working on ways to improve itself to even better serve the community. With support from the community and our local and state government the commission has the potential to reach far beyond the expectations that have been set and will be a monumental instrument in bettering our state.
