9. 3-4 agency successes.

1. Business Entities Online

Information technology online applications remain a top priority for the Secretary of State's Office. Providing online system applications to our customers is a main goal of the office. In January 2017, the Secretary of State launched the Business Entities Online application for public access to file and search corporate documents. The document request functionality was completed in phase one of the project in 2015. The second phase of the comprehensive business filing, search, and document retrieval web-based application provides fast turn-around times for customers, and also included the Business Entities In-house application. The Business Entities In-house application replaced a legacy system and allows agency personnel to enter filings received through the mail or submitted at the office and provide copies of filings electronically. Additionally, we have reviewed, edited, and reorganized the corporate forms available on the agency's website. This award-winning application was a result of the successful partnership with South Carolina Interactive (SCI).

The Secretary of State's Office continues to expand the functionality of the Business Entities Online application. This latest phase of the comprehensive business filing, search, and document retrieval web-based application provides a "Save" functionality which allows customers to save information and return to complete the filings at a later time or correct any information that caused the filing to be returned. This new capability increased the adoption rate of online filing. As of April 5, 2019, the adoption rate for filings is 74.7% and for certificates and document requests 97.2%.

2. UCC Online Filing

UCC Online was launched in May 2011. The launch of the Uniform Commercial Code (UCC) online filing system allowed businesses and citizens to file, search and retrieve UCC documents electronically. This web-based application, built through a partnership between the Secretary of State's Office and South Carolina Interactive (SCI), allows users to file, correct, amend, terminate, search and retrieve UCC financing statements. UCC Online provides convenient 24/7 access, immediate filing confirmation, quicker UCC Search processing time and immediate search results. As of April 8, 2019, the adoption rate was 62.8% for online fling and 99.8% for online UCC searches.

3. Charities Online Filing

In February 2009, the charities online filing system was launched providing charities and professional fundraisers the ability to file registrations, exemptions and annual financial reports online. The agency has continued to provide upgrades and enhanced functionality for the online application. For example, enhancements were made to the charities database that simplified the online filing process for customers by streamlining the options for uploading required documents and providing a PDF to customers that captured the information provided to our office during their online registration. The agency continues to provide updates and enhancements to improve functionality. Approximately 55% of our charities filings are submitted online.

In July 2017, we launched an online complaint form through which information is submitted electronically to our investigators, allowing customers to easily file complaints about solicitations from charities, professional fundraisers, and raffles that may warrant investigation.

4. Protecting Charitable Donors through Cancer Fund of America Multi-state Enforcement Action

Secretary of State Mark Hammond has made charities enforcement a cornerstone of his administration. In May 2015, the Secretary of State's Office joined all other states and the Federal Trade Commission in charging Cancer Fund of America and three other related organizations with bilking more than \$187 million from consumers as part of a nationwide scam. The resulting settlement permanently shut down all four organizations and issued lifetime bans against the individual perpetrators from engaging in charitable fundraising. This multi-state action represented one of the largest such cases in charity enforcement history.

Building on the success and momentum of the Cancer Fund Multi-state, Secretary Hammond has continued to work with other states to protect charitable donors and educate the public on wise charitable giving. In 2018, the Secretary of State's Office participated in Operation Donate with Honor, a nationwide crackdown on fraudulent veterans-related charities. Secretary Hammond believes that partnering with other states and agencies is key to permanently banning bad actors from the charitable sector.

5. Boards and Commissions Online Searchable Database

Pursuant to S.C. Code of Laws §1-5-40, the Secretary of State's Office has a duty to monitor positions on state boards and commissions. The Secretary of State's Office must keep membership information for state boards and commissions as a public record available for inspection by the members of the General Assembly and members of the public. To meet this requirement, the Secretary of State's Office launched its online searchable boards and commissions database in January 2014. This application allows online searches by name of board or commission as well as the appointed board member, and provides a current list of expired terms and vacancies on state boards and commissions.

The membership information on file with the Secretary of State's Office is based on information provided by state boards and commissions pursuant to S.C. Code of Laws §1-1-1310. Under this code section, state boards and commissions must send written notification to the Secretary of State's Office regarding any appointment, election, resignation or vacancy within the board or commission.

This searchable database is updated daily and benefits the general public, the Governor's Office, and members of the South Carolina General Assembly. The searchable database also provides transparency for the public to view the composition of state boards and commissions.

10. 3-4 agency challenges.

1. Technology

The Secretary of State's Office is integral in the transaction of business in South Carolina; therefore, offering the best possible technology to our customers remains a top priority for our agency. Additionally, providing user-friendly in-house applications to our staff is essential to maintaining excellent customer service as well as efficient and accurate filing of documents. Preserving permanent state records remains a critical function of the agency, while simultaneously providing online access to these records to the public.

The agency has many applications, including web-based and in-house applications, that must be supported and updated as required when technology changes. Data security is also top priority, and staff works diligently to ensure that data and records remain secure. Information technology staff works side-by-side with the Deputy Secretary of State and division directors in application development and project management. The Secretary of State's Office strives to meet the challenge of providing the most up-to-date technology to customers and staff in an ever-changing world, while conserving state resources.

2. Participation in Additional Multi-state Charity Actions

The Secretary of State's Office has successfully participated in multi-state charity enforcement actions; however, this participation has required a significant commitment of staff time as well as agency expenditures. Presently, the Secretary of State's Office is focusing on the enforcement of the South Carolina Solicitation of Charitable Funds Act and violations of the law as it relates to South Carolina organizations. Secretary Hammond believes that it would be beneficial to be able to join other additional multi-state cases, but this is challenging due to limited staff resources. Since the addition of a second investigator in 2017, the number of open violations and investigations has risen significantly. With additional resources, Secretary Hammond believes that the agency could maximize both in-state and multi-state charities enforcement.

3. Physical Security

Balancing the goal of providing the best possible customer service while providing security for staff and customers remains an ongoing challenge for the Secretary of State's Office. The Secretary of State's Office is located in the Edgar Brown Building and, unlike most buildings on the Capitol Complex, does not have security officers present at all times during business hours to screen visitors to the building. Due to the types of filings the Secretary of State's Office receives, the agency is a constant target of sovereign citizens. The Federal Bureau of Investigation called sovereign citizens "a growing domestic threat to law enforcement" and described one of their primary activities as "paper terrorism" (a reference of their tactic of filing fraudulent liens against persons and companies).

The Secretary of State's Office serves walk-in customers daily and must reject filings that are deficient. Provisions in the laws governing Uniform Commercial Code secured transactions and the authentication of documents permit the Secretary of State to reject documents that appear to be submitted for an improper or unlawful purpose. When staff rejects a sovereign citizen filing, it is common for the sovereign citizen to become argumentative and disruptive to other customers. Unfortunately, staff has to contact the Bureau of Protective Services on a regular basis to assist with the removal of sovereign citizens. In 2017, the Secretary of State's Office renovated its lobby to provide a glass barrier to provide some level of protection for our receptionist and staff when meeting with the public. The Secretary of State's Office has also installed security cameras to record activities in the lobby. Due to the constant, in-person engagement of sovereign citizens with our agency, however, the Secretary of State believes that customers and staff would best be protected by a continuous security presence that screens visitors as they enter the Edgar Brown Building.

1. Electronic and Remote Online Notarization

The Secretary of State's Office is responsible for the commissioning of notaries public. Notaries public serve an important role in the prevention of fraud. In order to better serve citizens and stay abreast of new technology, many states have adopted legislation allowing electronic and remote online notarization. This new technology provides both convenience and security, and benefits the business community as well as individuals. Electronic notarization would allow a signor and the notary to electronically sign a document and submit it electronically for filing, such as with the one of the South Carolina counties that currently provide e-recording at their Register of Deeds office. Remote online notarization would allow a South Carolina attorney to facilitate a real estate closing in South Carolina for a client who may be located out of town, out of state, or even out of the country. Some of the key factors and considerations of electronic and remote online notarization include the following:

- **Electronic notarization** would allow notaries to notarize documents using an electronic/digital signature for an electronic document.
- Both the notary and signor sign with an electronic signature.
- The signor <u>physically</u> appears in front of the notary.
- Documents are transmitted electronically.
- Remote online notarization would allow the notary and signor to be in two different locations.
- The signor appears in front of the notary using audio-visual technology.
- Electronic and remote online notarization are the equivalent of signing a sheet of paper, but provide easier transmittal of the document via email or another electronic means and provides for electronic filing.
- Electronic and remote online notarization provide security, efficiency and enhanced customer service during real estate closings and recording documents with county clerks and register of deeds offices.
 They offer more security than mailing documents to out-of-state customers to have notarized.
- South Carolina needs to provide these services for citizens, attorneys, bankers, and real estate professionals to stay competitive with other states.
- The National Association of Secretaries of States (NASS) supports both electronic and remote online notarization.

In August of 2018, Secretary Hammond assembled the Secretary of State's Office E-Notary Task Force. This group of interested parties worked together to draft legislation to bring this new technology to the citizens of South Carolina. The Secretary of State hopes South Carolina will join the 19 other states that currently provide electronic and remote online notarization. If electronic and remote online notarization legislation were to pass, the Secretary of State would have the have responsibility of promulgating the regulations to implement the standards and requirements for e-notarization.

2. Emergence of Crowdfunding Platforms

In recent years, we have seen the proliferation of online crowdfunding platforms for charitable giving. These crowdfunding platforms allow people to conduct fundraising campaigns online, with the crowdfunding platforms retaining a percentage of the donations. People use crowdfunding platforms to solicit contributions for any number of purposes, from business ventures to medical bills to disaster relief. Many of these campaigns solicit contributions for the private benefit of individuals and not for charitable purposes.

Legal staff is currently working with members of the General Assembly and stakeholders in the nonprofit sector to examine this emerging issue. Presently, there are plans to form a Crowdfunding Task Force to meet in the Summer of 2019 to review model legislation and determine what protections would meet the needs of South Carolinians. Agency staff has also joined the National Association of State Charities Officials (NASCO) Crowdfunding Committee to follow national trends on this subject.

3. <u>Collection of Beneficial Ownership Information</u>

Over the past several years bills have been introduced in Congress that would potentially impact the Secretary of State's Office. This legislation concerns what is known as beneficial ownership. A beneficial owner is a legal term describing specific property rights that belong to a person even though legal title of the property belongs to another person.

Not everyone wants to be identified as a beneficial owner. Criminals will use a corporate entity to hide their true identity, the purpose of an account, and/or the source or use of funds or property associated with the entity. Beneficial ownership rules are designed to assist authorities in counteracting money laundering, tax evasion, corruption and terrorism activities and other financial crimes. Under the Bank Secrecy Act, all covered financial institutions are required to collect and verify from certain non-exempt legal entities specific information about the beneficial owners of the entity when a new bank account is opened. A legal entity customer is defined as a corporation, limited liability company or other entity created by the filing of a public document with the Secretary of State's Office. A beneficial owner owns or controls more than 25% of a company's shares or voting rights or exercises control over the company.

Enactment of federal legislation that would require the Secretary of State to determine the beneficial ownership information of a legal entity would place an onerous burden on the agency. Furthermore, beneficial ownership information currently exists with the Internal Revenue Service. The Internal Revenue Service requires all filers to provide and update "responsible party" information through IRS Form SS-4, thereby making such ownership details accessible to federal law enforcement officials.

For these reasons, the National Association of Secretaries of State (NASS) put forth a resolution in July 2015 that states that NASS shall oppose any unnecessary and costly federal proposals requiring states to collect the same information currently being gathered through IRS Form SS-4 and made available to law enforcement authorities. NASS further asserts that the United States can meet its international commitments to fighting crime and financial wrongdoing through the abuse of corporate vehicles by promoting the adoption of federal government regulations that require financial institutions to collect ownership information for account holders, in addition to IRS Form SS-4 information collection. Although NASS has taken a position that beneficial ownership should be monitored at the federal level, this remains an emerging issue that all Secretary of State's Offices must address.

15. Agency's status in regards to compliance with S.C. Code Ann. §2-1-230 that requires agencies to submit reports to Legislative Services Agency for publication online, and the State Library.

The agency's Annual Accountability Report and other required reporting is found online on the Secretary of State's website at www.sos.sc.gov.

Paper copies have not been submitted for some time, but the agency will gladly forward copies if requested.

16. How the agency collaborates with other agencies to seek funding (e.g. grant and federal funding).

The Secretary of State's Office does not seek grant or federal funding.

B. Audit and/or Other Risk Mitigation Practices

17. Updated version of the agency's "Report and External Review Template" from the Accountability Report.

See updated report in Exhibit E.

18. (A) Agency's internal audit process and/or other risk mitigation practices.

The Secretary of State's internal auditing is primarily conducted by its Finance Division. The Finance Division consists of the Director of Administration, the Procurement Officer/Human Resources Director, and a Fiscal Analyst. The internal audit processes are as follows:

- Revenue: The Revenue System is the Secretary of State's checks and balances system of revenue transactions before it is interfaced into SCEIS.
- <u>Cash</u>: Cash is verified by the Director of Administration before it is taken to the bank for deposit.
- <u>Checks:</u> Checks are inspected by the Finance Division to verify each divisions' deposit balances daily.
- <u>P-Card</u>: P-Card receipts are verified by the Director of Administration to ensure all charges are valid.
- <u>Purchases:</u> All purchases are reviewed by the Director of Administration for validity.
- <u>Invoices:</u> All payable documents are processed by accounting workflow and are inspected by the Director of Administration for proper coding and documentation. This ensures that controls are in place at all times. Additionally, anything processed with a purchase order has been previously approved by the Director of Administration, again ensuring a further level of control.
- <u>HR Payroll:</u> All payroll is inspected accordingly to the SCEIS payroll processing checklist.
- <u>Human Resources:</u> The HR Director has checklists for new hires, changes in positions, separations, and benefits. Also, the HR Director inspects employee I-9 filings for federal compliance annually.
- <u>Inventory:</u> Annual inventory is verified each fiscal year by the Procurement Officer and IT Consultant.

(B) List of areas reviewed in agency internal audits during the last five years.

The agency does not have internal audit division, but is audited annually by the State Auditor's Office. In addition, the Department of Administration's Office of Human Resources audits the agency annually.

Any decertified party or any noncertified party, organization, or association may obtain certification as a political party at any time by filing with the Commission a petition for the certification signed by ten thousand or more registered electors residing in this State, giving the name of the party, which must be substantially different from the name of any other party previously certified.

No petition for certification may be submitted to the Commission later than six months prior to any election in which the political party seeking certification wishes to nominate candidates for public office.

At the time a petition is submitted to the Commission for certification, the Commission shall issue a receipt to the person submitting the petition which reflects the date the petition was submitted and the total number of signatures contained therein. Once the petition is received by the Commission, the person submitting the petition shall not submit or add additional signatures.

If the Commission determines, after checking the validity of the signatures in the petition, that it does not contain the required signatures of registered electors, the person submitting the petition must be notified and shall not submit any new petition seeking certification as a political party under the same name for one year from the date the petition was rejected.

Once a petition for certification has been submitted and rejected by the Commission, the same signatures may not be submitted in any subsequent petition to certify a new political party.

Once submitted for verification, a petition for certification may not be returned to the political party, organization, or association seeking certification, but shall become a part of the permanent records of the Commission.

- (A) A person making rent or royalty payments to a nonresident of twelve hundred dollars in any calendar year or more annually for the use or privilege of using property in this State shall withhold seven percent of each payment to a nonresident individual, partnership, trust, or estate and five percent of each payment to a nonresident corporation or any other nonresident entity.
 - (B) This section does not apply:

SECTION 12-8-550. Withholding for nonresident temporarily conducting business or performing personal services; exemption; revocation of exemption.

- (A) A person hiring or contracting with a nonresident conducting a business or performing personal services of a temporary nature within this State shall withhold two percent of each payment in which the South Carolina portion of the contract exceeds or could reasonably be expected to exceed ten thousand dollars. This section does not apply to a nonresident which registered with the Secretary of State or the Department of Revenue and by that registration agreed to be subject to the jurisdiction of the department and the courts of this State to determine its South Carolina tax liability, including withholding and estimated taxes, together with any related interest and penalties. Registering with the Secretary of State or the department is not an admission of tax liability nor does it require the filing of an income tax or franchise (license) tax return. This revocation does not revive the duty of a person hiring, contracting, or having a contract with a nonresident to withhold, until the person receives notice of the revocation.
- (C) This section does not apply to payments on purchase orders for tangible personal property when those payments are not accompanied by services to be performed in this State.

employment agencies. The agency can provide draft statutory language if the Committee decides to make any recommendations for revision in its study report.

HISTORY: 1962 Code Section 40-431; 1968 (55) 2846; 1981 Act No. 107 Section 1; 1985 Act No. 149, Section 1; 1989 Act No. 147, Section 1, eff June 8, 1989.

Effect of Amendment

The 1989 amendment in (b) and (d) inserted "providing information on employment opportunities,", and also in (b) inserted "job listing services, employment information centers,".

SECTION 41-25-30. License required; application for license; fee; bond; claims against licensee; service of summons; place of operation of agency; no license to issue where previous application denied or license revoked.

- (A) No person or firm may engage in the private personnel placement service business in South Carolina unless the person or firm has a current license for the business as provided in this chapter.
- (B) An application for license must be made to the Secretary for each location. If the agency is owned by:
 - (1) an individual, the application must be made by him;
 - (2) a partnership, the application must be made by all of the partners;
- (3) a corporation, an association, or a society, the application must be made by the president, vice-president, secretary, and treasurer and by a person owning twenty percent or more of the stock.
- (C) Each application must be written and in a form prescribed by the Secretary and must contain:
 - (1) the name and address of the applicant;
 - (2) the name under which the agency is to be conducted;
- (3) the street and number of the building or place where the business is to be conducted;
 - (4) the business or occupations engaged in by the applicant previously;
- (5) whether the applicant has previously held or applied, whether granted or denied, for a private personnel placement service license within the United States or its possessions or territories;
- (6) the name and address of the individual who actually will direct and operate the placement activities;
 - (7) the name and present address of the last employer of the individual;
- (8) a verification from a newspaper of the greatest circulation in the county of the applicant's location that a public notification containing the information required in the application has been included in the newspaper on at least one occasion before the filing;
- (9) a certification by a licensed member of the South Carolina Bar that all requirements of the laws of South Carolina have been met.

- (D) The application must be accompanied by an application fee of two hundred dollars and a license fee of one hundred dollars and verification of a surety bond of three thousand dollars or other security equal to twenty-five thousand dollars in a form approved by the Attorney General and deposited with the Secretary. The Secretary shall issue a license after thirty days following receipt of the application unless there is a reason for the Secretary to believe on the basis of a complaint and investigation that the applicant is not in compliance with this chapter. The application for a license must be denied and the license fee refunded if the Secretary determines that the applicant is not in compliance. The application fee must not be refunded.
- (E) The aggregate liability of the surety for all breaches of the bond may not exceed the sum of the bond. The surety on the bond may cancel the bond upon giving thirty days written notice to the Secretary and the Private Personnel Placement Service and is relieved of liability for a breach of condition occurring after the effective date of the cancellation. Failure to maintain a surety bond in force or have other security filed with the Secretary of twenty-five thousand dollars constitutes disqualification for retaining a license. The Secretary shall allow ten working days after notification to the licensee for requalification before revoking that license. The business may not operate until proof of surety bond, or other security of twenty-five thousand dollars, has been established with the Secretary.
- (F) Licenses are issued for two years beginning January first through December thirty-first twenty-four months later unless turned in or revoked by the Secretary. Licenses must be renewed biennially.
- (G) The Secretary shall mail annual license renewal forms to the last known address of each licensee by November first. If license renewal forms are not received by a licensee for any cause, the licensee shall request a license renewal form from the Secretary's office. Every licensee shall file a biennial license renewal in a form and manner suitable to the Secretary postmarked not later than the last day of December. The renewal form must be accompanied by a renewal fee of one hundred dollars. If license renewal forms are not received by the Secretary's office the first week of January, the Secretary shall notify the licensee in writing that the licensee shall pay a one hundred dollar late penalty and that the licensee has thirty days from the date of notice to comply with licensing requirements. If compliance is not met within the specified time, the Secretary shall deny license renewal, return the license fee, and notify that business to cease operation and make public notification of closure of the service in the newspaper of the greatest circulation in the county in which it is located.
- (H) If a written complaint by a person to the Secretary reveals that a licensee or firm is not in compliance with Section 41-25-30, the Secretary shall notify the licensee or firm of the alleged violation in writing and allow thirty days from the date of notice for response to and compliance with this chapter. If no response is received within thirty days, the Secretary shall investigate the alleged violation, and if the licensee or firm is found to be in violation of this chapter, deny or revoke that license.

- (I) All claims or suits brought against a licensee may be brought in the name of the person damaged upon the bond deposited with the Secretary and may be transferred and assigned as other claims for damages in civil suits. The amount of damages claimed by the plaintiff, and not the penalty designated in the bond, determines the jurisdiction of the court in which the action is brought. If a licensee has departed from the State with intent to defraud his creditors or to avoid the service of a summons in an action brought under this section, service must be made upon the surety. A copy of the summons must be mailed to the last known post office address of the residence of the licensee as shown by the records of the Secretary. The service is deemed to be made when not less than the number of days has intervened between the date of service and the return of the same as provided by law.
- (J) No license may be granted to conduct a private personnel placement service in a residence or rooms used for living purposes, where boarders or lodgers are kept, where meals are served, where persons sleep, or, in connection with a building or premises, where intoxicating liquors are sold to be consumed on premises, except cafes and restaurants in office buildings.

However, if the licensee has maintained a South Carolina State Placement Service license for three consecutive years, or has attained the national CPC designation, including two years of service, the licensee may by licensed to operate from a private residence if desired but must be in accordance with other applicable federal, state, and local laws and zoning ordinances. In addition, a person who is handicapped or incapacitated for a period of time could be allowed a waiver for that period of time to work from a private residence.

- (K) No license may be issued if the applicant has had a previous application which was denied or a license which has been revoked within the United States or its possessions or territories. No person may own, wholly or in part, nor manage a private personnel placement service who previously has been denied or had revoked his license to operate a private personnel placement service within the United States or its possessions or territories. The Secretary, depending upon the seriousness of the offense causing the denial or revocation of the license, after a suitable period of three months to one year, may allow the person, upon full compliance, to reapply for a license.
- (L) If a licensee relocates its offices before filing the annual renewal notice, he shall submit a written notice of the change of address to the Secretary containing a notarized statement that the new location conforms to licensing requirements.
- (M) If a licensee ceases to operate or goes out of business, he shall notify the Secretary in writing of the action and return the license to the Secretary.
- (N) If a business is sold to a new owner, the previous owner shall notify the Secretary in writing of the action and return the license to the Secretary and state to whom the business is being sold. That business may not operate until the new owner has obtained a new license.

(O) Private Personnel Placement Services licenses are nontransferable absolutely and unconditionally.

The 1989 amendment in subsection (k), added ", anywhere within the United States, its possessions or territories" in the two places it appears.

The first 1992 amendment by Act 477, in subsection (j), substituted "placement business" for "placement service" in the first paragraph, and added the second paragraph.

The second 1992 amendment by Act 501, arranged the text of subsections (B) and (C) into numbered items; in (D) changed the license fee from \$50 to \$100; in (F) changed the license period from one year to two and changed the renewal from annually to biennially; in (G) changed the renewal period from annually to biennially and changed the renewal fee and late penalty from \$50 to \$100 each; in (I) consolidated the last sentence with the remainder into one paragraph; and in (K) added "within the United States or its possessions or territories" in two locations.

- (vi) July 1, 1992, and June 30, 1993, and which end in "M" through "Z" must be issued for one year and renewed biennially after that time.
- (2) Registrations are valid until the last day of the month in which the registration expires. The license fees charged during the conversion process must be prorated for the length of the license issued.
- (B) After June 30, 1993, all licensees must be registered and licensed for twenty-four consecutive months, and the registrations expire on the last day of the twenty-fourth month. The registration and licensing of every licensee must be renewed biennially upon application by the holder and by payment of fees required by law to take effect on the first day of the month following the expiration of the registration and licensing to be renewed. This section does not prevent the Secretary of State's Office from refusing to issue a license.

V. Feedback (Optional)

Agency feedback

| 24. | (A) Other questions that |
|-----|---------------------------|
| | may help the Committee |
| | and public understand how |
| | the agency operates, |
| | budgets, and performs |

The Secretary of State's Office provides direct services to customers who operate businesses and nonprofit entities in South Carolina, protects and educates charitable donors, and serves as the repository for numerous state filings. Some deliverables involve the payment of fees or fines to support agency functions and provide revenue to the state. In the last fiscal year, the Secretary of State returned \$7,660,345 to the General Fund, while receiving only \$1,143,160 in state appropriations.

(B) Best ways for the Committee to compare the specific results the agency obtained with the resources the agency invested In determining resources for deliverables, the agency made its best effort to quantify employee time with respect to each deliverable. Many duties, however, are administrative in nature. Time spent on supervision, development of policies and procedures, and legal research was not reflected in deliverables to external customers, but rather in the "Agency Operations" deliverable.

(C) Changes to the report questions, format, etc., agency representatives would recommend. It may be helpful if the Committee could provide the framework for the PER report to agencies earlier so that they could track the information requested prior to compiling the report, or determine the best way to translate data already compiled into the categories that the Committee has requested. There seemed to be a lot of trial and error within the agency divisions in compiling and reporting the deliverables, which took a lot of time in the relatively short window that that agency had to complete the report. Although the timeframe initially given to complete the report (45 days) would be sufficient in a vacuum, it was not adequate given the ongoing responsibilities of the agency. We sincerely appreciate the Committee granting the agency's extension request for submitting the report.

(D) Benefits agency representatives see in the public having access to the information in this report.

Secretary Hammond supports accountability and transparency for all taxpayer supported entities, including the Secretary of State's Office. Furthermore, Secretary Hammond is always seeking ways to improve customer service and the efficiency of the office, and welcomes any constructive feedback that may arise from the House Legislative Oversight process.

(E) Two to three things agency representatives could do differently next time (or it could advise other agencies to do) to complete the report in less time and at a lower cost to the agency.

The main obstacle to overcome in completing the PER Report was understanding what types of information were desired by the Committee, and conforming the existing data collection processes of the agency to the information sought by the Committee. In an ideal world, the agency would be given the framework a full fiscal year in advance so that it could efficiency track the items sought by the Committee over the course of the year. Knowing the process now will help the agency to track the requested information and make the report easier to complete in the future. A suggestion for other agencies beginning the process would be to have one person or division complete the written components of the deliverables and deliverable laws

| | sections and request division directors to provide data, to provide consistency in the description and analysis of deliverables and avoid having to rewrite large portions of these sections. |
|--|---|
| (F) Other comments or suggestions from the agency. | Secretary Hammond appreciates the House Legislative Oversight Committee's work and efforts to evaluate all agencies to improve the functioning of state government. The process has been valuable to our agency in that it is helpful to have all the agency's duties compiled in one report. |

Dear Mr. Harrison:

Pursuant to S.C. Code of Laws §1-23-120(J), the Secretary of State's Office has conducted a formal review of all regulations under its authority. Below is a list of those regulations and a statement as to whether the regulations should be repealed or amended.

- <u>Securities Division, 113-1 through 113-26</u>: Since the Secretary of State no longer administers the Securities Division, our office has formally begun the process of repealing these regulations. Document 4649, which would repeal the regulations, is currently pending in the General Assembly.

22 PROPOSED REGULATIONS

Document No. 4876 SECRETARY OF STATE

CHAPTER 113

Statutory Authority: 1976 Code Sections 30-6-10 et seq.

113-325. Electronic Transmissions.

Preamble:

The Office of the Secretary of State proposes to amend Regulation 113-325 of the Uniform Real Property Electronic Recording Act regulations found in Chapter 113, Article 3 of the South Carolina Code of State Regulations. The General Assembly passed the Uniform Real Property Electronic Recording Act (Section 30-6-10, et seq.) which became effective May 13, 2008. Pursuant to the authority conferred by the Act, the Office of the Secretary of State promulgated regulations to adopt standards to implement the Act which went into effect on April 23, 2010. The proposed changes to Regulation 113-325 would allow for XML data to satisfy the transmittal sheet requirement set forth in the regulations. The Notice of Drafting of this change was published in the *State Register* on December 28, 2018.

Notice of Public Hearing and Opportunity for Public Comment:

The Office of the Secretary of State proposes to amend Regulation 113-325 related to the Uniform Real Property Electronic Recording Act. Interested persons may submit comments to Ms. Melissa Dunlap, Deputy Secretary of State & Chief Legal Counsel, Office of the Secretary of State, 1205 Pendleton Street, Suite 525, Columbia, SC 29201. To be considered, comments must be received no later than 5:00 p.m. on March 25, 2019, the close of the comment period.

If requested by twenty-five or more persons, by an individual representing a group of twenty-five or more persons, by a governmental subdivision or agency, or by an association having at least twenty-five members, a public hearing will be held on Monday, April 1, 2019 at 10:00 a.m. at the Administrative Law Court, Suite 224, Edgar A. Brown Building, 1205 Pendleton Street, Columbia, South Carolina.

Preliminary Fiscal Impact Statement:

The Office of the Secretary of State anticipates that there will be no costs incurred by the State and its political subdivisions in complying with the proposed amendment of regulations.

Statement of Need and Reasonableness:

DESCRIPTION OF REGULATION: Chapter 113, Regulation 113-325, Electronic Transmissions.

Purpose: To amend regulations promulgated by the Secretary of State for Uniform Real Property Electronic Recording Act to allow for acceptance of XML data to satisfy the transmittal sheet requirement.

Legal Authority: 1976 Code Sections 30-6-10 et seq.

Plan for Implementation: The implementation of the amendment of Regulation 113-325 will allow recorders to accept XML data in addition to a traditional transmittal sheet. No specific implementation procedures are required.

PROPOSED REGULATIONS 23

DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

As electronic documents filed with county recorders increase, it is in the interest of both the recorders and filers to allow for required data to be transmitted as XML data as a convenient alternative to the traditional transmittal sheet.

DETERMINATION OF COSTS AND BENEFITS:

There are no costs anticipated in the amendment of the Regulation 113-325. Amendment of this regulation will allow registers to accept XML data for instruments submitted for filing.

UNCERTAINTIES OF ESTIMATES:

None.

EFFECT ON ENVIRONMENT AND PUBLIC HEALTH:

There are no known effects of the regulation on the environment and public health.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

There are no known effects on the environment and public health if the regulation is not implemented.

Statement of Rationale:

The proposed amendment will broaden the language of Regulation 113-325 regarding the transmittal sheet requirement for electronic transmissions to make clear that XML data is acceptable to fulfill this requirement. This language is needed to expand the methods allowed for transmittal of required data for the convenience and ease of both county recorders and filers.

The full text of this regulation is available on the South Carolina General Assembly Home Page: http://www.scstatehouse.gov/regnsrch.php. Full text may also be obtained from the promulgating agency.

Agency Comments (Optional)

In FY 2015-2016, there was very high turnover in this division. One employee became deceased; one became a stay-at-home parent; two employees returned to school; and two employees left for other employment, including one who moved out of state. In FY 2016-2017, two employees left for other employment opportunities and one became a stay-at-home parent. These positions are entry level positions that will have turnover as employees either advance within the agency, move to another division in the agency, return to school or seek higher paying employment.

| purpose? What is specific outcome sought in law OR, if not in | | The official comment accompanying 2013 Act No. 96 on Uniform Commercial Code - Secured Transactions provides as follows: "Part 5 contains several provision: |
| law, specific outcome agency seeks by providing | | governing filing operations. First, it prohibits the filing office from rejecting an initial financing statement or other record for a reason other than one of the few |
| the deliverable? | | that are specified. See Sections 9 520, 9 516. Second, the filing office is obliged to link all subsequent records (e.g., assignments, continuation statements, etc.) the initial financing statement to which they relate. See Section 9 519. Third, the filing office may delete a financing statement and related records from the files |
| | | no earlier than one year after lapse (lapse normally is five years after the filing date), and then only if a continuation statement has not been filled. See Sections S 515, 9 519, 9 522. Thus, a financing statement and related records would be discovered by a search of the files even after the filing of a termination statement. |
| | | This approach helps eliminate filing office discretion and also eases problems associated with multiple secured parties and multiple partial assignments. Fourth, Part 5 mandates performance standards for filing offices. See Sections 9 519, 9 520, 9 523. Fifth, it provides for the promulgation of filing office rules to deal with |
| | | details best left out of the statute and requires the filling office to submit periodic reports. See Sections 9 526, 9 527." (2013 Act. No. 96) |

| Agency Comments Additional comments from agency (optional) | | Prior to 2016 Act No. 275 (passed June 21, 2016), the Department of Transportation commissioners also received a Certificate of Election. Three Certificates of Election were issued to members of that commission in 2015-2016 and are included in the number of units for that fiscal year. The maximum number of potential customers is listed as 42 because that is the total number of members on the three boards listed. It is conceivable that there could be multiple elections in the same year for a single position, but highly unlikely that the number would ever exceed 42. | The number of customers served represents the number of unique pageviews of the Boards and Commissions Database on the agency's website in FY 2017-18. |

| Agency Comments Additional comments from agency (optional) | | Over the years covered by this report, three areas have applied for municipal incorporation. One was ultimately incorporated, one was defeated in the election on incorporation, and one did not meet the requirements and was not granted a commission for an election. The application process spanned beyond a single fiscal year for each of the applicants. For the number of customers in the last fiscal year, we stated 4 because there were 3 individuals and 1 alternate named for one municipality as commissioners who received the certificate of incorporation. | |
