Q12 Please list any suggestions for improvement to the process of legislators providing oversight of agencies. Your responses will be quoted verbatim and published on the Committee's website.

#	Responses	Date
1	A. Pre-populate an agency's report templates used for subsequent annual requests with all information already available to the Oversight Committee in an agency's previously submitted reports. B. Provide front end mandatory staff-led training for agencies selected for study each year to give them a sound working knowledge of how to complete the Committee's information-request forms, making agencies more responsive, the collection processes more efficient, and the information provided the Committee more useful. C. Reduce requests for legal standards to two categories: (1) legal mandates for an agency's functions, and (2) suggested revisions to code sections/regulations related to an agency that are outdated/incorrect -- however, request these suggested revisions only if the Committee expects the substantial effort required of an agency to produce this information would likely result in appropriate legislative action.	6/24/2016 5:07 PM
2	The process was thorough, professional and beneficial. The process, however, was very labor intensive and time consuming - placing a large burden on agency staff. We would encourage members and staff to limit historical data requests to no more than 3 years, for example, and to explore opportunities to further streamline reporting documents.	6/23/2016 11:07 AM
3	The oversight committee and subcommittee meetings are too formal and may inadvertently stifle some productive dialogue due to fear between agency staff and the committees. Additionally, the committee should closely examine the items that are requested from the agency in order to determine their value. At times, it appeared the members of the subcommittee and full committee were overwhelmed with data and reports, rather than useful information.	6/16/2016 5:32 PM
