## AGENCY'S DISCUSSION AND ANALYSIS

The State Treasurer's Office (STO) manages over \$75 billion on behalf of the state and local governments. By focusing on the modernization and optimization of business operations, South Carolina Treasurer Curtis Loftis works to ensure that the STO provides the best in efficient banking, investment, and financial management services. In January of 2023, Treasurer Loftis was inaugurated for his fourth term in office. He continues to promote a progress-driven environment of openness, transparency, and accountability in government.

This document serves as a review of the responsibilities and accomplishments of the STO for fiscal year 2023-2024.

- The STO serves as the state's bank, receiving, disbursing, and managing funds statutorily custodied for the State of South Carolina.
- The STO coordinates banking services and structures and administers the state's debt for all funds received by any department or institution of the state government.
- The STO is responsible for the investment, cash management, and safekeeping of the state's General Fund and restricted funds, as well as the Local Government Investment Pool (LGIP).
- The STO leads the state's relationships with the three major bond rating firms to maintain high credit ratings that keep the state's borrowing costs low.
- The STO administers four consumer-facing programs: Unclaimed Property, Future Scholar 529 College Savings Plan, SC Tuition Prepayment (TPP), and Palmetto ABLE Savings.

The STO has five major Divisions: **Banking, Investment Management, Treasury Management, Debt Management, and Programs.**

**Banking.** The Banking Division manages relationships with the qualified public depository banks that provide banking services to the State of South Carolina's agencies, colleges, and universities. The Banking Division works to support the receipt and disbursement of funds, including specialized services for merchant payment cards and merchant card processing (in accordance with South Carolina Code of Laws Sections 11-13-120, 11-13-125, and 11-13-60).

In order to maximize funds available for investment, the Banking Division performs effective daily cash management functions and monitors bank balances to ensure state funds on deposit are protected with FDIC coverage or are properly collateralized (in accordance with South Carolina Code of Laws Sections 11-13-60 and 6-5-15).

Funds managed by the Investment Management Division are maintained by the Banking Division in state accounting systems. The Banking Division records and reconciles investments owned by the state in the

investment module of the South Carolina Enterprise Information System (SCEIS) as well as records and reconciles LGIP investments in the QED accounting system.

**Investment Management.** The Investment Management Division currently manages approximately \$40.8 billion for both the State of South Carolina and local governments (in accordance with South Carolina Code of Laws Section 11-9-660), with a focus on preserving capital, maintaining liquidity, and obtaining the best return within the appropriate risk parameters. General Deposit Accounts (state portfolios, including the State Pool and the General Fund) are available funds that are necessary to maintaining liquidity and preserving capital. Unlike long-term investments, their cash flows are invested for short periods of time.

Net earnings on General Deposit Accounts' investments and LGIP totaled nearly \$1.5 billion in the 2023-2024 fiscal year, of which approximately \$321.9 million represents General Fund earnings available for legislative appropriation.

**Treasury Management.** The Treasury Management Division is responsible for managing statewide cash deposit and disbursement accounting. Treasury Management duties include payroll payment processing and other disbursements on behalf of the state, administration of Aid to Subdivisions, collection and remittance of court fines and fees, and reconciliation of bank accounts (in accordance with South Carolina Code of Laws Title 11, Chapters 3, 5, and 13 and Title 14, Chapter 1).

For fiscal year 2023-2024, the Division received and disbursed over \$50 billion in funds, including more than 4.2 million disbursements, consisting of 718,294 paper checks and approximately 3.5 million electronic payments. Treasury Management also made 217,261 deposits on behalf of the state.

**Debt Management.** The Debt Management Division oversees the debt for the state and its agencies, institutions, and authorities (in accordance with South Carolina Code of Laws Titles 11, 57, and 59). Debt Management optimizes the debt structure and ensures timely repayment of debt when it is due. During the fiscal year, the STO assisted agencies in the issuance of debt for the purposes of funding academic and housing facility construction, single family mortgage loans, and bond defeasance to generate refinancing savings.

In total, the state issued over \$527.2 million in general obligation and revenue debt during Fiscal Year 2023-2024. Further, the state maintained its excellent credit ratings with Moody's, S&P, and Fitch as Aaa, AA+, and AAA respectively.

**Programs.** The Programs Division administers the consumer facing programs of the STO, which include Unclaimed Property, Future Scholar 529 College Savings Plan, SC Tuition Prepayment, and Palmetto ABLE Savings.

**Unclaimed Property Program.** The Unclaimed Property Program manages nearly \$940 million in unclaimed property. In fiscal year 2023-2024, the program returned over \$38 million in unclaimed property to rightful owners (in accordance with South Carolina Code of Laws Title 27, Chapter 18), the second highest amount in program history. This represents the return of approximately 74,000 properties. The Program also received nearly \$112.6 million in new unclaimed property from business entities.

<b>AGENCY NAME:</b>	<b>State Treasurer's Office</b>		
<b>AGENCY CODE:</b>	<b>E160</b>	<b>SECTION:</b>	<b>098</b>

Each year, the STO calculates the refund liability of the Unclaimed Property Program, which was \$267.7 million as of June 30, 2024. The agency then determines what amount is available to transfer to the General Fund. In fiscal year 2023-2024, \$15 million was transferred.

**Future Scholar 529 College Savings Plan.** Future Scholar is South Carolina's tax-advantaged 529 college savings plan, providing families with a smart, easy way to save for college (in accordance with Section 529 of the Internal Revenue Code and South Carolina Code of Laws Title 59, Chapters 2 and 4). At the end of the fiscal year, Future Scholar had nearly \$6.6 billion in assets under management of the program's 232,722 accounts. Once again, Future Scholar's Direct plan was recognized by SavingforCollege.com as a national leader and was ranked as one of the lowest cost plans in the country. Future Scholar's Direct and Advisor programs ranked in the top quartile in the nation for investment performance for ten-year returns.

The STO remains committed to financial literacy education. The Financial Literacy Master Teacher Program is a multi-year program that provides K-12 teachers with a nationally recognized certification and financial incentives to complete specialized training and education in financial literacy curriculum. Financial Literacy Master Teacher participants are experts in the area of financial literacy, possess a desire to build upon their experience, and aspire to lead professional development workshops for other educators in their schools and districts.

**SC Tuition Prepayment Program.** Although the General Assembly closed the Tuition Prepayment Program to new participants in 2008, 1,399 contracts are still in force with tuition benefits available.

**Palmetto ABLE Savings Program.** The Palmetto ABLE Savings Program was launched by the STO in November of 2017, allowing individuals with disabilities the opportunity to save and invest money without jeopardizing existing eligibility for government benefits, such as Medicaid and Supplemental Security Income (SSI). The STO partners with other agencies, non-profits, and organizations that support the disability community as a means to educate the public about the benefits of Palmetto ABLE savings accounts. Currently, 3,349 accounts are open, with \$38.4 million in assets under management as of June 30, 2024.

## **Risk Assessment and Mitigation Strategies**

The STO maintains a thoroughly vetted and tested Business Continuity Plan in order to maintain ongoing processes and provide stable remote access throughout any event which presents a potential threat to the agency's business operations.

The STO has identified potential negative impacts on the state and the public that could result if agency goals and objectives are not met. To ensure that the state's financial resources are safeguarded, it is essential for central state agencies to foster a collaborative relationship and willingness to work together in the state's best interest. Failure to do so may increase the risk to the state's financial reporting and credit rating. The STO remains committed to ongoing collaboration with the other central state agencies in achieving this purpose. The top three potential negative impacts and the appropriate mitigation strategies are identified below.

**Treasury Management.** Failure to complete correct and timely recording, monitoring, and reporting of all cash activity could compromise accurate cash disbursements. Appropriate accounting controls, enhanced reconciliation practices, as well as proper reporting and monitoring of all cash activity are in place to ensure an accurate accounting is made of all monies deposited and withdrawn within the Treasury. These processes are designed to avoid any negative impact on state employees, customers, and vendors.

<b>AGENCY NAME:</b>	<b>State Treasurer's Office</b>		
<b>AGENCY CODE:</b>	<b>E160</b>	<b>SECTION:</b>	<b>098</b>

**Banking.** Inadequate banking security measures could lead to an increased risk of fraud. Lack of implementation of bank fraud protection tools for the state's banking data could lead to loss of revenue and productivity for state agencies. Prevention tools have been implemented with all state banking partners and are continuously enhanced to deter fraud.

**Investment Management.** If the Investment Management Division could not obtain the appropriate risk-adjusted returns compared to the assigned benchmarks, the state would earn less investment income, which could negatively impact revenue to the General Fund, state agencies, colleges and universities, and participating local governments. Within the appropriate risk and statutory parameters, the STO strives to meet or exceed applicable benchmarks in order to obtain optimal returns. To identify opportunities for improvement, the STO continually reviews investment strategy and portfolio performance.
