1.3. (SDE: EFA Formula/Base Student Cost Inflation Factor) To the extent possible within available funds, it is the intent of the General Assembly to provide for one hundred percent of full implementation of the Education Finance Act to include an inflation factor projected by the Revenue and Fiscal Affairs Office to match inflation wages of public school employees in the Southeast. The base student cost for the current fiscal year has been determined to be \$2,425. For the current fiscal year, the total pupil count is projected to be 721,401. The average per pupil funding is projected to be \$6,120 state, of which \$2,339 comes from the EFA, \$1,294 federal, and \$5,726 local. This is an average total funding level of \$13,140 excluding revenues of local bond issues. For the current fiscal year the South Carolina Public Charter School District and any institution of higher education sponsoring a public charter school shall receive and distribute state EFA funds to the charter school as determined by one hundred percent of the current year’s base student cost, as funded by the General Assembly multiplied by the weighted students pupils enrolled in the charter school, which must be subject to adjustment for student attendance.

The Revenue and Fiscal Affairs Office, must post in a prominent place on their website for each school district projections, including the per pupil state, federal and local revenues, excluding revenues of local bond issues, for the current fiscal year. Also, as soon as practicable, upon determining the exact numbers regarding pupil count and funding, the Revenue and Fiscal Affairs Office, shall also post on their website the one hundred thirty-five day average daily membership for each school district and per pupil state, federal and local revenues, excluding revenues of local bond issues, based on the most recent audited financial statement as reported annually pursuant to Section 59-17-100. | (B) Academic Assistance | 0.15 |
| (C) Limited English Proficiency | 0.20 |
| (D) Pupils in Poverty | 0.20 |
| (E) Dual Credit Enrollment | 0.15 |

No local match is required for the additional weightings for personalized instruction in the current school year. Charter school per pupil calculations for locally sponsored charters will continue to be calculated according to Section 59-40-140 of the 1976 Code. Students may receive multiple weights for personalized instruction; however, within each weight, students should only be counted once. These weights are defined below:

Gifted and talented students are students who are classified as academically or artistically gifted and talented or who are enrolled in Advanced Placement (AP) and International Baccalaureate (IB) courses in high school. Districts shall set-aside twelve percent of the funds for serving artistically gifted and talented students in grades three through twelve.

Students in need of academic assistance are students who do not meet state standards in mathematics, English language arts, or both on state approved assessments in grades three through eight and high school assessments for grades nine through twelve. The additional weight generates funds needed to provide additional instructional services to these students.

Students with limited English proficiency are students who require intensive English language instruction programs and whose families require specialized parental involvement intervention.

Funds received by a school district pursuant to the dual credit weighting must be used to defray all possible costs of dual credit courses for students. Students identified for dual credit enrollment must be identified in PowerSchool as taking a course that will lead to both high school credit and post-secondary credit. Districts must utilize these funds to offset the cost of tuition, fees, instructors, and instructional materials for qualifying courses with the local technical college or other institution of higher education. Each school district shall report to the department the number of students participating in dual credit courses and specify the cost borne by each entity. School districts must assist students in accessing Lottery Tuition Assistance when applicable.

For the current school year, the Department of Education will continue to use counts from the prior school year to determine poverty funding for the add-on weighting. The Department of Education will ~~continue to~~ work with school districts to determine students eligible for the poverty add-on using the following data elements: ~~used to determine USDA community eligibility to be used in future years~~ students in poverty are students who qualify for Medicaid, SNAP, TANF, or are homeless, transient, or in foster care.

~~Further, the Department of Education may use school district student counts for personalized instruction as collected in the same manner as the prior fiscal year, PowerSchool or other available existing data sources as determined by the department to calculate the school district add on weightings for the personalized instruction classifications and the determination of the school districts monetary entitlement. End of year adjustments shall be based on the one hundred thirty five day student average daily membership for all classifications. During the current fiscal year the department will update PowerSchool calculations, reports, screen development,~~

1A.57 (Reading/Literacy Coaches) Provides for the allocation and use of funds appropriated for Reading/Literacy Coaches to school districts. Requires the department publish guidelines defining reading/literacy coach minimum qualifications; develop procedures to monitor the use of these funds; and requires the funds to be retained and carried forward for the same purpose and not flexed. *Note: Companion General Education proviso is 1.62.*

WMC: AMEND proviso item (A) to delete previous distribution criteria and instead direct that school districts shall be eligible to receive up to \$62,730 for each primary and elementary school. Amend item (B) to authorize a district to use these funds to employ reading/literacy coaches in a primary, elementary, or middle school, or combination of schools depending on the districts area of highest need. Require the district to align placement of coaches to their approved district reading plan. Amend item (C) to add primary and/or middle schools. Amend item (K) to delete previous directive for targeting areas of greatest need based on certain criteria and instead authorize the department to fund a coach at the full time rate based on certain criteria.

HOU: ADOPT proviso as amended.

1A.57. (SDE-EIA: Reading/Literacy Coaches) (A) Funds appropriated for Reading/Literacy Coaches must be allocated to school districts by the Department of Education as follows: ~~(1) for each primary and elementary school in which twenty percent or more of the students scored below “meets expectations” on the reading sub-score of the English language arts test in the most recent year for which such data are available, the school district shall be eligible to receive the lesser of up to \$62,730, or the actual cost of salary and benefits for a full time reading/literacy coach; and~~

~~(2) for each elementary school in which fewer than twenty percent of the students scored as referenced in (A)(1), the school district shall be eligible to receive the lesser of up to \$31,365 or fifty percent of the actual cost of salary and benefits for a full time reading/literacy coach. A school district must provide local support for state funds provided under this paragraph. School districts may use existing local funds currently used for reading assistance as the local support.~~

(B) By accepting these funds, a school district warrants that they will not be used to supplant existing school district expenditures, except for districts that either are currently, or in the prior fiscal year, were paying for reading/literacy coaches with local funds. A district may, ~~however,~~ assign a reading/literacy coach to a primary school rather than to the elementary school to improve the early literacy skills of young children only utilize these funds to employ reading/literacy coaches that may serve in a primary, elementary, or middle school or a combination of these schools depending on the area of highest need in the district. The school district must align the placement of coaches to the district reading plan that is approved by the department.

(C) Funds appropriated for reading/literacy Coaches are intended to be used to provide primary, elementary, and/or middle schools with reading/literacy coaches who shall serve according to the provisions in Chapter 155 of Title 59.

(D) Schools and districts accepting funding to support a coaching position agree that the reading/literacy coach must not serve as an administrator. If the department finds that school districts are using these funds for administrative costs as defined in statute they must withhold that districts remaining balance of funds allocated pursuant to this proviso.

(E) The Department of Education must publish guidelines that define the minimum qualifications for a reading/literacy coach. These guidelines must deem any licensed/certified teacher qualified if, at a minimum, he or she:

(1) holds a bachelor’s degree or higher and an add-on endorsement for literacy coach or literacy specialist; or

(2) holds a bachelor’s degree or higher and is actively pursuing the literacy coach or literacy specialist endorsement; or

The provisions of subsection (A), including the local support requirements, shall also apply to any allocations made pursuant to this paragraph.

(F) The Department of Education must develop procedures for monitoring the use of funds appropriated for reading/literacy coaches to ensure they are applied to their intended uses and are not redirected for other purposes. The Department of Education may receive up to \$100,000 of the funds appropriated for reading/literacy coaches in order to implement this program, provided that this allocation does not exceed the department's actual costs.

(G) Prior to the close of the current fiscal year, any unspent or unallocated funds for reading/literacy coaches shall be used to fund Summer Reading Camps.

(H) The Department of Education shall require:

(1) any school district receiving funding under subsection (A) to identify the name and qualifications of the supported reading/literacy coach; as well as the school in which the coach is assigned; and

(2) any school district receiving funding under subsection (G) to account for the specific amounts and uses of such funds.

(I) With the data reported by the school districts, the department shall report by January fifteenth of the current fiscal year on the hiring of and assignment of reading/literacy coaches by school. The department shall also report the amount of funds that will be used for Summer Reading Camps.

(J) Funds appropriated for reading/literacy coaches shall be retained and carried forward to be used for the same purpose but may not be flexed.

(K) ~~For Fiscal Year 2017-18, if increased funding for reading/literacy coaches is not sufficient to provide additional reading/literacy coaches at each elementary school then the funding must be targeted to the areas of greatest need based on the number of students substantially failing to demonstrate reading proficiency as indicated on the prior year's state assessment~~ the current fiscal year, and if funds are available, the department may fund a coach at the full time rate if the district's reading scores show that less than 20% of the students scored below "meets expectations" on the reading sub score of the English language arts test in the most recent year for which such data are available, but for the past two year the district qualified for a full time coach based on the assessment scores.

SFC: AMEND FURTHER to reinsert the directive that school districts shall receive up to \$62,730, "or the actual cost of salary and benefits for full time reading/literacy coach," and delete item (K) authorization for the department to fund a coach at the full time rate based on certain criteria.

(1) 'Imprudent' or 'imprudence' includes, but is not limited to, lack of caution, care, or diligence as determined by the Public Service Commission in regard to any action or decision taken by the utility or one acting on its behalf including, but not limited to, its officers, board, agents, employees, contractors, subcontractors, consultants affecting the project, or any other person acting on behalf of or for the utility affecting the project. Imprudent or imprudence includes, but does not require, a finding of negligence, carelessness, or recklessness.

Imprudence on behalf of any contractor, subcontractor, agent, or person hired to construct a plant or perform any action or service on behalf of the utility must be attributed to the utility.

Imprudence includes, but is not limited to, any one or more of the following:

To the extent a utility enters a contract with a third party that delegates some or all decision-making authority related to the project, the utility retains the burden of establishing the prudency of specific items of cost or specific third-party decisions.

'Prudent', 'prudence', or 'prudency' also requires that any action or decision be made in a timely manner.

In determining whether any action or decision was prudent, the commission shall consider, including, but not limited to:

(a) whether the utility acts in a timely manner, with any passage of time which results in increased costs or expense prior to the utility acting or making the decision weighing against a finding of prudency;

(b) whether prior actions or decisions by the utility were imprudent and such imprudent actions led to a decision by the utility that could otherwise be prudent. Such circumstances weigh against a finding of prudency; and

(c) any other relevant factors, including commission of a fraudulent act, which are deemed not to be prudent.

As used in subitem (c), 'fraud' includes, in addition to its normal legal connotation, concealment, omission, misrepresentation, or nondisclosure of a material fact in any proceeding or filing before the commission or Office of Regulatory Staff. Proceedings and filings to which the provisions of this paragraph apply include, but are not limited to, rate or revised rate filings, responsive filings, motions, pleadings, briefs, memoranda, document requests, and other communications before the commission or Office of Regulatory Staff.

(B) The costs associated with the implementation of this proviso must be from the funds appropriated to the Office of Regulatory Staff.

117.171 (Net Energy Metering) **HOU2:** AMEND House version to ADD new proviso to direct electrical utilities to make net energy metering available to customer-generators on a first-come, first-served basis based on Commission Order 2015-194 until specific percentages are met. Create the Renewable Energy Development Joint Study Committee to support development of renewable energy resources and production facilities to generate electricity; provide for the composition of the committee; direct that findings and recommendations be submitted to the Speaker of the House of Representatives and the President Pro Tempore of the Senate by January 8, 2019, and that the committee be dissolved once the report has been submitted. Sponsor: Rep. Ballentine. *Note: Proviso was 117.157 in HOU2 version.*

117.171. (GP: Net Energy Metering) (A) The General Assembly finds:

(1) the General Assembly passed Act 236 of 2014 to promote the establishment of a reliable, efficient, and diversified portfolio of distributed energy resources for the State; and

(2) Act 236 of 2014 successfully resulted in the rapid development and expansion of the solar power marketplace in this State; and

(3) it is necessary to preserve the important role of the emerging solar industry as it becomes sustainable, without subsidies, in our diversifying energy market; and

(4) the Public Service Commission approved in Order 2015-194 a settlement agreement that provides for a 1:1 kilowatt hour ("kWh") crediting rate ("1:1 Rate") whereby each kWh of electricity produced by a customer-generator is credited at the full retail rate.

(B) In the current fiscal year and from the funds appropriated and/or authorized to the Public Service Commission, for purposes of Chapter 40, Title 58 of the 1976 Code, an electrical utility shall make net energy metering available to customer-generators on a first-come, first-served basis, according to the rights accorded customer-generators by Commission Order 2015-194 until the total nameplate generating capacity of net energy metering systems equals four percent of the previous five-year average of the electrical utility's South Carolina retail peak demand. No electrical utility must be required to approve an application for interconnection from net energy metering customer-generators if the total rated generating capacity of all applications for interconnection from net energy metering customer-generators already approved to date by the electrical utility equals or exceeds four percent of the previous five-year average of the electrical utility's South Carolina retail peak demand.

(C) (1) From the funds appropriated and/or authorized to the Public Service Commission, there is created the "Renewable Energy Development Joint Study Committee" to support the development of renewable energy resources and production facilities to generate electricity. The study committee specifically shall investigate, examine, and develop appropriate recommendations addressing:

(a) ratemaking methodologies, cost allocations, and rate designs for all retail electric customers in South Carolina;

(b) strategies for ensuring the fairest allocation of system costs and benefits related to renewable energy resources and Act 236 of 2014 between consumers, including consumers who either do or do not utilize distributed energy resources;

(c) strategies to build upon the successful deployment of renewable energy generating capacity through the South Carolina Distributed Resource Act and to continue enabling market-driven, private investment in distributed energy resources across the State by reducing regulatory and administrative burdens to customer installation and utilization of onsite distributed energy resources;

(d) the current status of the progress and implementation of Act 236 of 2014 and strategies to enhance the act's progress and success; and

(e) job retention and growth in the renewable energy industry.

(2) The study committee must be composed of the following members:
