58. Provide any other information that may reflect positively or negatively on your candidacy, or which you believe should be disclosed in connection with consideration of you for nomination for the position you seek. This information may include how your life experiences have affected or influenced the kind or type of judge you have been or plan to be.

I have wanted to be a judge for as long as I can remember. Some of my earliest memories are of seating my teddy bears and dolls as jurors for the trials I presided over. However, it wasn't until I began practicing law that the "why" became clear. I deeply value the rules and processes that make our courts work. As an actively practicing litigator, I have had great courtroom experiences and not so great experiences. I think it is imperative that judges be an example of civility, patience and fairness. A large number of the public will never see the inside of a courtroom in their lifetimes. The ones who do may find the court process scary, frustrating or confusing. A judge's demeanor can have a large effect on how a lawyer or member of the public views our court system. I plan and hope to be a judge known for having a steady, patient and courteous demeanor so lawyers and litigants leave the courtroom feeling heard and respected regardless of the outcome of their case.
