

Session 109 - (1991-1992)

H 3155 General Bill, By H.H. Keyserling, M.F. Jaskwhich, K.G. Kempe, I.K. Rudnick and C.Y. Waites

A Bill to create and house administratively within the State Budget and Control Board the South Carolina Energy Resource and Management Development Authority, to constitute the Authority as an instrumentality of the State for the performance of essential governmental functions involving energy conservation and alternative financing of conservation measures as defined in this Act, to provide for the membership of the Authority, to require the Budget and Control Board to provide technical and clerical services and personnel as the Authority may require in the performance of its functions and to provide certain liaison services with other agencies of state government, to require the Authority to reimburse the Budget and Control Board for services provided, to provide for the powers of the Authority and of any joint venture created pursuant to this Act, to provide for related matters concerning the establishment and functioning of the Authority, to require state agencies and local school boards to submit an energy consumption report covering a particular fiscal year to the Authority in a format established by the Authority, to require a state agency, upon entering into a contractual agreement with the Authority, to establish a separate budget line item in accordance with the procedures under the Budget and Control Board to be established for repayment of energy conservation projects as contracted with the Authority, to provide that each responsible state agency or local school board, upon approval of a new energy conservation work program by the Authority, may make certain expenditures from the referenced line item of the State Budget in an amount not to exceed that agency's or local school board's appropriation to that line item of the State Budget, to provide that annual state energy management plans are required of all agencies and local school boards undertaking energy conservation projects as a result of this Act, and to require that plans be reviewed by the Authority each year for the duration of projects.
