Reporting Requirement

The Students Health and Fitness Act of 2005, S.C. Code §59-10-10(C), requires each South Carolina district to report on the amount of time allotted to students for physical education instruction and physical activity as referenced in the excerpt below:

During each year of implementation of the reduced student to physical education teacher ratio, each district shall report to the State Department of Education by June fifteenth, the number of minutes of physical education instruction and the minutes of additional physical activity students receive daily with a total for the week. The report must be listed by elementary school and by individual class and grade level. The State Department of Education shall provide a summary of this information to the General Assembly by December first of each year of implementation.

Students Health and Fitness Act of 2005 Requirements

The Students Health and Fitness Act of 2005, S.C. Code [§59-10-10](#), mandates that students in grades kindergarten through five receive at least one hundred and fifty minutes per week of physical education and physical activity. Of those one hundred and fifty minutes per week, at least ninety minutes are to be allotted to physical education as referenced in the excerpts below:

[§59-10-10\(A\)](#): The goal of this article is to provide every elementary student with the equivalent of thirty minutes of physical activity daily. Beginning in the 2006–07 school year, students in kindergarten through fifth grade must be provided a minimum of one hundred fifty minutes a week of physical education and physical activity. In 2006–07, a minimum of sixty minutes a week must be provided in physical education, and as Section 59-10-20 is phased in, the minimum time for physical education must be increased to ninety minutes a week.

[§59-10-370](#): Each phase of implementation of the Students Health and Fitness Act is contingent upon the appropriation of adequate funding as documented by the fiscal impact statement provided by the Revenue and Fiscal Affairs, formerly the State Budget Office of the State Budget and Control Board. There is no mandatory financial obligation to school districts if state funding is not appropriated for each phase of implementation...

Survey Administration

The South Carolina Department of Education (SCDE) notified all district instructional leaders and elementary school health and fitness coordinators about the mandatory Students Health and Fitness Act Annual Compliance Survey via memorandum on April 9, 2024 (Appendix A), as well as follow-up electronic and phone communications. The Students Health and Fitness Act Annual Compliance Survey required all school physical activity directors to provide the number of minutes allotted to their students per week for both physical education and physical activity (Appendix B).

School Survey Participation

Eighty percent (n=591) of South Carolina public schools with students in any or all grades K–5 responded to the Students Health and Fitness Act Annual Compliance Survey. Conversely, 20 percent (n=147) of South Carolina public schools with students in any or all grades K–5 did not respond to the Students Health and Fitness Act Annual Compliance Survey (Appendix C).

The results reported below were analyzed based on data collected from self-reported physical activity director surveys (Appendix B).

Physical Education and Physical Activity Minutes

Here are the findings for minutes of physical education and physical activity provided to students for the 591 responding schools during the 2023-24 school year:

- 31.3 percent (n=185) reported providing at least 90 minutes per week of physical education
- 29.9 percent (n=177) reported providing at least 90 minutes per week of physical education and at least 150 minutes per week of combined physical education and physical activity
- 0.7 percent (n=4) reported providing at least 90 minutes per week of physical education but did not provide at least 150 minutes per week of combined physical education and physical activity
- 64.9 percent (n=384) reported not providing at least 90 minutes per week of physical education but did provide at least 150 minutes per week of combined physical education and physical activity
- 4.4 percent (n=26) did not report meeting either the 90 minutes of physical education per week or the 150 minutes per week of combined physical education and physical activity

RE: Student Health and Fitness Act Annual Compliance Surveys

The Students Health and Fitness Act (SHFA) (S.C. Code § 59-10-10, et seq.) requires each South Carolina school district to report the number of minutes of daily physical education instruction and the number of minutes of daily physical activity number of minutes per week. Reports must be listed by school, by individual class, and by grade level. Information is compiled in a summary to be presented to the General Assembly by December first of each year.

Each school's physical activity director shall gather the required information from homeroom teachers and report it in the survey. A separate form must be submitted for each school. The form contains an option to enter the number of minutes of dance instruction received by a certified dance education specialist. A value should only be entered if dance instruction is given to all students in a class and is based on the South Carolina Dance Standards and dance components of the South Carolina Physical Education Standards. Dance instruction can account for no more than 25 percent of the total physical education minutes received if all students in a given class participate in the dance instruction.

All data will be entered directly into the online form. Enter your [survey data using this link](#) no later than **5:00 p.m. on June 15, 2024**.

Please contact Ben Miedema at bjmiedema@ed.sc.gov with questions.
