AGENCY’S DISCUSSION AND ANALYSIS

The South Carolina Retirement System Investment Commission (“RSIC”) was established by South Carolina law for the purpose to have exclusive authority for investing and managing all assets held in trust for the participants and beneficiaries of five separate defined benefit plans: (1) South Carolina Retirement System; (2) South Carolina Police Officers Retirement System; (3) Retirement System for Judges and Solicitors of the State of South Carolina; (4) Retirement System for Members of the General Assembly of the State of South Carolina; and the (5) National Guard Retirement System.

RSIC has an unwavering commitment to financial security. The long-term nature of the Retirement System reflects the long-term investing horizon strategy. Each of the defined benefit plans provide lifetime retirement annuities, disability benefits, and death benefits to eligible members and their beneficiaries.

The singular goal of the South Carolina Retirement System Investment Commission is the prudent, legal, and transparent investment of Trust Funds. The intended public benefit/outcome is the effective investment of the fund with the utmost transparency and strict adherence to all legal requirements. Effective investment of the fund results in exceptional total and relative returns while taking a prudent amount of risk. A failure to achieve the goal results in a lower funded level that requires additional funding resources for maintenance of the fund. RSIC relies on its credentialed and experienced Commissioners and staff to design the appropriate asset allocation and manager selection, as well as engaging outside investment consultants, investment partners and systems providers to assist it in achieving its goal.

Effective July 1, 2020, RSIC began implementing a simplified Policy Portfolio consisting of five asset classes: Public Equity, Private Equity, Bonds, Private Debt, and Real Assets. The Policy Portfolio reflects the Commission's long-term mix of assets it believes produces the investment return necessary to support benefit payments to our current and future retirees. RSIC staff also adds value by managing the mix of assets to take advantage of changing economic and market conditions. In addition, RSIC’s investment approach is predicated upon prudently managing costs and fees and ensuring that our investment portfolio is risk-focused and diversified.

For the fiscal year ending June 30, 2024, RSIC achieved positive annualized investment performance of 10.49%, 5.34%, 8.14%, and 6.66% over the trailing 1, 3, 5, and 10-year periods respectively. The investment performance for all time periods also exceeded RSIC’s policy benchmark by 128 bps, 233 bps, 163 bps, and 68 bps respectively which resulted in \$482 million, \$2.91 billion, \$3.27 billion, and \$2.76 billion of cumulative outperformance over these time periods.

RSIC’s assets under management increased to \$44.87 billion, after starting the fiscal year at \$40.62 billion which includes the offsetting impacts of \$4.2 billion in investment performance and \$33 million in net benefit payments.

Agency Mission

Adopted in:

2005

The Retirement System Investment Commission (RSIC) has exclusive authority for investing and managing all assets held in trust for the participants and beneficiaries of the five state defined benefit plans. Those plans include the South Carolina Retirement System (SCRS), the Police Officers Retirement System (PORS), the Judges and Solicitors Retirement System (JSRS), the General Assembly Retirement System (GARS), and the South Carolina National Guard Supplemental Retirement Plan (SCNG Plan). Each plan provides lifetime retirement annuities, disability benefits, and death benefits to eligible members and their beneficiaries.

Agency Vision

Adopted in:

2005

The vision of the Commission is to be a world class investment organization that pursues strategies that contribute positively to the financial health of the Retirement System. The Commission strives for an optimal mix of assets to best achieve long-term stated return objectives. Through active management of a mixture of assets against the current economic environment, business cycle, and market conditions, value is constantly added to the evolving portfolio. With the help of retained investment consultants, a central part of the Commission's investment approach is predicated on prudently managing costs and fees and ensuring a risk-focused and diversified investment portfolio.
