The Senate Amendments were agreed to, and the Bill having received three readings in both Houses, it was ordered that the title be changed to that of an Act, and that it be enrolled for ratification.

RECORD FOR VOTING

The Senate amended H. 3126 by adding Section 10, which reauthorizes the COVID-19 Liability Protection Act. The Act, which I opposed when it was passed, was used as legal rationale for imposing school mask mandates. While this Bill was well intentioned, Section 10

poses a significant future threat to medical freedom. Therefore, I voted not to concur with the Senate version of the Bill.

POINT OF ORDER

Rep. RUTHERFORD raised the Point of Order under Rule 5.13 that the fiscal impact statement to H. 5183 was insufficient, did not provide needed information, and did not comply with the Rule.

The SPEAKER *PRO TEMPORE* overruled the Point of Order. He stated that nothing in the Rule stated that specific information was necessary to make a fiscal impact statement sufficient or complete. He explained that a question of the fiscal impact statement's sufficiency was a policy question that could be made by a member upon discussion of the Bill.

Provide for us, Your people, Your blessings upon our World, Nation, President, State, Governor, Speaker, Staff, and all who serve in this Assembly. / SECTION 1. Title 11 of the 1976 Code is amended by adding:

"CHAPTER 58

South Carolina Opioid Recovery Act

Section 11-58-10. (A) This act may be cited as the 'South Carolina Opioid Recovery Act'.

(B) The purpose of this act is to ratify and implement the necessary terms of certain opioid-related settlements entered into by the State of South Carolina and its participating political subdivisions by:

(1) creating the South Carolina Opioid Recovery Fund from which money will be distributed to help address and remediate opioid-related issues;

(2) creating the South Carolina Opioid Recovery Fund Board to administer and distribute money in the South Carolina Opioid Recovery Fund; and

(3) barring future claims by state and local governmental entities against certain companies which have entered into opioid-related settlements with the State of South Carolina.

Section 11-58-20. For purposes of this chapter:

(1) 'Administrative Subfund' means the subaccount or subaccounts with the State Treasurer created pursuant to this chapter where certain funds in the South Carolina Opioid Recovery Fund are expended by the South Carolina Opioid Recovery Fund Board and the State Fiscal Accountability Authority to pay for costs associated with administering this chapter.

(2) 'Approved abatement strategies' means those measures to address and remediate opioid-related issues that are set forth in opioid-related settlements between the State of South Carolina, its participating political subdivisions, and certain companies that market, promote, distribute, dispense, or supply opioids and incorporated herein.

(3) 'Discretionary Subfund' means the subaccount or subaccounts with the State Treasurer created pursuant to this chapter where certain funds in the South Carolina Opioid Recovery Fund are distributed by the South Carolina Opioid Recovery Fund Board in its discretion to qualified applicants for approved abatement strategies.

(4) 'Guaranteed Political Subdivision Subfund' means the subaccount or subaccounts with the State Treasurer created pursuant to this chapter where certain funds in the South Carolina Opioid Recovery Fund guaranteed to participating political subdivisions are distributed by the South Carolina Opioid Recovery Fund Board to qualified applicants for approved abatement strategies.

(6) 'South Carolina Opioid Recovery Fund' means the account or accounts with the State Treasurer created pursuant to this chapter to receive funds obtained through settlement with or judgment against certain companies that market, promote, distribute, dispense, or supply opioids. These funds are not general fund revenue of the State and must be kept by the State Treasurer in a distinct and separate unbudgeted trust and agency fund apart from the general fund. These funds are to be administered pursuant to this chapter and expended only for the purposes provided in this chapter. For the avoidance of doubt, the Administrative Subfund, the Discretionary Subfund, and the Guaranteed Political Subdivision Subfund are part of the South Carolina Opioid Recovery Fund.

(7) 'South Carolina Opioid Recovery Fund Board' or 'the board' means the entity created pursuant to this chapter for the purpose of administering and distributing the funds within the South Carolina Opioid Recovery Fund.

Section 11-58-30. (A) The State Treasurer shall establish the South Carolina Opioid Recovery Fund. This fund must be held and maintained separately from all other funds, properties, assets, and accounts of the State and its other agencies.

(B) The South Carolina Opioid Recovery Fund shall receive money from certain opioid-related settlements entered into by the State of South Carolina and its participating political subdivisions pursuant to the terms of an agreement between the Attorney General and the participating political subdivisions. The Attorney General and participating political subdivisions may direct funds from future opioid-related settlements or judgments to the South Carolina Opioid Recovery Fund.

(C) All funds in the South Carolina Opioid Recovery Fund must be spent on approved abatement strategies, except that up to two percent of funds deposited into the South Carolina Opioid Recovery Fund pursuant to subsection (B) may be allocated by the South Carolina Opioid Recovery Fund Board to the Administrative Subfund for the purpose of administering this chapter.

(D) The State Auditor shall conduct an annual examination of the South Carolina Opioid Recovery Fund and provide a report of its findings to the South Carolina Opioid Recovery Fund Board and the State Fiscal Accountability Authority.

(E) The State Treasurer may invest funds held in the South Carolina Opioid Recovery Fund for the sole benefit of that fund.

(F) The State Inspector General may investigate and address allegations of fraud, waste, abuse, mismanagement, misconduct, violations of state or federal law, and wrongdoing relating to the South Carolina Opioid Recovery Fund. If any such allegations come to the attention of the board or its staff, immediate notice of the relevant facts must be transmitted to the State Inspector General.

Section 11-58-40. (A) The State Treasurer shall establish the Discretionary Subfund within the South Carolina Opioid Recovery Fund.

(B) The South Carolina Opioid Recovery Fund Board may authorize payments from the Discretionary Subfund to requesting entities, if all of the following requirements are met:

(1) the request complies with all application requirements set out by the board;

(2) the request is for an approved abatement strategy;

(3) sufficient funds to pay the request are in the Discretionary Subfund; and

(4) the request is, in the judgment and discretion of the board, an appropriate, reasonable, and merited use of funds to help address issues caused by opioids.

(C) The board may approve, deny, or defer any request. The board may establish criteria for evaluating competing requests for payments from the Discretionary Subfund. The board may, but is not required to, provide its grounds for denying a request for funds from the Discretionary Subfund.

(D) All decisions of the South Carolina Opioid Recovery Fund Board to authorize payment from the Discretionary Subfund are final and not subject to appeal or judicial review.

Section 11-58-50. (A) The State Treasurer shall establish the Guaranteed Political Subdivision Subfund within the South Carolina Opioid Recovery Fund.

(B) The South Carolina Opioid Recovery Fund Board shall authorize payments from the Guaranteed Political Subdivision Subfund to requesting entities, if all of the following requirements are met:

(1) the request complies with all application requirements set out by the board;

(2) the request is for an approved abatement strategy;

(3) the request is made by the governing body of a participating political subdivision or another entity with written authorization from the governing body of a participating political subdivision; and

(4) sufficient funds to pay the request are in the Guaranteed Political Subdivision Subfund and set aside for use by that participating political subdivision.

(C) If the board denies a request under this section, it promptly shall notify the participating political subdivision that requested or authorized the request for funds and provide its grounds for denying the request.

(D) Any legal challenge to a decision of the South Carolina Opioid Recovery Fund Board denying payment from the Guaranteed Political Subdivision Subfund must be brought as a declaratory judgment action in the court of common pleas in Richland County by the participating political subdivision directly.

Section 11-58-60. (A) The State Treasurer shall establish the Administrative Subfund within the South Carolina Opioid Recovery Fund.

(B) Funds allocated to the Administrative Subfund by the South Carolina Opioid Recovery Fund Board may be expended by the board and the State Fiscal Accountability Authority to pay for the costs associated with administering this chapter, in accordance with a budget adopted or amended pursuant to Section 11-58-80(E).

(C) The board may authorize the State Treasurer to transfer funds from the Administrative Subfund to the South Carolina Opioid Recovery Fund at any time.

Section 11-58-70. (A) The South Carolina Opioid Recovery Fund Board is hereby created as an independent, quasi-governmental agency responsible for the purpose of managing the South Carolina Opioid Recovery Fund. The board is not an 'agency' or 'state agency' as defined in Chapter 23, Title 1.

Members of the board must not have been convicted of a felony or a crime of moral turpitude.

(2) In making appointments, race, gender, national origin, and other demographic factors should be considered by the appointing

authority to ensure nondiscrimination to the greatest extent possible as to all segments of the population of the State.

(D) Members of the South Carolina Opioid Recovery Fund Board shall not be compensated for their services except as provided in Section 11-58-80(C).

(3) for all subsequent members of the board, four years.

All terms of members are deemed to commence on May first of the appointing year and expire on April thirtieth of the ending year.

Members of the board may continue to serve upon the expiration of their terms until either reappointed or a new appointment is made. Any vacancy on the board caused by the death, incapacity, or resignation of a member shall be filled for the unexpired term in the same manner as the original appointment.

(3) adopt bylaws that shall include, among other things, a conflicts of interest policy.

(H) All members of the South Carolina Opioid Recovery Fund Board shall be required to attend all meetings unless notice and

justification for the absence is provided to the chairperson. Absences are subject to Section 1-3-245.

(I) The board shall have the power to adopt, promulgate, amend, and repeal regulations and bylaws. The board shall not enact regulations, bylaws, or other items that are inconsistent with the terms of any court order or opioid-related settlement, or any agreement between the Attorney General and participating political subdivisions that pertains to any opioid-related settlement.

(J) The South Carolina Opioid Recovery Fund Board shall prepare and publish, on or before July first of each year, an annual report of all funds spent from the South Carolina Opioid Recovery Fund.

(O) The South Carolina Opioid Recovery Fund Board shall remain in existence until all funds in the South Carolina Opioid Recovery Fund have been exhausted, no new funds are expected, and the board has satisfied all reporting obligations in any settlement that has provided funds to the South Carolina Opioid Recovery Fund.

(P) Before authorizing payments from the Discretionary Subfund to a requesting entity, the board may require that the entity has the appropriate financial, material, equipment, facility, and personnel resources and expertise, or the ability to obtain them, necessary to indicate its ability to meet all requirements established by the board; a satisfactory record of performance; and a satisfactory record of integrity.

(Q) The board has the duty and authority to regulate the expenditure by requesting entities of authorized payments from the Discretionary Subfund to ensure authorized payments are used only for approved purposes, to facilitate accountability for their use, and to prevent fraud, waste, abuse, mismanagement, and misconduct.

(R) The board may enter assistance agreements with each requesting entity approved to receive authorized payments from the Discretionary Subfund. These agreements are enforceable. Section 11-58-80. (A) The State Fiscal Accountability Authority is solely responsible for all administrative operations of the South Carolina Opioid Recovery Fund Board. Administrative operations may include, but are not limited to, finance, human resources, procurement, clerical, and associated support services. The authority's executive director shall employ and supervise personnel necessary to provide any required administrative operations. The authority's executive director is authorized to pay for and receive from other state and local agencies and departments such services as will in his opinion promote the efficient and economical provision of administrative operations to the board. The authority will not provide legal services to the board or its staff. The board must retain ultimate responsibility and provide proper oversight for the implementation of this chapter.

(B) The State Fiscal Accountability Authority shall receive compensation for expenses incurred in providing administrative operations to the South Carolina Opioid Recovery Fund Board from the Administrative Subfund. With the approval of the board, staff of the

authority shall enter into contracts and agreements on behalf of the board to implement this chapter. The Administrative Subfund may be used to satisfy any obligations of the board pursuant to such contracts and agreements.

(C) When attending meetings that require travel, members of the South Carolina Opioid Recovery Fund Board and staff assigned to the board by the authority or the Attorney General may receive the usual rate for mileage, subsistence, and per diem as provided by law for members of state boards, committees, and commissions and may be reimbursed for actual and necessary expenses incurred in connection with and as a result of their work as members of the board or support for the members of the board. The board, within the limits set by the Comptroller General, shall establish reimbursement standards for travel and other expenses incurred in aid of the board's official duties. Compensation and reimbursements paid under this subsection shall be paid from the Administrative Subfund.

(D) The Attorney General shall designate an attorney within the Office of Attorney General to attend all South Carolina Opioid Recovery Fund Board meetings, to provide all necessary legal services to the board, to ensure that funds within the South Carolina Opioid Recovery Fund are spent only on approved abatement strategies, and to ensure that the board complies with all applicable laws, settlement agreements, and court orders.

(E) The South Carolina Opioid Recovery Fund Board shall prepare and publish an annual budget for administrative costs and expenses and publish an annual report of these expenditures. The annual budget may be amended as necessary.

(2) a political subdivision, including but not limited to, counties and municipalities;

(3) a school district;

(4) a health district;

(5) a hospital district;

(B) This section shall not infringe upon the power of the Attorney General or any participating political subdivision to enforce the terms of any such settlement agreement or judgment.

Section 11-58-100. This act and all powers granted by this chapter must be liberally construed to effectuate its intent and their purposes, without implied limitations on them. This chapter constitutes full and complete authority for all things herein contemplated to be done. All rights and powers granted in this chapter shall be as cumulative with those derived from other sources and shall not, except as expressly stated in this chapter, be construed in limitation thereof. Insofar as the provisions of this chapter are inconsistent with the provisions of any other act, general or special, the provisions of this chapter are controlling. If any clause, sentence, paragraph, section, or part of this chapter be adjudged by any court of competent jurisdiction to be invalid, this judgment shall not affect, impair, or invalidate the remainder of this chapter but is confined in its operation to the clause, sentence, paragraph, section, or part of the chapter directly involved in the controversy in which the judgment shall have been rendered."

SECTION 2. If any section, subsection, paragraph, subparagraph, sentence, clause, phrase, or word of this act is for any reason held to be unconstitutional or invalid, then such holding shall not affect the constitutionality or validity of the remaining portions of this act, the General Assembly hereby declaring that it would have passed this act, and each and every section, subsection, paragraph, subparagraph, sentence, clause, phrase, and word thereof, irrespective of the fact that any one or more other sections, subsections, paragraphs, subparagraphs, sentences, clauses, phrases, or words hereof may be declared to be unconstitutional, invalid, or otherwise ineffective.

SPEAKER *PRO TEMPORE* IN CHAIR

RESIGNATION

The following was received:

The Honorable Charles F. Reid
Clerk of the House of Representatives
Room 213, Blatt Building
Columbia, SC 29211

Dear Charles:

Please accept this letter as my resignation from the office of Speaker of the House of Representatives effective as of 5:00 p.m. on Thursday, May 12, 2022. I submit this resignation with great thoughtfulness and appreciation as I look back upon my service in this honorable position.

As you are aware, I am not seeking re-election to the House of Representatives. Consequently, I believe that it is in the best interest of both our State and this Body that we begin an orderly transition of leadership and responsibilities.

Through the years, I have been privileged to serve in many roles in the South Carolina House: as a member of the Medical, Military, Public and Municipal Affairs Committee, as a member of the Agriculture and Natural Resources Committee, as a member of the Judiciary Committee, as a member of the Ways & Means Committee, as Speaker *Pro Tempore*, as Acting Speaker and ultimately as Speaker. It has been both the honor and privilege of my lifetime to serve this Body for 24 years.

I leave the office of Speaker knowing that this institution, its membership, and its staff are in good hands. It is time for new leadership. May God bless all of those who serve the House and may God bless South Carolina.

Sincerely,
James H. Lucas
Speaker of the House
Received as information.

MOTION ADOPTED

Rep. FORREST moved that when the House adjourns, it adjourn in memory of Cayce Police Officer Drew Barr, which was agreed to.

Police Officer Drew Barr

I ask that when we adjourn today that we do so in memory of Cayce Police Officer Drew Barr who was killed in the line of duty Sunday morning.

His hometown was Batesburg-Leesville, and he was currently living in Monetta where he served as a volunteer fireman and EMT. He was the epitome of a public servant who selflessly gave back. He leaves behind his mother, father, and sister who will greatly miss him, and he will be missed by countless others whose lives he touched.

I asked that we take a moment to lift his family up in prayer.

Mrs. Elizabeth Ford

A lifetime of serving others through our school district, serving as the pastor's secretary at First Baptist Church, she completed 35 domestic and international mission trips, always giving of her time and talents, sharing her Christian faith.

Elizabeth Ford loved her hometown and worked for many years in researching, planning, and fundraising for the Fort Mill History Museum that opened on December 6, 2012. Later, the museum moved to its current historic home on Clebourne Street.

Elizabeth Ford is woven into the fiber of our community. Her memory, the seeds she planted, will forever grace the quality of life we all cherish in our community.

Elizabeth is survived by her sons, Shannon, Marty, and Jason, and six grandchildren and two great-grandchildren.

Mr. Speaker, I respectfully request these words be printed in today's Journal in memory of an outstanding South Carolinian, Mrs. Elizabeth Ford.

Personhood

Section 1-1-310. This article may be cited as the 'Personhood Act of South Carolina'.

Section 1-1-320. The General Assembly finds as follows regarding the sanctity of life:

(A) The General Assembly acknowledges that the July 4, 1776 Declaration of Independence is one of the Organic Laws of the United States of America found in the United States Code.

(B) The General Assembly acknowledges that all persons are endowed by their Creator with certain unalienable rights.

(C) The General Assembly acknowledges that personhood is God-given, as all men are created in the image of God.

(D) The General Assembly finds that the Preamble to the Constitution of the State of South Carolina contains the sovereign peoples' acknowledgment of God as the source of constitutional liberty, saying: 'We the people of the State of South Carolina, in Convention assembled, grateful to God for our liberties, do ordain and establish this Constitution for the preservation and perpetuation of the same'.

(E) The General Assembly finds that a human being is a person at fertilization.

Section 1-1-330. (A) Notwithstanding another provision of law, the right to life for each born and preborn human being vests at fertilization.

(B) The rights guaranteed by Article I, Section 3 of the Constitution of this State, that no person shall be deprived of life without due process of law nor denied the equal protection of the laws, vest at fertilization for each born and preborn human being.

Section 1-1-340. (A) Nothing in this article shall be construed to prohibit a licensed physician from performing a medical procedure or providing medical treatment designed or intended to prevent the death of a pregnant woman. However, the physician shall make reasonable medical efforts under the circumstances to preserve both the life of the mother and the life of the preborn human being in a manner consistent with accepted medical standards. Under such circumstances, the accidental or unintentional injury or death to the preborn human being is not a violation of this article. The threat of the death of a pregnant

woman must not be based on a diagnosis or claim of a mental or emotional condition of the pregnant woman or a diagnosis or claim that the pregnant woman will purposefully engage in conduct that she intends to result in her death. The provisions of this section must not be construed to authorize the intentional killing of a preborn human being.

(B) Nothing in this article shall be construed to prohibit contraception. As used in this subsection, 'contraception' is defined as the prevention of fertilization.

(C) Nothing in this article shall be construed to prohibit in vitro fertilization or assisted reproductive technology. The authority to regulate in vitro fertilization and assisted reproductive technology procedures is reserved by the Legislature.

POINT OF ORDER

Rep. HART raised the Point of Order that Amendment No. 92 was not germane to H. 4568. Rep. HART argued that the Amendment did not have the same substantial effect as the Bill.

Rep. MAGNUSON argued contra.

Rep. HART stated that the Bill's substantial effect was to require abortion patients to be notified of medical procedures that could reverse an abortion procedure, but that the Amendment concerned the establishment of personhood. He argued that the Amendment's effect went beyond the scope of the Bill.

SPEAKER *PRO TEMPORE* POPE sustained the Point of Order and stated that Amendment No. 92 went beyond the scope of the Bill and was not germane to the Bill.

Rep. MAGNUSON proposed the following Amendment No. 93 to H. 4568 (COUNCIL\VR\4568C019.CC.VR22), which was tabled:

Amend the bill, as and if amended, by adding an appropriately numbered SECTION to read:

/ SECTION __. A. Title 44 of the 1976 Code is amended by adding:

"CHAPTER 139

Prohibition of Abortions

Section 44-139-10. For the purposes of this chapter:

(1)(a) 'Abortion' means:

(i) the use, distribution, dispensing, or delivering of any instrument, medicine, drug, or any other substance or device intended to intentionally kill the unborn baby of a woman known or suspected to be pregnant; and

(ii) an omission of a statutorily required act, that, under the circumstances as the actor believes them to be, constitutes a substantial step in a course of conduct planned to culminate in the death of the unborn baby of a woman known or suspected to be pregnant.

(b) The definition of 'abortion' does not include a medical procedure performed by a physician to:

(i) save the life or preserve the health of an unborn baby;

(ii) remove a dead unborn baby caused by a spontaneous abortion; or

(iii) treat an ectopic pregnancy.

(2) 'Attempt to perform or induce an abortion' means an act, or an omission of a statutorily required act, that, under the circumstances as the actor believes them to be, constitutes a substantial step in a course of conduct planned to culminate in the performance or induction of an abortion in this State in violation of this chapter.

(3) 'Fertilization' means the fusion of a human spermatozoon with a human ovum.

(4) 'Physician' means any person licensed to practice medicine and surgery or osteopathic medicine and surgery in this State.

(5) 'Unborn baby' means an individual human being from fertilization until live birth.

(6) 'Woman' means a female human being whether or not she has reached the age of majority.

Section 44-139-20. It is unlawful for a person to participate in the performance or induction of, or participate in an attempt to perform or induce, an abortion in this State.

Section 44-139-30. A person convicted of participating in the performance or induction of an abortion must be punished in the same manner as provided in Section 16-3-20. Notwithstanding the provisions of this section, the prosecuting agency in determining the appropriate criminal charge, if any, against a woman upon whom an abortion is performed must consider the level of cooperation by that woman in the prosecution of any other person violating this chapter; provided,

however, if the pregnancy resulted from rape or incest, the woman may not be charged with an offense that carries a higher penalty than the person charged with the act of rape or incest.

Section 44-139-40. A person convicted of participating in an attempt to perform or induce an abortion must be punished in the same manner as provided in Section 16-3-29. Notwithstanding the provisions of this section, the prosecuting agency in determining the appropriate criminal charge, if any, against a woman upon whom an abortion is performed must consider the level of cooperation by that woman in the prosecution of any other person violating this chapter; provided, however, if the pregnancy resulted from rape or incest, the woman may not be charged with an offense that carries a higher penalty than the person charged with the act of rape or incest.

Section 44-139-50. (A) Nothing in this chapter shall be construed to prohibit a physician from performing a medical procedure or providing medical treatment designed or intended to prevent the death of a pregnant woman, including delivering the unborn baby prematurely if necessarily concomitant with the lifesaving intervention. However, a physician shall make reasonable medical efforts under the circumstances to preserve both the life of the mother and the life of the unborn baby in a manner consistent with accepted medical standards. Under such circumstances, the accidental or unintentional injury to or death of the unborn baby is not a violation of this chapter. A physician's understanding of a risk of death for a pregnant woman must not be based on a diagnosis or claim of a mental or emotional condition of the pregnant woman or a diagnosis or claim that the pregnant woman will purposefully engage in conduct that she intends to result in her death. The provisions of this section must not be construed to authorize the intentional killing of an unborn baby.

(B) Nothing in this chapter shall be construed to prohibit contraception. As used in this subsection, 'contraception' is defined as the prevention of fertilization."

B. The provisions contained in this SECTION shall take effect upon the certification by the Attorney General to the Governor, the President of the Senate, and the Speaker of the House of Representatives that:

(1) the United States Supreme Court has overruled, in whole or in part, *Roe v. Wade*, 410 U.S. 113 (1973), that has the effect of acknowledging that the State of South Carolina has the authority to regulate abortion to the extent set forth in this act;

(2) an amendment to the United States Constitution has been adopted that has the effect of acknowledging that the State of South

Carolina has the authority to regulate abortion to the extent set forth in this act; or

(3) the United States Congress has enacted a law that has the effect of acknowledging that the State of South Carolina has the authority to regulate abortion to the extent set forth in this act." /

Dear Mr. Reid:

Please accept this letter resigning both my membership in the House Ways & Means Committee and as Chairman of the House Ways & Means Committee effective 5:00 p.m. on Thursday, May 12, 2022. The SPEAKER *PRO TEMPORE* announced that nominations were in order for a SPEAKER.

Rep. LUCAS nominated Rep. GEORGE MURRELL SMITH, JR., of Sumter, as follows:

Mr. Speaker, ladies and gentlemen of the House, distinguished guests; it is a privilege to stand before you today to nominate my friend, George Murrell Smith, Jr., for Speaker of the South Carolina House of Representatives.

The role of House Speaker is a great honor and a great responsibility that carries with it a distinguished history. Today, as we near the end of the 124th session of this General Assembly, we must focus on selecting the best person among our membership to lead this Body and our State into the future.

Let us never forget that the Body we serve in is special. We are the "People's House"; elected by the people we serve as the finest representation among them. The Speaker, therefore, should be elected as the finest among us. A leader elected by their peers - by their equals - is a high accolade in any institution. In the British Parliament, there is a Latin phrase used to describe the constitutional status of the Prime Minister. The literal translation of this phrase is "First Among Equals."

While we are not Parliament, contrary to what our friends across the hall may think, I believe this term applies to the decision before us today.

Our peers include a diverse collection of extraordinary public servants representing all of our state's citizens. And Murrell has truly distinguished himself in this Body as a "First Among Equals."

After twenty-four years in elected office, I have learned that power is not willingly shared in Columbia. Murrell, however, understands that this Body functions best when each member is personally involved. You need look no further than his most recent tenure as Chairman of the Ways and Means Committee. They say the best evidence of what someone will do, is what they have done. If Murrell's past leadership is the prologue to his future leadership, his Speakership will be one of success.

Personally, I have had the privilege of working closely with Murrell over the past twenty-one years, and I have learned a great deal about his character and skill. I have seen the dedication he gives, not only to our State and to this Body, but to each and every member seated in this Chamber today. Douglas MacArthur notes that, "A true leader has the confidence to stand alone, the courage to make tough decisions, and the compassion to listen to the needs of others." Murrell does all three.

When some of us leave this Chamber and fresh faces arrive, the world will not stop. The issues our State faces will not disappear. I invite this Body to embrace its new chapter. Charles Kettering said, "The world hates change, yet it is the only thing that has brought progress."

So, while "the pessimist complains about the wind and the optimist expects it to change, the leader adjusts the sails (John Maxwell)."

I know Murrell is the right person to steer our ship and guide it on the best course for our beloved State.

Fellow Members of the 124th General Assembly, it is for these reasons and many others that I am honored to nominate our friend, George Murrell Smith, Jr., for Speaker of the South Carolina House of Representatives.

Thank you and may God continue to guide our decisions and our service to the people of South Carolina.

On motion of Rep. LUCAS, nominations were closed, and with unanimous consent, the vote was taken by acclamation, resulting in the election of the nominee.

RECORD FOR VOTING

I am a supporter of Representative Murrell Smith of Sumter County. I pledged my support to him before the election; however, I was on excused leave when the vote for his election as Speaker of the House was held. Had I been present I would have voted for Representative Murrell Smith as Speaker.

Sincerely,
Representative Rosalyn Henderson-Myers, Esq.
SC House District 31

The SPEAKER *PRO TEMPORE* appointed Reps. WEEKS, DILLARD, STAVRINAKIS, SIMRILL, THAYER and MURPHY to escort SPEAKER-ELECT GEORGE MURRELL SMITH, JR., to the desk where the oath of office was administered to him by the CLERK of the House.

SPEAKER-ELECT GEORGE MURRELL SMITH, JR., thereupon took the Chair and addressed the House as follows:

As many times as I have stood before this Chamber, I can honestly say I have never had a view like this one. I am awed and humbled by the honor that each of you have just bestowed upon me. It is the honor of a

lifetime to be chosen by the women and men I serve with to be Speaker of this House.

I promise you all, I will work tirelessly, every day, to live up to the privilege, to continue to earn your faith and trust and to work for the collective betterment of all of South Carolina.

Twenty-one years ago, when I was elected to the House and joined Jim McGee, Gary Simrill and Jay Lucas in an office in the Blatt Building, I never could have imagined what the future would hold. I know it is hard to believe, but the four of us were not the most serious in those days. We did not know much and we did not have a lot of responsibility so our suite became something of a hangout spot. We would get visits from a lot of other new members, and we had a lot of fun. We will still tell stories and share laughs from that era as long as we live.

What I realize now, is that those days were some of the most important in my time here. What made that time so special is that we were getting to know each other as people - not as politicians, not as members of a party, but as friends.

The bonds created then and since with so many of you have endured and have been personally meaningful and indispensable to my service here. Issues and bills will come and go, but the unique experience of serving with our colleagues will last a lifetime.

As I stand here today, I have so many to thank.

I would, first and foremost, like to thank the people of District 67 and Sumter County. But for them, this day would not be possible. I am humbled by their continued and steadfast faith in me.

I would also like to thank our outgoing Speaker and my friend, Jay Lucas. For eight years Speaker Lucas has led with competence, dignity, and kindness. He was always willing to listen to each and every member, whether it was a committee chairman or a freshman. His work ethic is second to none and he has never shied away from tough issues. He is one of the smartest men I know.

He leaves a legacy that is significant to the history of not only this Chamber but this State. He has left South Carolina better than he found it. He is a true public servant.

My most important gratitude and appreciation goes to, of course, my family. Many of them are with us today in the balcony. They have been by my side for the good days and the bad — the wins and the losses. My father always told me, when I was young, that friends come and go, but your family will always be there for you. The older I become, the more that proves true.

We often like to discuss our own sacrifices – time away from home, long hours on the floor, traveling every week– but they pale in comparison to the sacrifices our families make for our service.

My children, Bee and Murrell are two of the most intelligent, accomplished, and resilient kids who take it all in stride. I am so proud of them, and I give the entirety of the credit for the fine people they have grown to be to their mother, my wife, Macaulay.

Macaulay makes it all happen in all of our lives. We all know that I am definitely her most difficult assignment. I do not know how she does it. She marshals the home front and is my chief political advisor. She is my confidant and my motivator. When we met, I was already serving in the House so this is the only life with me she has ever known. I cannot express enough how lucky I am that she has chosen to be by my side all of these years.

Her love and commitment to our family is the only reason I am able to do any of the things I do. Thank you, Macaulay.

Like everyone, I am a product of my background and how I was raised.

While I had a fortunate upbringing, it did not begin that way. I grew up in a blue-collar neighborhood in Charleston. My dad was in medical school and my mom was a teacher. My playmates were the sons of hard-working men from all walks of life. We made our own fun as we roamed the neighborhood without care and learned the hard lessons of life at an early age.

Later we moved to Sumter, a rural county that I dearly love, that is still a blending of populations. I grew up, played ball, and went to church with people of nearly every race and socioeconomic levels. Living in a rural South Carolina means living with everyone.

It humbles and grounds you. It gives you a deeper and more personal perspective on people. You forget your differences and you realize how much you have in common.

As a young lawyer, I was a public defender. I quickly learned that the justice system demands that everyone is entitled to vigorous representation, even those who had done terrible things. I soon began to notice that no matter how hard of an exterior they showed me, whenever they saw “Mama,” they cried.

It taught me that there is always a person, and a story, behind the façade. These experiences and lessons have impacted how I live and how I legislate.

Ronald Reagan once said, “If we love our country, we should also love our countrymen.” No matter how different we all may be, at our core,

we are all united. Just as we in this Body all have our differences, we reflect the diversity of the people that we serve, and we must be here to serve all South Carolinians.

I promise you today, I will not be the Speaker for one party, one region, but for the entire House and all the people of South Carolina. I will work to serve all of you and all of our constituents.

As your Speaker, my commitment is that my door is and will always be open to you. Each one of us is elected by the same amount of people of this State and every member deserves a voice in the work we do here. I believe this Body should operate with a spirit of collaboration and collegiality but most importantly with mutual respect for all.

One of my predecessors in the House from Sumter was former Speaker, Ramon Schwartz, some of his family has joined us in the balcony this morning. After considering running for office as a young attorney, I sought out Speaker Schwartz's advice. He encouraged me to run but did not support me in my first campaign because my opponent was his law partner. As soon as the election was over, he was the first person to call me and offer his support. This immediate willingness to work together made a profound impression on me, and he quickly became a mentor.

He gave me excellent advice on how I should conduct myself as a new House member: Learn the rules. Get to know the staff and treat them well. Do your homework. Be forthright. Don't speak unless you have something important to say. Build trust and respect with your colleagues. Do not sow discord between members.

I have tried to follow those rules as I have had the privilege to chair various subcommittees and, later, two standing committees. In that time, I have been in the trenches on some very tough issues. I have won many and I have lost many more.

But, titles are not important to me. Credit is not important to me. The work we do for this institution, the work we do together, is what really matters. Harry Truman captured this in saying, "It is amazing what you can accomplish if you do not care who gets the credit."

The linchpin, in my opinion, to achieve success, as a collective Body is to work together and to find consensus. There has to be give and take on each side to reach a compromise for the greater good of the State. We must remember our constituents and what is in their best interests. Speaker Sol Blatt expressed this in stating "Balance is the key to success in practically every human undertaking; Balance is not something which can be attained and rested upon…it is as fluid and changing as the new problems we face from day to day, and from year to year. "

This Chamber has a proud and storied history. Everyone sitting in these desks shares in that legacy. We have been entrusted as temporary guardians of this proud institution. It has endured before us and will continue to endure.

It is our solemn duty, our privilege, to endeavor to make our State better for the generations that come after.

Now let's get to work, together, for the future of South Carolina.

Rep. SIMRILL moved that the House do now adjourn, which was agreed to.

Amend the bill, as and if amended, by adding an appropriately numbered SECTION to read:

/ SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:

(a) 1 - 39,999 voters: one location
(b) 40,000 - 79,999 voters: two locations
(c) 80,000 - 119,999 voters: three locations
(d) 120,000 - 159,999 voters: four locations
(e) 160,000 - 199,999 voters: five locations

(f) 200,000 - 239,999 voters: six locations
(g) 240,000 voters and up: seven locations

(2) The size of the county in square miles:
(a) 0-199 square miles: one location
(b) 200-399 square miles: two locations
(c) 400-599 square miles: three locations
(d) 600-799 square miles: four locations
(e) 800-999 square miles: five locations
(f) 1000-1199 square miles: six locations
(g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

(I) Each early voting center must have available every ballot style in use in the particular county for that election."

(B) A candidate may not file more than one statement of intention of candidacy for a single office for the same election.

"Section 7-15-340. (A) The application required in Section 7-15-330 to be submitted to these election officials must be in a form prescribed and distributed by the State Election Commission; except that persons listed in Section 7-15-320(2), (3), (6), and (10) may use Standard Form 76, or any subsequent form replacing it, provided by the federal government as a simultaneous request for registration and an absentee ballot or a request for an absentee ballot if already registered.

A candidate or a member of a candidate's paid campaign staff including volunteers reimbursed for time expended on campaign activity is not permitted to serve as an authorized returnee for any person unless the person is a member of the voter's immediate family as defined in Section 7-15-310. The oath set forth in Section 7-15-380 must be signed and witnessed on each returned envelope. All return-addressed envelopes received by the county board of voter registration and elections before the time for closing the polls must be examined in this manner. A ballot may not be counted unless the oath is properly signed and witnessed nor may any ballot be counted which is received by the county board of voter registration and elections after time for closing of the polls. The printed instructions required by Section 7-15-370(2) to be sent each absentee ballot applicant must notify him that his vote will not be counted in either of these events. If any ballot is challenged, the return-addressed envelope must not be opened, but must be put aside and the procedure set forth in Section 7-13-830 must be utilized; but the absentee voter must be given reasonable notice of the challenged ballot. The processes of examining the return-addressed envelopes, opening the sealed return-addressed envelopes to remove the 'Ballot Herein' envelopes, and removing the ballots from the 'Ballot Herein' envelopes for tabulation must be conducted in the presence of any candidate who elects to be present, and of any watchers who have been appointed pursuant to Section 7-13-860. Provided, any candidates or watchers present must be located a reasonable distance in order to maintain both the right to observe and the secrecy of the ballots.

(B) Results of the absentee ballot tabulation must not be publicly reported until after the polls are closed. An election official, election worker, candidate, or watcher who intentionally violates the prohibition contained in this subsection is guilty of a felony and, upon conviction, must be fined not more than one thousand dollars or imprisoned not more than five years."

(2) Form of application. — The application must be on a form prescribed and provided by the executive director and shall contain the following information: name, sex, race, social security number, date of birth, residence address, mailing address, telephone number of the applicant, and location of prior voter registration. The applicant must affirm that he is not under a court order declaring him mentally incompetent, confined in any public prison, has never been convicted of a felony or offense against the election laws, or if previously convicted that he has served his entire sentence, including probation and parole time, or has received a pardon for the conviction. Additionally, the applicant must take the following oath: 'I, do solemnly swear (or affirm) that I am a citizen of the United States and that on the date of the next ensuing election, I will have attained the age of eighteen years and am a resident of South Carolina, this county, and of my precinct. I further swear (or affirm) that the present residence address listed herein is my sole legal place of residence, ~~and~~ that I claim no other place as my legal residence, and that, to my knowledge, I am neither registered nor intend to register to vote in another state or county.' A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. A candidate or a member of a candidate's paid campaign staff, including campaign volunteers ~~reimbursed for time expended on campaign activity~~, is not allowed to request applications for absentee voting for any person designated in this section unless the person is a member of the immediate family. A person may not request absentee applications for more than ten qualified electors in addition to himself. A request for an application to vote by absentee ballot may be made anytime during the calendar year in which the election in which the qualified elector desires to be permitted to vote by absentee ballot is being held. However, completed applications must be returned to the county board of voter registration and elections in person or by mail before 5:00 p.m. on the fourth day before the day of the election. Applications must be accepted by the county board of voter registration and elections until 5:00 p.m. on the day immediately preceding the election for those who appear in person and are qualified to vote absentee pursuant to Section 7-15-320. A member of the immediate family of a person who is admitted to a hospital as an emergency patient on the day of an election or within a four-day period before the election may obtain an application from the board on the day of an election, complete it, receive the ballot, deliver it personally to the patient who shall vote, and personally carry the ballot back to the board of voter registration and elections. The board of voter registration and elections shall serially number each absentee ballot application form and keep a record book in which must be recorded the number of the form, the name, home address,

and absentee mailing address of the person for whom the absentee ballot application form is requested; the name, address, voter registration number, and relationship of the person requesting the form, if other than the applicant; the date upon which the form is requested; the date upon which the form is issued; and the date and method upon which the absentee ballot is returned. This information becomes a public record at 9:00 a.m. on the day immediately preceding the election, except that forms issued for emergency hospital patients must be made public by 9:00 a.m. on the day following an election. A person who violates the provisions of this section is subject to the penalties provided in Section 7-25-170."

The State Election Commission shall certify, at least annually, that the State of South Carolina has substantially complied with the requirements of this section."

P. Section 7-5-430 of the 1976 Code is amended to read:

Security protocols for electronic poll books shall be generally consistent with current industry security standards, and in promulgating this requirement, the State Election Commission shall consider those security standards issued by the National Institute of Standards and Technology, the Cybersecurity and Infrastructure Security Agency, and the federal Election Assistance Commission. The State Election Commission shall certify, at least annually, that the State of South Carolina has substantially complied with the requirements of this section."

Q. Section 7-13-320(A) of the 1976 Code is amended to read:

"(A) Other than ballots delivered electronically to qualified electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 52 U.S.C. Section 20301,

et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which does not make the ballot identifiable to a particular elector. The ballot shall be printed on paper of such thickness that the printing cannot be distinguished from the back and shall be of such size and color as directed by the State Election Commission. If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

R. Section 7-13-610(C) of the 1976 Code is amended to read:

"(C) Other than ballots delivered electronically to qualified electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 52 U.S.C. Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which do not make the ballot identifiable to a particular elector. The ballot must be printed on paper of a thickness so that the printing cannot be distinguished from the back and must be of a size and color as directed by the State Election Commission. If more than one ballot is to be used in a primary, each ballot must be printed on different colored paper. The ballot must contain a voting square opposite the name of each candidate, and the voter shall vote by putting a mark in the voting square opposite the name of the candidate of his choice. The State Election Commission may establish, under Chapter 23 of Title 1, such rules and regulations as are necessary for the proper administration of this section."

S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum

requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government

concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified

system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

All persons filing claims under this section are bound by the value determined by the department.

(C) The department within thirty days from verification of loss shall request payment of one hundred percent of the approved claim. At no time may the fund be reduced to less than one hundred thousand dollars.

(D) If there is an insufficient amount of money in the fund to cover all claims, payments must be made on a pro rata basis up to one hundred percent of the total loss of each producer. ~~If payment is not received in~~

~~the amount of one hundred percent of total loss then additional amounts must be paid as funds become available until payment of one hundred percent of total loss is attained.~~ Claims against the fund must be paid in the order in which they have been verified and approved.

(E) Upon approval of his claim by the department, the producer shall subrogate his interest, if any, to the department in a cause of action against any and all parties. An independent law firm may be hired and paid by the fund for the purpose of collecting losses subrogated to the department. Payments start when the fund exceeds one hundred thousand dollars.

Section 46-41-240. ~~(1)~~(A) The ~~grain~~ agricultural commodity dealer shall remit assessments and file with the ~~Department~~ department a report of ~~such~~ the assessments on ~~grain~~ agricultural commodities that he received ~~by him~~ by the ~~fifteenth~~ first day of January, April, July, and October ~~each calendar month~~ following any calendar ~~month~~ quarter in which the ~~grain~~ agricultural commodity dealer has received quantities of grain or cotton subject to assessments totaling fifty dollars or more. All assessments shall be remitted at least once every six ~~three~~ months.

No payment shall be made until the ~~Department~~ department enters its order determining the amount of the payment ~~but such~~. However, the payment shall be made within ten days' notice of the order. On failure to remit payment within ten days of the receipt of notice of the order, the ~~Department~~ department may suspend the dealer's license under the provisions of Section 46-41-130.

Section 46-41-250. (A) Notwithstanding any other provision of this chapter, any producer may elect not to participate in the fund for any calendar year by applying for an exemption with the ~~South Carolina Department of Agriculture~~ department as provided in this section.

(B) The election consists of a written, notarized application upon a form designed and provided by the ~~Department of Agriculture~~ department. The application must be filed with the ~~Department~~ department before April ~~1~~ first of the year for which the exemption is desired.

(D) When an exemption is granted under this section, the grain dealer must retain a copy of the exemption certificate for a period of not less than two years. Any producer who elects not to participate in the fund is not eligible to be reimbursed for any loss for the commodity exempted for that calendar year.

When a vacancy occurs, the organization authorized to make recommendations to the commissioner for an appointment to the vacant position shall make its recommendation to the commissioner within sixty days after the vacancy occurs. The commissioner shall then appoint a new member to fill the vacancy no later than sixty days after receiving the recommendation. If the commissioner fails to appoint a new member within sixty days, the Governor may appoint the new member. Members appointed by the Governor shall enjoy all of the powers, duties, rights, and privileges as members appointed by the commissioner. An appointment made by the Governor pursuant to this section may not be made pursuant to the provisions contained in Section 1-3-210.

(E) The commission shall meet four times per calendar year but may meet more frequently upon the call of the chairman. Five members shall constitute a quorum for the transaction of official business. SECTION 2. Section 46-41-60 of the 1976 Code is amended to read:

"Section 46-41-60. ~~(1)~~(A) Before any license shall be issued the applicant shall make and deliver to the commissioner a surety bond or equivalent security in ~~the~~ an amount of ~~twenty-five~~ either twenty-five thousand, fifty thousand, or one hundred thousand dollars ~~or an amount equal to the maximum amount of business done or estimated to be done in any month by the applicant, whichever is less~~ as determined by the method set forth below, executed by a surety corporation authorized to transact business in the State or provided by equivalent security approved by the commissioner with the advice of the State Treasurer. The amount of the bond required is determined based upon ten percent

If ten percent of annual business is fifty thousand dollars or less, a fifty thousand dollar bond is required. If ten percent of annual business is more than fifty thousand dollars, a one hundred thousand dollar bond is required. ~~Such~~ The bond or equivalent security shall be upon a form prescribed or approved by the commissioner and shall be conditioned to secure the faithful accounting for any payment to producers, their agents or representatives, of the proceeds of all agricultural products handled or sold by such dealer.

~~(2)~~(B) The amount of ~~such~~ the bond or equivalent security shall, upon the order of the commissioner at any time, be increased, if in his discretion the commissioner finds ~~such~~ that an increase ~~to be~~ is warranted by the volume of agricultural product being handled by the principal or maker of ~~such~~ the bond or equivalent security. In the same manner, the amount of ~~such~~ the bond or equivalent security may be decreased when a decrease in volume of products handled warrants such decrease in bond or equivalent security. The provisions contained in this section shall apply to any bond or equivalent security, regardless of the anniversary date of its issuance, expiration, or renewal.

~~(3)~~(C) In order to effectuate the purposes of this section, the commissioner or his agents may require from any licensee verified statements of the volume of his business, and failure to furnish such statement or make and deliver a new or additional bond or equivalent security shall be cause for suspension of license. If, at a hearing after reasonable notice, the commissioner finds such failure to be wilful, the license may be revoked."

SECTION 3. Section 46-41-170 of the 1976 Code is amended to read:

"Section 46-41-170. ~~(1)~~(A) Any dealer in agricultural products violating the provisions of this chapter shall be deemed guilty of a misdemeanor and, upon conviction, shall for the first offense be fined not less than one thousand dollars or, in the case of individuals, the members of a partnership, and the responsible officers and agents of an association or corporation, imprisoned not exceeding six months, and for a second or subsequent offense shall, upon conviction ~~thereof~~, be fined not less than three thousand dollars or imprisoned not exceeding one year, or both in the discretion of the court.

~~(2)~~(B) In addition to the remedies provided in this chapter and notwithstanding the existence of any adequate remedy at law, the ~~Commissioner~~ commissioner is ~~hereby~~ authorized to make application

for injunction to a circuit court and ~~such~~ the circuit court shall have jurisdiction upon hearing and for cause shown to grant a temporary or permanent injunction, or both, restraining any person from violating or continuing to violate any of the provisions of this chapter, or any rule or regulation, such injunction to be issued without bond.

~~(3)~~(C) The ~~Commissioner~~ commissioner may, by issuing his order, place any licensee who violates any provision of the chapter or any unlicensed person found to have been dealing in agricultural products on probation or levy a civil fine of not more than one thousand dollars, or both. All monies received as civil fines shall be remitted to the State Treasurer to be credited to the Grain and Cotton Producers Guaranty Fund established by Article 2 of this chapter. When the fund reaches six million dollars such civil fines shall be remitted to the general fund of the State. The licensee may appeal the levy of the civil fines to the circuit court of the county in which the alleged unlawful activity was performed."

SECTION 4. (A) The Insurance Reserve Fund of the State Fiscal Accountability Authority is authorized to lend an amount up to four million dollars on a one-time basis to the department for the use of the Grain and Cotton Producers Guaranty Fund herein established to pay claims approved by the department if the fund, through its assessments, is below four million dollars and has insufficient monies to pay the claims. The loan is to be repaid from monies from the guaranty fund within five years of the date of the loan in five annual installments with interest at the rate provided in Section 34-31-20(A). In the event the department fails to make any loan payment to the Insurance Reserve Fund within the prescribed time, the payment must be paid from the state general fund. The participants in the loan shall execute a document approved by the State Treasurer severally guaranteeing the loan. The Insurance Reserve Fund shall prepare a written loan agreement which must be executed by the department prior to entering into the loan authorized by this section.

(B) Any federal funds or other funds not derived from assessments received by the department to reimburse claims or losses under this chapter must be paid into the fund and used for loan payments or loan principal reduction to the extent any monies are due under subsection (A) to the Insurance Reserve Fund or the state general fund. Each commodity producer severally guaranteeing this loan shall have his pro rata share of the debt obligation reduced accordingly based on the amount of the federal or other payment. If no monies are due to the

Insurance Reserve Fund or to the state general fund under subsection (A), such funds shall be used for claim payments.

Department of Transportation

SECTION 2. There is established in the State Treasury an account to be known as the Transportation Infrastructure Acceleration Account. The account is separate from the general fund of the State and all other funds and accounts. The account shall consist of the federal funds

authorized pursuant to SECTION 1(A)(1) of this act. The funds in the Transportation Infrastructure Acceleration Account shall be used by the Department of Transportation to accelerate completion of projects included in the Statewide Transportation Improvement Program. These funds are not intended to satisfy state matching requirements for any other federal grants to the extent that such use is disallowed by ARPA.

SECTION 3. Funds in the Transportation Infrastructure Acceleration Account may be released to the Department of Transportation upon the direction of the Executive Budget Office. The Executive Budget Office may not direct the release of funds until the Department of Transportation has submitted its plans for the funds to the Joint Bond Review Committee for its review and comment.

Rural Infrastructure Authority

SECTION 4. There is established in the State Treasury an account to be known as the ARPA Water and Sewer Infrastructure Account. The account is separate from the general fund of the State and all other funds and accounts. The account shall consist of federal funds authorized pursuant to SECTION 1(A)(2) of this act. The funds in the ARPA Water and Sewer Infrastructure Account shall be used by the Rural Infrastructure Authority to administer and operate three grant programs designed to provide for improvements in water, wastewater, and storm water infrastructure throughout the State. In each of the three grant programs, units of local government, special purpose districts, commissions of public works, and joint municipal organizations may apply for grants. A unit of local government may apply for a grant on behalf of non-profit water and sewer systems. Grants may be awarded for the completion of water, wastewater, and storm water projects as defined in ARPA.

SECTION 5. (A) The Rural Infrastructure Authority shall utilize $800,000,000 of the funds in the ARPA Water and Sewer Infrastructure Account to operate, in cooperation with the Department of Health and Environmental Control, a competitive infrastructure grant program. Of the funds in the account for the competitive infrastructure grant program, the Rural Infrastructure Authority may allocate up to $6,000,000 of the funds for its administrative costs and shall transfer up to $6,000,000 to the Department of Health and Environmental Control for related permitting activities. One hundred million dollars shall be available for projects designated by the Secretary of Commerce as being significant to economic development and may be funded at up to fifty million dollars per project with no local match requirement. The Rural Infrastructure Authority shall transfer five hundred thousand dollars to

each of the ten South Carolina Councils of Government for planning assistance, development of grant application proposals, and compliance assistance related to improvements in water, wastewater, and stormwater infrastructure for smaller systems.

(B) Grants pursuant to this program must be issued equitably based upon established priorities and parameters. Applicants may request up to ten million dollars per project or application. Awards shall be made from the funds authorized for the competitive infrastructure grant program, less any amounts allocated for purposes designated in subsection (A). Large utilities, defined as those serving a population equal to or greater than thirty thousand people, shall be eligible for sixty percent of the funds, and small and medium utilities, defined as those serving a population of less than thirty thousand people or are located in a Tier III or Tier IV county at the time of the grant pursuant to Section 12-6-3360 of the 1976 Code, shall be eligible for forty percent of the funds.

(C) Local financial support is required for each grant award and must be committed in writing and available prior to project bidding. Design, engineering, and other nonconstruction costs are considered part of the local financial support. For large utilities, the local financial support must be equal to or greater than twenty-five percent of the project cost. For small and medium utilities, the local financial support must be equal to or greater than fifteen percent of the project cost.

(D) Priority consideration must be given to applications for projects based upon a comparative analysis in the following relative order of need:

(1) regional solutions - projects that implement solutions that impact multiple systems;

(2) water quality - projects that address consent orders, violations, or other public health or environmental impacts;

(3) resilience and storm protection - projects that help utilities prepare for emergencies;

(4) other aging infrastructure - projects that upgrade or replace infrastructure that has exceeded its useful life; and

(5) capacity - projects that improve service for existing residents while preparing for future opportunities.

(E) To provide for equitable distribution of funds from the account, the following factors must be considered when awarding grants:

(1) documented priority needs;

(2) the transformational impact of the project on the relevant community;

(3) the extent to which additional funds may be leveraged by the grant;

(4) the readiness of the applicant to proceed with the project and meet program deadlines;

(5) the project's feasibility; and

(6) geographic diversity.

SECTION 6. (A) The Rural Infrastructure Authority shall utilize $20,000,000 of the funds in the ARPA Water and Sewer Infrastructure Account to operate a planning grant program for very small water systems. This program will assist very small systems that are unable to provide the required local investment for the competitive infrastructure grant program or that cannot identify a competitive project for assistance. Applicants for grants from this program must identify the assistance needed. Grants from this program may be awarded in an amount up to one million dollars per system. For purposes of this section, a very small water system is defined as a water system serving a population equal to or less than three thousand three hundred people.

(B) Grant recipients may utilize grant funding pursuant to this program for approved purposes including, but not limited to, capital improvement planning, rate studies and other financial assessments, asset management, smoke testing, mapping, televising of lines and other necessary analyses, as well as preliminary planning and design for capital improvement projects. As a condition for receiving a grant pursuant to this program, recipients must demonstrate the intent to implement the recommendations arising from approved planning assistance.

SECTION 7. (A) The Rural Infrastructure Authority shall utilize $80,000,000 of the funds in the ARPA Water and Sewer Infrastructure Account to operate a regional solutions grant program. Applicants may request up to ten million dollars per project or application. The maximum grant request may be waived by the Rural Infrastructure Authority if the proposed project provides a regional solution that will result in consolidation of or for projects located in Tier III or Tier IV counties.

(B) Local financial support equal to or greater than fifteen percent of the cost of the project is required for each grant award and must be committed in writing and available prior to project bidding. Design, engineering, and other non-construction costs will be considered part of the local financial support. The local financial support requirement may be waived by the Rural Infrastructure Authority if the proposed project

provides a regional solution that will result in consolidation or for projects located in Tier III or Tier IV counties.

(C) Priority consideration will be given to applications for projects based upon a comparative analysis in the following relative order of need:

(1) the project results in a consolidation or operating agreement with at least one small system with viability concerns;

(2) the project results in an expanded partnership agreement with at least one small system with viability concerns; and

(3) the project results in a consolidation or operating agreement with other systems.

(D) To provide for equitable distribution of funds from the account, the following factors must be considered when awarding grants:

(1) documented priority needs;

(2) the transformational impact of the project on the relevant community;

(3) the extent to which additional funds may be leveraged by the grant;

(4) the readiness of the applicant to proceed with the project and meet program deadlines;

(5) the project's feasibility; and

(6) geographic diversity.

SECTION 8. The Rural Infrastructure Authority shall be permitted to modify or waive the program parameters contained in SECTIONS 4, 5, 6, and 7 to ensure the timely and equitable distribution of funds in compliance with federal guidelines for these funds. Modifications to funding amounts authorized for specific use by each program must first be submitted with justification to the Joint Bond Review Committee for review and comment. The Rural Infrastructure Authority shall submit a report of all other modifications to the Joint Bond Review Committee.

Office of Regulatory Staff

The account shall consist of federal funds authorized pursuant to SECTION 1(A)(3) of this act. The funds in the ARPA Broadband Account shall be used to expand broadband infrastructure to households, businesses, and communities in the State that are unserved or underserved by broadband services. Unserved areas are defined as households that lack access to a wireline connection capable of reliably delivering at least minimum speeds of 25 Mbps download and 3 Mbps

(6) expend funds for alternative and enabling technologies including, but not limited to, wireless broadband service, low earth orbit satellite, middle-mile fiber, enhanced cellular service, and carrier neutral broadband infrastructure; and

(7) reimburse any state funds as may be allowed by ARPA, or related guidance issued by the United States Department of the Treasury, for reasonable costs associated with administering the grant program and fulfilling the Office of Broadband Coordinator's obligations established by this act.

(B) The grant program may include an opportunity to reimburse a portion of construction costs, incurred on or after March 15, 2021, related to the expansion of broadband during the pandemic.

(C) All expenditures, reimbursements, and grants awarded by the Office of Broadband Coordinator must be in compliance with ARPA and the methods and guidance issued by the United States Department of Treasury for the allocation and oversight of ARPA funding.

SECTION 11. (A) The Office of Broadband Coordinator may award grants from the ARPA Broadband Account to broadband service providers and other entities for authorized projects that achieve the purpose of expanding broadband infrastructure to households, businesses, and communities in the State that are unserved or

underserved by broadband services. The speed at which an applicant can complete the proposed project shall be considered among significant criteria for awarding grants.

(B) Electric Cooperatives that own broadband facilities pursuant to the provisions of S.C. Code Sections 58-9-3000, et seq., the Broadband Accessibility Act of 2020 are eligible to receive grants from the ARPA Broadband Account.

(C) Grants may be disbursed to recipients in tranches. The number and amount of funding in each tranche shall be determined by the Office of Broadband Coordinator.

SECTION 12. (A) Grant recipients and other entities receiving funds pursuant to SECTION 11 shall report to the Office of Broadband Coordinator concerning the progress of the recipient's project. The reports shall provide the most accurate and granular representation of then-currently available broadband infrastructure installed by the recipient, the type of technology installed, the sustainable download and upload speeds available at each serviceable location, and such other information that the Office of Broadband Coordinator requires.

(B) The Office of Broadband Coordinator shall maintain as confidential all individual company-designated proprietary information. All such individual proprietary information is exempt from the provisions contained in S.C. Code Sections 30-4-10, et seq., the South Carolina Freedom of Information Act.

(C) The Office of Regulatory Staff is authorized to contract with broadband service providers and to procure professional grant management, vendor, consulting, or other services for oversight and compliance of funds designated, granted, and disbursed pursuant to this act and for such other purposes as the Office of Regulatory Staff may deem necessary to implement the purposes of this act.

(D) It is vital to the state's interest that grant funds be awarded for the deployment of broadband infrastructure in rural communities in the most expeditious manner possible. Accordingly, contracting with broadband service providers and the procurement of professional grant management, vendor, consulting, or other services and pursuant to this act should be done pursuant to the provisions of S.C. Code Section 11-35-1570 of the 1976 Code. The State Fiscal Accountability Authority shall serve as the procuring officer for the

procurement process and is responsible for administrative duties related to the process and the contract awarded. The State Fiscal Accountability Authority shall assign such personnel as necessary to assist the Office of Regulatory Staff in carrying out its duties under this act.

SECTION 13. POINT OF ORDER

Rep. MCCRAVY raised the Point of Order under House Rule 5.3E and Article III, Section 15, of the South Carolina Constitution, that S. 150 was out of order. He stated that Rule 5.3E required a bill, upon second reading, that raises revenue must conform to the provisions of Article III, Section 15. He stated that Article III, Section 15, stated that bills "raising revenue shall originate in the House of Representatives." He stated further that S. 150 was a Senate bill that creates a 6% sales tax upon the sale of marijuana products and that this tax was a new tax in addition to current state sales taxes. He stated further that the revenue from this new tax would fund DHEC's responsibilities in licensing, tracking, regulating, and monitoring the sale of medical cannabis. He stated that any excess revenue from the new tax would be distributed with 75% going to the general fund and the remainder going to various sundry state agencies. He referenced a 2015 Attorney General Opinion and various Supreme Court decisions that he claimed supported his Point of Order that S. 105 violated Article III, Section 15.

Rep. HERBKERSMAN argued against the Point of Order and cited the 1925 South Carolina Supreme Court case of State v. Stanley in support of his argument.

Rep. RUTHERFORD also argued against the Point of Order.

The *SPEAKER PRO TEMPORE* took the Point of Order under advisement and stated that he intended to rule upon it before the House adjourned for the day.

POINT OF ORDER

Rep. HILL raised the Point of Order that House Rule 10.3.1C defined a Joint Resolution as a temporary measure. He stated that the Joint Resolution had been amended to include permanent provisions of law and was now in violation of the Rule.

The SPEAKER stated that Rep. HILL was correct in his citation of a definition of a Joint Resolution in Rule 10.3.1C; however, although the Joint Resolution now included permanent provisions of law it did not violate any requirement of the House Rules or the constitution. He overruled the Point of Order.

The amendment was then adopted.

Amend the bill, as and if amended, by adding an appropriately numbered SECTION to read:

/ SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:

(a) 1 - 39,999 voters: one location

(b) 40,000 - 79,999 voters: two locations

(c) 80,000 - 119,999 voters: three locations

(d) 120,000 - 159,999 voters: four locations

(e) 160,000 - 199,999 voters: five locations

(f) 200,000 - 239,999 voters: six locations
(g) 240,000 voters and up: seven locations

(2) The size of the county in square miles:
(a) 0-199 square miles: one location
(b) 200-399 square miles: two locations
(c) 400-599 square miles: three locations
(d) 600-799 square miles: four locations
(e) 800-999 square miles: five locations
(f) 1000-1199 square miles: six locations
(g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

(B) A candidate may not file more than one statement of intention of candidacy for a single office for the same election.

A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

The ballot must be printed on paper of a thickness so that the printing cannot be distinguished from the back and must be of a size and color as directed by the State Election Commission. If more than one ballot is to be used in a primary, each ballot must be printed on different colored paper. S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum

requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government

concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified

system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. This requirement does not apply to the technical capability of a general purpose computer, reader, or printer used for election preparation or ballot ~~tallying~~ tally reporting."

(1) be connected to the Internet or an external network;

(2) be capable of establishing a wireless connection;

(3) establish a connection to an external network through a cable, a wireless modem, or any other mechanism or process; or

/ SECTION 1. It is proposed that Section 36(A), Article III of the Constitution of this State be amended to read:

"(A) The General Assembly shall provide for a General Reserve Fund of ~~five~~ seven percent of the general fund revenue of the latest completed fiscal year. The ~~five~~ seven percent requirement shall be achieved by increasing the percentage requirement by a cumulative one-half of one percent of general fund revenue in each fiscal year succeeding the last fiscal year to which the ~~three~~ five percent requirement applied until the percentage of revenue in the General Reserve Fund equals the ~~five~~ seven percent requirement, which shall thereafter be maintained. Funds may be withdrawn from the reserve only for the purpose of covering operating deficits of state government. The General Assembly must provide for the orderly restoration of funds withdrawn from the reserve from future revenues and out of funds accumulating in excess of annual operating expenditures.

(1) The General Assembly shall provide by law for a procedure to survey the progress of the collection of revenue and the expenditure of funds and to authorize and direct reduction of appropriations as may be necessary to prevent a deficit.

Provided that a minimum of one percent of the general fund revenue of the latest completed fiscal year, if so much is necessary, must be restored to the reserve fund each year following the deficit until the ~~five~~ seven percent, or the applicable percentage amount required by general law to be transferred to the General Reserve Fund is restored."

SECTION 2. The proposed amendment must be submitted to the qualified electors at the next general election for representatives. Ballots must be provided at the various voting precincts with the following words printed or written on the ballot:

(1) In any fiscal year in which the General Reserve Fund does not maintain the required percentage of general fund revenue, monies from the Capital Reserve Fund first must be used, to the extent necessary, to fully replenish the General Reserve Fund. The Capital Reserve Fund's replenishment of the General Reserve Fund is in addition to the replenishment requirement provided in subsection (A)(2) of this section. After the General Reserve Fund is fully replenished to the required percentage, the monies in the Capital Reserve Fund may be appropriated, except that the Capital Reserve Fund must not be used to offset a midyear budget reduction.

(2) Subsequent to appropriations required by item (1) of this subsection, monies from the Capital Reserve Fund may be appropriated by the General Assembly in separate legislation upon an affirmative vote in each branch of the General Assembly by two-thirds of the members present and voting, but not less than three-fifths of the total membership in each branch for the following purposes:

(a) to finance in cash previously authorized capital improvement bond projects;

(b) to retire interest or principal on bonds previously issued;

(c) for capital improvements or other nonrecurring purposes.

(3)(a) Any appropriation of monies from the Capital Reserve Fund as provided in this subsection must be ranked in priority of expenditure and is effective thirty days after completion of the fiscal year. If it is determined that the fiscal year has ended with an operating deficit, then the monies appropriated from the Capital Reserve Fund must be reduced based on the rank of priority, beginning with the lowest priority, to the extent necessary and applied to the year-end operating deficit before withdrawing monies from the General Reserve Fund.

(b) At the end of the fiscal year, any monies in the Capital Reserve Fund that are not appropriated as provided in this subsection or any appropriation for a particular project or item which has been reduced due to application of the monies to a year end deficit must lapse and be credited to the general fund."

SECTION 4. The proposed amendment must be submitted to the qualified electors at the next general election for representatives. Ballots must be provided at the various voting precincts with the following words printed or written on the ballot:

"Must Section 36(B), Article III of the Constitution of this State relating to the Capital Reserve Fund be amended so as to provide that the Capital Reserve Fund of two percent of the general fund revenue of the latest completed fiscal year be increased to three percent of the general fund revenue of the latest completed fiscal year?

THE SPEAKER *PRO TEMPORE*'S RULING

The *SPEAKER PRO TEMPORE* stated that he was ready to rule upon Rep. MCCRAVY's point of order concerning S. 150 and the alleged violation of House Rule 5.3E and Article III, Section 15, of the South Carolina Constitution. He stated that he had reviewed the rule, the constitutional provision, numerous precedents, Supreme Court cases, and other resources. He stated that Article III, Section 15 mandated that bills raising revenue originate in the House of Representatives. He specifically quoted the 1925 case of State v. Stanley for the statement that Article III, Section 15, only applies to bills that levy taxes and not bills that incidentally raise revenue through penalties, fines, and fees. He stated that there were several House precedents concerning Article III, Section 15, and he had reviewed precedents of former Speakers Wilkins, Sheheen, and Blatt. He stated that there were precedents that both sustained Points of Order and precedents that overruled Points of Order and that the rulings were based upon the individual facts of each situation. He stated further that he had analyzed S. 150 thoroughly and that Section 44-53-220 established a South Carolina Medical Cannabis

Fund and that Section 44-53-240(a) subjected all sales of medical cannabis to a new and additional 6% sales tax in addition to all other sales taxes. He stated that these provisions levied a tax in the strict sense of the word and violated the provisions of Article III, Section 15, and he sustained the Point of order.

STATEMENT FOR THE JOURNAL

On May 3 and 4, 2022, I was out of the Chamber on official state business. If I had been in the Chamber, I would have voted against the tabling motion concerning the appeal of the Speaker *Pro Tempore'*s ruling on S. 150.

Rep. Chris Murphy

POINT OF ORDER

Rep. HART raised the Point of Order that pursuant to Mason's Manual Section 233.3 the motion to table the appeal does not take the main subject with it. He stated that the appeal was still before the House.

The SPEAKER stated that the House had tabled Rep. RUTHERFORD's appeal of the *SPEAKER PRO TEMPORE's* ruling. He further stated that the vote to table the appeal was a rejection of the appeal. He continued and stated that the underlying or main subject had been S. 150, and that S. 150 had been ruled out of order and

was no longer before the body for consideration. He stated that the tabling of the appeal was, in effect, the House affirming the *SPEAKER PRO TEMPORE's* ruling, and he overruled the Point of Order.

Let us pray. Almighty and Gracious God, You have filled us with the words of Your mouth. Bring us forth to acknowledge and practice Your love so that we may care for those that we represent. Bring us all to the fulfillment of Your desires in our service to these, Your people. Bless our defenders of freedom and first responders as they care for and protect us. May Your face shine upon our World, Nation, President, State, Governor, Speaker, Staff, and all who help fulfill the needs of this great State. (c) a coil, unless the seller is an exempted entity pursuant to subsection (J)(1)(e) or the seller presents a bill of sale from a company licensed pursuant to Chapter 11, Title 40 indicating that the seller acquired the coil as the result of a unit replacement or repair. The bill of sale is sufficient proof of ownership and serves the same purpose as a permit to transport and sell nonferrous metals. A person who presents a falsified bill of sale is guilty of a misdemeanor and, upon conviction, must be fined in the discretion of the court or imprisoned not more three years, or both.

(2)(a) It is unlawful for any individual or entity other than a permitted secondary metals recycler to purchase, or to attempt to purchase, a used, detached catalytic converter or any nonferrous part of a catalytic converter.

(v) the part number or other identifying number of the catalytic converter that was removed; and

(vi) the certificate of title or certificate of registration showing the seller's ownership interest in the vehicle.

(c) It is unlawful for a seller of a used, detached catalytic converter or any nonferrous part of a catalytic converter to intentionally provide ~~any~~ false, fraudulent, altered or counterfeit information or documentation as required by this subsection.

(d) An individual or entity who violates any provision of subsection (I)(2)~~, for a first offense, is guilty of a misdemeanor and, upon conviction, must be fined in the discretion of the court or imprisoned not more than three years, or both; or for a second offense, is guilty of a~~

(ii) felony and, upon conviction, must be fined in the discretion of the court and imprisoned not more than five years if the value of the prohibited items is at least two thousand dollars but not more than ten thousand dollars;

(iii) felony and, upon conviction, must be fined in the discretion of the court and imprisoned not more than ten years if the value of the prohibited items is more than ten thousand dollars.

(e) ~~Each unlawfully obtained, possessed, or transported used, detached catalytic converter is a separate violation that subjects the individual or entity to a separate charge. Upon conviction, the court may order the individual or entity to pay restitution for the value of the repair and replacement of the catalytic converter or the individual or entity may be held liable as otherwise provided by law. A person in possession of a used, detached catalytic converter without identifying documentation is presumed to be in possession of contraband subject to forfeiture as otherwise provided by law.~~

Failure to maintain documentation required by this section must not result in a criminal charge absent corroborating evidence that the secondary metals recycler is in possession of a used, detached catalytic converter or any nonferrous part of a used, detached catalytic converter in violation of applicable law.

(g) There is a presumption that an employee or agent of a secondary metals recycler who violates the provisions of this section is engaging in activity outside the normal course and scope of his

employment. A secondary metals recycler employer or owner may not be criminally charged under this subsection for illegal activities of an employee or agent absent evidence the secondary metals recycler employer or owner knew or should have known the employee or agent was conducting illegal activity to benefit the secondary metals recycler employer or owner.

(3)(a) It is unlawful for a secondary metals recycler to purchase a used, detached catalytic converter or any nonferrous part of a used catalytic converter unless the secondary metals recycler has a permit from the local sheriff's office, the sale occurs at the secondary metals recycler's fixed site or the sale occurs at the seller's fixed site but only if the seller is a licensed automotive repair service, a licensed demolisher, as defined in Section 56-5-5810, a licensed secondary metals recycler, or a licensed motor vehicle dealer and the purchase is made by a permitted secondary metals recycler who maintains a fixed site within the State, and the following requirements are followed:

(aa) the name of the person or company that removed the catalytic converter;

(bb) the name of the person for whom the work was completed;

(cc) the make and model of the vehicle from which the catalytic converter was removed;

(dd) the vehicle identification number of the vehicle from which the catalytic converter was removed;

(ee) the part number or other identifying number of the catalytic converter that was removed; and

(ff) the certificate of title or certificate of registration showing the seller's ownership interest in the vehicle.

Nothing in this item prevents an out-of-state secondary metals recycler who maintains a fixed site and who complies with all other provisions of this chapter from obtaining, purchasing, or otherwise acquiring a used, detached catalytic converter or any nonferrous part of a used catalytic converter.

(b) Before each purchase or acquisition of a used, detached catalytic converter, the secondary metals recycler, including an agent, employee, or representative of the secondary metals recycler, must:

(i) verify, with the applicable documentation that the person transferring or selling the used, detached catalytic converter acquired it legally and has the right to transfer or sell it; and

(ii) retain a record of the applicable verification and other information required pursuant to subsection (D)(2) and note in their records any obvious marking on the used, detached catalytic converter such as paint, labels, or engravings that would aid in the identification of the catalytic converter.

(c) A seller of used, detached catalytic converters or any nonferrous metal part of such is subject to the provisions of subsection (C) regarding the permitting of a person or entity to transport and sell nonferrous metals except for an automotive repair service who, in lieu of a permit, may produce a record or receipt showing:

(i) the repair order number, when applicable;

(ii) the date of repair or the date on which the catalytic converter was removed from a vehicle, including the identity of the individual or entity that removed the catalytic converter, when applicable; and

(iii) the vehicle identification number of the vehicle from which the catalytic converter was removed.

(d) It is unlawful for a secondary metals recycler to fail to collect ~~or retain~~ all required documentation from a seller of a used, detached catalytic converter or any nonferrous part of a catalytic converter as required by this subsection. A secondary metals recycler who obtains all documentation as required by this subsection is exempt

from prosecution under this subsection unless they knew or had reason to believe that the documentation provided was false, fraudulent, altered or counterfeit, or knew or had reason to believe that the used, detached catalytic converter or any nonferrous part of a catalytic converter was stolen.

(e) A licensed secondary metals recycler, who is exempt from the provisions of subsection (I)(2), but who violates a provision of subsection (I)(3) is guilty of a:

(i) ~~for a first offense, is guilty of a~~ misdemeanor triable in magistrates or municipal court, notwithstanding the provisions of Sections 22-3-540, 22-3-545, 22-3-550, and 14-25-65, and, upon conviction, must be fined not more than ~~two hundred~~ one thousand dollars or imprisoned not more than thirty days, or both, when the value of the prohibited items is less than two thousand dollars;

(ii) ~~for a second offense, is guilty of a misdemeanor~~ felony and, upon conviction, must be fined ~~not more than five hundred dollars or~~ in the discretion of the court and imprisoned not more than ~~one year, or both~~ five years if the value of the prohibited items is at least two thousand dollars but not more than ten thousand dollars; and

(iii) ~~for a third or subsequent offense, is guilty of a misdemeanor~~ felony and, upon conviction, must be fined ~~not more than one thousand dollars or~~ in the discretion of the court and imprisoned not more than ~~three~~ ten years~~, or both~~ if the value of the prohibited items is more than ten thousand dollars.

~~(iv) Each unlawfully obtained or possessed used, detached catalytic converter or part of a used catalytic converter is a separate violation and subjects the secondary metals recycler to a separate charge for each. Any unlawfully possessed used, detached catalytic converter is subject to forfeiture as otherwise provided for by law. Upon conviction, the court may order the secondary metals recycler to pay restitution for the value of the repair and replacement of the catalytic converter or the secondary metals recycler may be held liable as otherwise provided for by law.~~

(f) If a law enforcement officer determines that the used, detached catalytic converter or any nonferrous part of a used, detached catalytic converter are not stolen goods and are in the rightful possession of the licensed metal recycler, the law enforcement officer shall not issue a citation for a violation of this subsection.

(g) There is a presumption that an employee or agent of a secondary metals recycler who violates the provisions of this section is engaging in activity outside the normal course and scope of his

employment. A secondary metals recycler employer or owner may not be criminally charged under this subsection for illegal activities of an employee or agent absent evidence the secondary metals recycler employer or owner knew or should have known the employee or agent was conducting illegal activity to benefit the secondary metals recycler employer or owner.

(h) Failure to maintain documentation required by this section may result in suspension of the licensed metal recycler's permit for up to thirty days for a first offense and up to six months for a second offense. Failure to maintain documentation must not result in a criminal charge absent corroborating evidence that the secondary metals recycler is in possession of a used, detached catalytic converter or any nonferrous part of a used, detached catalytic converter in violation of applicable law.

(i) Law enforcement may inspect a permitted licensed metal recycler's documentation upon twenty-four hours notice to the licensed metal recycler unless law enforcement is in possession of a valid warrant or is acting upon a valid exception to the warrant requirement.

(f) a seller that is an organization, a corporation, or an association registered with the State as a charitable organization or a nonprofit corporation.

(2) An exempted entity listed in item (1) is subject to the provisions of subsection (C)(10), subsection (G)(5), and subsection (I).

A secondary metals recycler shall maintain a record of transactions involving exempted entities listed in item (1) pursuant to subsection (D)

~~and is subject to the penalty provisions of subsection (D)(6).~~ Failure to maintain documentation required by this section may result in suspension of the licensed metal recycler's permit for up to thirty days for a first offense and up to six months for a second offense. Failure to maintain documentation must not result in a criminal charge absent corroborating evidence that the secondary metals recycler is in possession of a used, detached catalytic converter or any nonferrous part of a used, detached catalytic converter in violation of applicable law. Any item of nonferrous metals acquired from an exempted entity listed in item (1) is subject to a hold notice pursuant to subsection (F).

Amend the bill, as and if amended, by adding an appropriately numbered SECTION to read:

/ SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:
- (a) 1 - 39,999 voters: one location
- (b) 40,000 - 79,999 voters: two locations
- (c) 80,000 - 119,999 voters: three locations
- (d) 120,000 - 159,999 voters: four locations
- (e) 160,000 - 199,999 voters: five locations
- (f) 200,000 - 239,999 voters: six locations
- (g) 240,000 voters and up: seven locations

(2) The size of the county in square miles:
- (a) 0-199 square miles: one location
- (b) 200-399 square miles: two locations
- (c) 400-599 square miles: three locations
- (d) 600-799 square miles: four locations
- (e) 800-999 square miles: five locations
- (f) 1000-1199 square miles: six locations
- (g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

(I) Each early voting center must have available every ballot style in use in the particular county for that election."

A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until

A member of the immediate family of a person who is admitted to a hospital as an emergency patient on the day of an election or within a four-day period before the election may obtain an application from the board on the day of an election, complete it, receive the ballot, deliver it personally to the patient who shall vote, and personally carry the ballot back to the board of voter registration and elections. The board of voter registration and elections shall serially number each absentee ballot application form and keep a record book in which must be recorded the number of the form, the name, home address, and absentee mailing address of the person for whom the absentee ballot application form is requested; the name, address, voter registration number, and relationship of the person requesting the form, if other than the applicant; the date upon which the form is requested; the date upon which the form is issued; and the date and method upon which the absentee ballot is returned. This information becomes a public record at 9:00 a.m. on the day immediately preceding the election, except that forms issued for emergency hospital patients must be made public by 9:00 a.m. on the day following an election. The State Election Commission shall certify, at least annually, that the State of South Carolina has substantially complied with the requirements of this section."

Q. Section 7-13-320(A) of the 1976 Code is amended to read:

Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which does not make the ballot identifiable to a particular elector. The ballot shall be printed on paper of such thickness that the printing cannot be distinguished from the back and shall be of such size and color as directed by the State Election Commission. If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

R. Section 7-13-610(C) of the 1976 Code is amended to read:

Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which do not make the ballot identifiable to a particular elector. The ballot must be printed on paper of a thickness so that the printing cannot be distinguished from the back and must be of a size and color as directed by the State Election

Commission. If more than one ballot is to be used in a primary, each ballot must be printed on different colored paper. The ballot must contain a voting square opposite the name of each candidate, and the voter shall vote by putting a mark in the voting square opposite the name of the candidate of his choice. The State Election Commission may establish, under Chapter 23 of Title 1, such rules and regulations as are necessary for the proper administration of this section."

S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election

Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must

be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

"(k) ~~if approved after July 1, 1999, or if an upgrade in software, hardware, or firmware is submitted for approval as required by Section 7-13-1330 (C), is able to electronically transmit vote totals for all elections to the State Election Commission in a format and timeframe specified by the commission~~ prohibits, at all times while utilized in a current election, the following:

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve

and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. This requirement does not apply to the technical capability of a general purpose computer, reader, or printer used for election preparation or ballot ~~tallying~~ tally reporting."

W. Section 7-13-1640(C) of the 1976 Code is amended to read:

(1) be connected to the Internet or an external network;

(2) be capable of establishing a wireless connection;

(3) establish a connection to an external network through a cable, a wireless modem, or any other mechanism or process; or

LL. The General Assembly finds that the sections presented in this act constitute one subject as required by Section 17, Article III of the South Carolina Constitution, 1895, in particular finding that each change and each topic relates directly to or in conjunction with other sections to the subject of election reform as clearly enumerated in the title.

The General Assembly further finds that a common purpose or relationship exists among the sections, representing a potential plurality but not disunity of topics, notwithstanding that reasonable minds might differ in identifying more than one topic contained in the act.

MM. The repeal or amendment by this act of any law, whether temporary or permanent or civil or criminal, does not affect pending actions, rights, duties, or liabilities founded thereon, or alter, discharge, release or extinguish any penalty, forfeiture, or liability incurred under the repealed or amended law, unless the repealed or amended provision shall so expressly provide. After the effective date of this act, all laws repealed or amended by this act must be taken and treated as remaining in full force and effect for the purpose of sustaining any pending or vested right, civil action, special proceeding, criminal prosecution, or appeal existing as of the effective date of this act, and for the enforcement of rights, duties, penalties, forfeitures, and liabilities as they stood under the repealed or amended laws.

NN. If any section, subsection, paragraph, subparagraph, sentence, clause, phrase, or word of this act is for any reason held to be unconstitutional or invalid, such holding shall not affect the constitutionality or validity of the remaining portions of this act, the General Assembly hereby declaring that it would have passed this act, and each and every section, subsection, paragraph, subparagraph, sentence, clause, phrase, and word thereof, irrespective of the fact that any one or more other sections, subsections, paragraphs, subparagraphs, sentences, clauses, phrases, or words hereof may be declared to be unconstitutional, invalid, or otherwise ineffective. /

SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all

qualified electors of this State must be allowed to cast an early in-person ballot. (B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:

(a) 1 - 39,999 voters: one location
(b) 40,000 - 79,999 voters: two locations

In selecting locations, boards must consider geography, population, and ADA compliant accessibility. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system

is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in

escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. This requirement does not apply to the

(1) be connected to the Internet or an external network;

(2) be capable of establishing a wireless connection;

(3) establish a connection to an external network through a cable, a wireless modem, or any other mechanism or process; or

The State Election Commission may promulgate regulations necessary to effectuate the provisions of this subsection."

SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:

(a) 1 - 39,999 voters: one location

(b) 40,000 - 79,999 voters: two locations

(c) 80,000 - 119,999 voters: three locations

(d) 120,000 - 159,999 voters: four locations

(e) 800-999 square miles: five locations

(f) 1000-1199 square miles: six locations

(g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county

to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. A candidate or a member of a candidate's paid campaign staff, including campaign volunteers ~~reimbursed for time expended on campaign activity~~, is not allowed to request applications for absentee voting for any person designated in this section unless the person is a member of the immediate family. A person may not request

A request for an application to vote by absentee ballot may be made anytime during the calendar year in which the election in which the qualified elector desires to be permitted to vote by absentee ballot is being held. However, completed applications must be returned to the county board of voter registration and elections in person or by mail before 5:00 p.m. on the fourth day before the day of the election. Applications must be accepted by the county board of voter registration and elections until 5:00 p.m. on the day immediately preceding the election for those who appear in person and are qualified to vote absentee pursuant to Section 7-15-320. A member of the immediate family of a person who is admitted to a hospital as an emergency patient on the day of an election or within a four-day period before the election may obtain an application from the board on the day of an election, complete it, receive the ballot, deliver it personally to the patient who shall vote, and personally carry the ballot back to the board of voter registration and elections. The board of voter registration and elections shall serially number each absentee ballot application form and keep a record book in which must be recorded the number of the form, the name, home address, and absentee mailing address of the person for whom the absentee ballot application form is requested; the name, address, voter registration number, and relationship of the person requesting the form, if other than the applicant; the date upon which the form is requested; the date upon which the form is issued; and the date and method upon which the absentee ballot is returned. This information becomes a public record at 9:00 a.m. on the day immediately preceding the election, except that forms issued for emergency hospital patients must be made public by 9:00 a.m. on the day following an election. A person who violates the provisions of this section is subject to the penalties provided in Section 7-25-170."

S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its

accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. LL. The General Assembly finds that the sections presented in this act constitute one subject as required by Section 17, Article III of the South Carolina Constitution, 1895, in particular finding that each change

and each topic relates directly to or in conjunction with other sections to the subject of election reform as clearly enumerated in the title.

The General Assembly further finds that a common purpose or relationship exists among the sections, representing a potential plurality but not disunity of topics, notwithstanding that reasonable minds might differ in identifying more than one topic contained in the act.

MM. The repeal or amendment by this act of any law, whether temporary or permanent or civil or criminal, does not affect pending actions, rights, duties, or liabilities founded thereon, or alter, discharge, release or extinguish any penalty, forfeiture, or liability incurred under the repealed or amended law, unless the repealed or amended provision shall so expressly provide. After the effective date of this act, all laws repealed or amended by this act must be taken and treated as remaining in full force and effect for the purpose of sustaining any pending or vested right, civil action, special proceeding, criminal prosecution, or appeal existing as of the effective date of this act, and for the enforcement of rights, duties, penalties, forfeitures, and liabilities as they stood under the repealed or amended laws.

NN. If any section, subsection, paragraph, subparagraph, sentence, clause, phrase, or word of this act is for any reason held to be unconstitutional or invalid, such holding shall not affect the constitutionality or validity of the remaining portions of this act, the General Assembly hereby declaring that it would have passed this act, and each and every section, subsection, paragraph, subparagraph, sentence, clause, phrase, and word thereof, irrespective of the fact that any one or more other sections, subsections, paragraphs, subparagraphs, sentences, clauses, phrases, or words hereof may be declared to be unconstitutional, invalid, or otherwise ineffective. /

The Committee on Judiciary proposed the following Amendment No. 1 to S. 560 (COUNCIL\HB\560C002.BH.HB22), which was adopted:

Amend the joint resolution, as and if amended, by adding appropriately numbered SECTIONS to read:

/ SECTION _. Section 7-3-10 of the 1976 Code is amended by adding an appropriately lettered subsection to read:

"( ) The commission and the executive director shall have the powers and duties as enumerated in this title, including plenary authority to supervise and standardize the performance, conduct, and practices of the county board of elections and voter registration, as established pursuant to Article 1, Chapter 5 to administer elections and voter

registration in the State and ensure those boards' compliance with applicable state or federal law or State Election Commission policies, procedures, and regulations regarding the conduct of elections or the voter registration process by all persons involved in the elections process. The State Election Commission may promulgate regulations necessary to effectuate the provisions of this subsection."

SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:
- (a) 1 - 39,999 voters: one location
- (b) 40,000 - 79,999 voters: two locations
- (c) 80,000 - 119,999 voters: three locations
- (d) 120,000 - 159,999 voters: four locations
- (e) 160,000 - 199,999 voters: five locations
- (f) 200,000 - 239,999 voters: six locations
- (g) 240,000 voters and up: seven locations

(2) The size of the county in square miles:
- (a) 0-199 square miles: one location
- (b) 200-399 square miles: two locations
- (c) 400-599 square miles: three locations
- (d) 600-799 square miles: four locations
- (e) 800-999 square miles: five locations
- (f) 1000-1199 square miles: six locations
- (g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

(I) Each early voting center must have available every ballot style in use in the particular county for that election."

(B) A candidate may not file more than one statement of intention of candidacy for a single office for the same election.

The processes of examining the return-addressed envelopes, opening the sealed return-addressed envelopes to remove the 'Ballot Herein' envelopes, and

removing the ballots from the 'Ballot Herein' envelopes for tabulation must be conducted in the presence of any candidate who elects to be present, and of any watchers who have been appointed pursuant to Section 7-13-860. Provided, any candidates or watchers present must be located a reasonable distance in order to maintain both the right to observe and the secrecy of the ballots.

A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until

A candidate or a member of a candidate's paid campaign staff, including campaign volunteers ~~reimbursed for time expended on campaign activity~~, is not allowed to request applications for absentee voting for any person designated in this section unless the person is a member of the immediate family. A person may not request absentee applications for more than ten qualified electors in addition to himself. However, completed applications must be returned to the county board of voter registration and elections in person or by mail before 5:00 p.m. on the fourth day before the day of the election. Applications must be accepted by the county board of voter registration and elections until 5:00 p.m. on the day immediately preceding the election for those who appear in person and are qualified to vote absentee pursuant to Section 7-15-320. A member of the immediate family of a person who is admitted to a hospital as an emergency patient on the day of an election or within a four-day period before the election may obtain an application from the board on the day of an election, complete it, receive the ballot, deliver it personally to the patient who shall vote, and personally carry the ballot back to the board of voter registration and elections. The board of voter registration and elections shall serially number each absentee ballot application form and keep a record book in which must be recorded the number of the form, the name, home address, and absentee mailing address of the person for whom the absentee ballot application form is requested; the name, address, voter registration number, and relationship of the person requesting the form, if other than the applicant; the date upon which the form is requested; the date upon which the form is issued; and the date and method upon which the absentee ballot is returned. This information becomes a public record at 9:00 a.m. on the day immediately preceding the election, except that forms issued for emergency hospital patients must be made public by 9:00 a.m. on the day following an election. A person who violates the provisions of this section is subject to the penalties provided in Section 7-25-170."

If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

(A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election

Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must

be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

"(k) ~~if approved after July 1, 1999, or if an upgrade in software, hardware, or firmware is submitted for approval as required by Section 7-13-1330 (C), is able to electronically transmit vote totals for all elections to the State Election Commission in a format and timeframe specified by the commission~~ prohibits, at all times while utilized in a current election, the following:

(1) a connection to the Internet or an external network;

V. Section 7-13-1620(A) and (G) of the 1976 Code is amended to read:

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve

and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. This requirement does not apply to the technical capability of a general purpose computer, reader, or printer used for election preparation or ballot ~~tallying~~ tally reporting."

To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:
   (a) 1 - 39,999 voters: one location
   (b) 40,000 - 79,999 voters: two locations

(f) 1000-1199 square miles: six locations

(g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

All return-addressed envelopes received by the county board of voter registration and elections before the time for closing the polls must be examined in this manner. A ballot may not be counted unless the oath is properly signed and witnessed nor may any ballot be counted which is received by the county board of voter registration and elections after time for closing of the polls. The printed instructions required by Section 7-15-370(2) to be sent each absentee ballot applicant must notify him that his vote will not be counted in either of these events. If a ballot is not challenged, the sealed return-addressed envelope must be opened by the managers, and the enclosed envelope marked 'Ballot Herein' removed, ~~and~~ placed in a locked box or boxes, and kept secure. After all return-addressed envelopes have been emptied in this manner, the managers shall remove the ballots contained in the envelopes marked 'Ballot Herein', placing each one in the ballot box provided for the applicable contest. Beginning at ~~9:00~~ 7:00 a.m. on the calendar day immediately preceding election day, the absentee ballots may be tabulated, including any absentee ballots received on election day before

the polls are closed. If any ballot is challenged, the return-addressed envelope must not be opened, but must be put aside and the procedure set forth in Section 7-13-830 must be utilized; but the absentee voter must be given reasonable notice of the challenged ballot. The processes of examining the return-addressed envelopes, opening the sealed return-addressed envelopes to remove the 'Ballot Herein' envelopes, and removing the ballots from the 'Ballot Herein' envelopes for tabulation must be conducted in the presence of any candidate who elects to be present, and of any watchers who have been appointed pursuant to Section 7-13-860. Provided, any candidates or watchers present must be located a reasonable distance in order to maintain both the right to observe and the secrecy of the ballots.

(B) Results of the absentee ballot tabulation must not be publicly reported until after the polls are closed. An election official, election worker, candidate, or watcher who intentionally violates the prohibition contained in this subsection is guilty of a felony and, upon conviction, must be fined not more than one thousand dollars or imprisoned not more than five years."

(2) Form of application. — The application must be on a form prescribed and provided by the executive director and shall contain the

following information: name, sex, race, social security number, date of birth, residence address, mailing address, telephone number of the applicant, and location of prior voter registration. The applicant must affirm that he is not under a court order declaring him mentally incompetent, confined in any public prison, has never been convicted of a felony or offense against the election laws, or if previously convicted that he has served his entire sentence, including probation and parole time, or has received a pardon for the conviction. Additionally, the applicant must take the following oath: 'I, do solemnly swear (or affirm) that I am a citizen of the United States and that on the date of the next ensuing election, I will have attained the age of eighteen years and am a resident of South Carolina, this county, and of my precinct. I further swear (or affirm) that the present residence address listed herein is my sole legal place of residence, ~~and~~ that I claim no other place as my legal residence, and that, to my knowledge, I am neither registered nor intend to register to vote in another state or county.' Any applicant convicted of fraudulently applying for registration is guilty of perjury and is subject to the penalty for that offense.

A person

requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. A candidate or a member of a candidate's paid campaign staff, including campaign volunteers ~~reimbursed for time expended on campaign activity~~, is not allowed to request applications for absentee voting for any person designated in this section unless the person is a member of the immediate family. A person may not request absentee applications for more than ten qualified electors in addition to himself. A request for an application to vote by absentee ballot may be made anytime during the calendar year in which the election in which the qualified elector desires to be permitted to vote by absentee ballot is being held. However, completed applications must be returned to the county board of voter registration and elections in person or by mail before 5:00 p.m. on the fourth day before the day of the election. Applications must be accepted by the county board of voter registration and elections until 5:00 p.m. on the day immediately preceding the election for those who appear in person and are qualified to vote absentee pursuant to Section 7-15-320. A member of the immediate family of a person who is admitted to a hospital as an emergency patient on the day of an election or within a four-day period before the election may obtain an application from the board on the day of an election, complete it, receive the ballot, deliver it personally to the patient who shall vote, and personally carry the ballot back to the board of voter registration and elections. The board of voter registration and elections shall serially number each absentee ballot application form and keep a record book in which must be recorded the number of the form, the name, home address, and absentee mailing address of the person for whom the absentee ballot application form is requested; the name, address, voter registration number, and relationship of the person requesting the form, if other than the applicant; the date upon which the form is requested; the date upon which the form is issued; and the date and method upon which the absentee ballot is returned. This information becomes a public record at 9:00 a.m. on the day immediately preceding the election, except that forms issued for emergency hospital patients must be made public by 9:00 a.m. on the day following an election. A person who violates the

provisions of this section is subject to the penalties provided in Section 7-25-170."

O. Section 7-5-186 of the 1976 Code is amended by adding an appropriately lettered subsection at the end to read:

"( ) Security protocols for voter registration information maintained and developed by the State Election Commission shall be generally consistent with current industry security standards, and in promulgating this requirement, the State Election Commission shall consider those security standards issued by the National Institute of Standards and Technology, the Cybersecurity and Infrastructure Security Agency, and the federal Election Assistance Commission. The State Election Commission shall certify, at least annually, that the State of South Carolina has substantially complied with the requirements of this section."

P. Section 7-5-430 of the 1976 Code is amended to read:

"Section 7-5-430. Immediately preceding each general election or any special election, the county board of voter registration and elections must furnish one registration book for each polling precinct in the county containing the names of all electors entitled to vote at each precinct. Security protocols for electronic poll books shall be generally consistent with current industry security standards, and in promulgating this requirement, the State Election Commission shall consider those security standards issued by the National Institute of Standards and Technology, the Cybersecurity and Infrastructure Security Agency, and the federal Election Assistance Commission. The State Election Commission shall certify, at least annually, that the State of South Carolina has substantially complied with the requirements of this section."

Q. Section 7-13-320(A) of the 1976 Code is amended to read:

"(A) Other than ballots delivered electronically to qualified electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 52 U.S.C. Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which does not make the ballot identifiable to a particular elector. The ballot shall be printed on paper of such thickness that the printing cannot be distinguished from the back and shall be of such size and color as directed by the State Election Commission. If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

R. Section 7-13-610(C) of the 1976 Code is amended to read:

"(C) Other than ballots delivered electronically to qualified electors who are entitled to vote by absentee ballot under the federal Uniformed and Overseas Citizens Absentee Voting Act, 52 U.S.C. Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which do not make the ballot identifiable to a particular elector. The ballot must be printed on paper of a thickness so that the printing cannot be distinguished from the back and must be of a size and color as directed by the State Election Commission. If more than one ballot is to be used in a primary, each ballot must be printed on different colored paper. The ballot must contain a voting square opposite the name of each candidate, and the voter shall vote by putting a mark in the voting square opposite the name of the candidate of his choice. The State Election Commission may establish, under Chapter 23 of Title 1, such rules and regulations as are necessary for the proper administration of this section."

S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is

cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

"(k) ~~if approved after July 1, 1999, or if an upgrade in software, hardware, or firmware is submitted for approval as required by Section 7-13-1330 (C), is able to electronically transmit vote totals for all elections to the State Election Commission in a format and timeframe specified by the commission~~ prohibits, at all times while utilized in a current election, the following:

(1) a connection to the Internet or an external network;

(2) capability to establish a wireless connection to an external network;

(3) establishment of a connection to an external network through a cable, a wireless modem or any other mechanism or process; or

The State Election Commission may promulgate regulations necessary to effectuate the provisions of this subsection."

SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:

(a) 1 - 39,999 voters: one location

(b) 40,000 - 79,999 voters: two locations

(c) 80,000 - 119,999 voters: three locations

(d) 120,000 - 159,999 voters: four locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

primary, by political party convention, or by petition; however, a person who was defeated as a candidate for nomination to an office in a party primary or party convention ~~shall~~ may not have his name placed on the ballot for the ensuing general or special election, except that this section does not prevent a defeated candidate from later becoming his party's nominee for that office in that election if the candidate first selected as the party's nominee dies, resigns, is disqualified, or otherwise ceases to become the party's nominee for that office before the election is held.

(B) A candidate may not file more than one statement of intention of candidacy for a single office for the same election.

A person

requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. A candidate or a member of a candidate's paid campaign staff, including campaign volunteers ~~reimbursed for time expended on campaign activity~~, is not allowed to request applications for absentee voting for any person designated in this section unless the person is a member of the immediate family. A person may not request absentee applications for more than ten qualified electors in addition to himself. A request for an application to vote by absentee ballot may be made anytime during the calendar year in which the election in which the qualified elector desires to be permitted to vote by absentee ballot is being held. However, completed applications must be returned to the county board of voter registration and elections in person or by mail before 5:00 p.m. on the fourth day before the day of the election. S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section; however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is

cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

A voting system may not be approved for use in the State unless

certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. The Committee on Judiciary proposed the following Amendment No. 1 to S. 1031 (COUNCIL\HB\1031C002.BH.HB22), which was adopted:

Amend the bill, as and if amended, by adding appropriately numbered SECTIONS to read:

The State Election Commission may promulgate regulations necessary to effectuate the provisions of this subsection."

SECTION ___. A. Article 1, Chapter 13, Title 7 of the 1976 Code is amended by adding:

"Section 7-13-25. (A) Monday through Saturday for a two-week period preceding a general election conducted pursuant to Section 7-13-10, a primary, special elections, and all municipal elections, all qualified electors of this State must be allowed to cast an early in-person ballot. To the extent time permits, and for a period of time as may be determined by the Executive Director of the State Election Commission, all qualified electors must be allowed to cast an early in-person ballot prior to a primary runoff.

(B) The period of early voting begins at 8:30 a.m. and ends at 6:00 p.m. on each day of the early voting period, excluding Sunday, until the conclusion of the early voting period at 6:00 p.m. on the Saturday immediately prior to the election.

(C) For a general election conducted pursuant to Section 7-13-10, each county board of voter registration and elections must establish early in-person voting locations in an amount based on the following formulas, whichever is higher, but not to exceed seven locations:

(1) The number of registered voters in the county:

(a) 1 - 39,999 voters: one location

(b) 40,000 - 79,999 voters: two locations

(c) 80,000 - 119,999 voters: three locations

(d) 120,000 - 159,999 voters: four locations

(e) 160,000 - 199,999 voters: five locations

(f) 200,000 - 239,999 voters: six locations

(g) 240,000 voters and up: seven locations

(d) 600-799 square miles: four locations

(e) 800-999 square miles: five locations

(f) 1000-1199 square miles: six locations

(g) 1200 square miles and up: seven locations

(D) If the main office of each county board of voter registration and elections is used for an early in-person voting location, it constitutes one of the early in-person voting locations as delineated in this section.

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county

to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

(2) When the early in-person location formulas in subsection (C)(1) and (C)(2) produce results that differ by four or more locations, the Executive Director may authorize a county board to use two fewer than the higher number determined in subsection (C). The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a minimum, to a website or webpage managed by, or on behalf of, each respective county election board.

(G) Upon the daily closure of each early in-person voting location during the period established in subsection (B), all ballots must be transported to the county board of voter registration and elections and stored in a secure location.

(H) County boards of voter registration and elections, in their discretion, may establish any number of early in-person voting locations for use in primary, primary runoff, special elections, and all municipal elections, and the formulas provided in this section do not apply.

(I) Each early voting center must have available every ballot style in use in the particular county for that election."

(B) A candidate may not file more than one statement of intention of candidacy for a single office for the same election.

The processes of examining the return-addressed envelopes, opening the sealed return-addressed envelopes to remove the 'Ballot Herein' envelopes, and removing the ballots from the 'Ballot Herein' envelopes for tabulation must be conducted in the presence of any candidate who elects to be present, and of any watchers who have been appointed pursuant to Section 7-13-860. Provided, any candidates or watchers present must be located a reasonable distance in order to maintain both the right to observe and the secrecy of the ballots.

(B) Results of the absentee ballot tabulation must not be publicly reported until after the polls are closed. An election official, election worker, candidate, or watcher who intentionally violates the prohibition contained in this subsection is guilty of a felony and, upon conviction, must be fined not more than one thousand dollars or imprisoned not more than five years."

I further

swear (or affirm) that the present residence address listed herein is my sole legal place of residence, ~~and~~ that I claim no other place as my legal residence, and that, to my knowledge, I am neither registered nor intend to register to vote in another state or county.' A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. A person who violates the provisions of this section is subject to the penalties provided in Section 7-25-170."

Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which does not make the ballot identifiable to a particular elector. The ballot shall be printed on paper of such thickness that the printing cannot be distinguished from the back and shall be of such size and color as directed by the State Election Commission. If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

R. Section 7-13-610(C) of the 1976 Code is amended to read:

Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which do not make the ballot identifiable to a particular elector. The ballot must be printed on paper of a thickness so that the printing cannot be distinguished from the back and must be of a size and color as directed by the State Election Commission. If more than one ballot is to be used in a primary, each ballot must be printed on different colored paper. S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its

accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(E)(1) County boards of voter registration and elections must determine locations for early voting centers. In selecting locations, boards must consider geography, population, and ADA compliant accessibility. Boards must distribute the locations throughout the county to maximize accessibility for all voters in the county to the greatest extent possible. The Executive Director of the State Election Commission may, at his discretion, direct the move of early voting centers to ensure proper distribution through each county.

The Executive Director also may authorize the loss of an early in-person location due to an emergency such as fire or flood.

(F) The county election board must set and publish the location of each early in-person voting center at least fourteen days before the early voting period begins. Publication of the schedule must be made, at a

The processes of examining the return-addressed envelopes, opening the sealed return-addressed envelopes to remove the 'Ballot Herein' envelopes, and removing the ballots from the 'Ballot Herein' envelopes for tabulation must be conducted in the presence of any candidate who elects to be present, and of any watchers who have been appointed pursuant to Section 7-13-860. Provided, any candidates or watchers present must be located a reasonable distance in order to maintain both the right to observe and the secrecy of the ballots.

A person requesting an application for a qualified elector as the qualified elector's authorized representative must request an application to vote by absentee ballot in person or by mail only and must himself be a registered voter and must sign an oath to the effect that he fits the statutory definition of a representative. This signed oath must be kept on file with the board of voter registration and elections until the end of the calendar year or until all contests concerning a particular election have been finally determined, whichever is later. The board of voter registration and elections shall serially number each absentee ballot application form and keep a record book in which must be recorded the number of the form, the name, home address, and absentee mailing address of the person for whom the absentee ballot application form is requested; the name, address, voter registration number, and relationship of the person requesting the form, if other than the applicant; the date upon which the form is requested; the date upon which the form is issued; and the date and method upon which the absentee ballot is returned. This information becomes a public record at 9:00 a.m. on the day immediately preceding the election, except that forms issued for emergency hospital patients must be made public by 9:00 a.m. on the day following an election. A person who violates the provisions of this section is subject to the penalties provided in Section 7-25-170."

Section 20301, et seq., the ballots shall incorporate features which can be used to authenticate the ballot as an official ballot but which does not make the ballot identifiable to a particular elector. The ballot shall be printed on paper of such thickness that the printing cannot be distinguished from the back and shall be of such size and color as directed by the State Election Commission. If more than one ballot is to be used in any election, each such ballot shall be printed upon different colored paper;"

R. Section 7-13-610(C) of the 1976 Code is amended to read:

The ballot must be printed on paper of a thickness so that the printing cannot be distinguished from the back and must be of a size and color as directed by the State Election Commission. If more than one ballot is to be used in a primary, each ballot must be printed on different colored paper. The ballot must contain a voting square opposite the name of each candidate, and the voter shall vote by putting a mark in the voting square opposite the name of the candidate of his choice. The State Election Commission may establish, under Chapter 23 of Title 1, such rules and regulations as are necessary for the proper administration of this section."

S. Section 7-13-1330 of the 1976 Code is amended to read:

"Section 7-13-1330. (A) Before any decision is made to procure or use any kind of voting system, input shall be sought from a wide variety of sources including the public, the academic community, public interest organizations, local election officials, and policy makers. Both written and oral testimony shall be accepted from all who wish to participate. This input shall be considered in procurement of a new voting system.

(B) Before any kind of optical scan voting system is used at any election, it must be approved by the State Election Commission, which shall examine the optical scan voting system and make and file in the commission's office a report, attested by the signature of the

commission's executive director, stating whether, in the commission's opinion, the kind of optical scan voting system examined may be accurately and efficiently used by electors at elections, as provided by law. An optical scan voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

~~(B)~~(C) No kind of vote recorder not approved pursuant to this section shall be used at any election and if, upon the reexamination of any type vote recorder previously approved, it appears that the vote recorder so reexamined can no longer be accurately and efficiently used by electors at elections as provided by law, the approval of the vote recorder must immediately be revoked by the State Election Commission, and no such type vote recorder shall thereafter be purchased for use or used in this State.

~~(C)~~(D) If a vote recorder, including an optical scan voting system, which was approved for use before July 1, 1999, is improved or otherwise changed in a way since its approval that does not impair its accuracy, efficiency, or capacity, the vote recorder may be used in elections. However, if the software, hardware, or firmware of the system is improved or otherwise changed, the system must comply with the requirements of subsection ~~(A)~~ (B).

~~(D)~~(E) Any person or company who requests an examination of any type of vote recorder or optical scan voting system shall pay a nonrefundable examination fee of one thousand dollars for a new voting system and a nonrefundable examination fee of five hundred dollars for an upgrade to any existing system to the State Election Commission. The State Election Commission may at any time, in its discretion, reexamine any vote recorder or optical scan voting system when evidence is presented to the commission that the accuracy or the ability of the system to be used satisfactorily in the conduct of elections is in question.

~~(E)~~(F) Any person or company who seeks approval for any vote recorder or optical scan voting system in this State must file with the State Election Commission a list of all states or jurisdictions in which the system has been approved for use. This list must state how long the system has been used in the state; contain the name, address, and telephone number of that state or jurisdiction's chief election official; and must disclose any reports compiled by state or local government concerning the performance of the system. The vendor is responsible for filing this information on an ongoing basis.

~~(F)~~(G) Any person or company who seeks approval for any vote recorder or optical scan voting system must file with the State Election Commission copies of all contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements must be filed with the State Election Commission.

~~(G)~~(H) Any person or company who seeks approval for any vote recorder or optical scan voting system must conduct, under the supervision of the State Election Commission and any county board of voter registration and elections, a field test for any new voting system, as part of the certification process. The field test shall involve South Carolina voters and election officials and must be conducted as part of a scheduled primary, general, or special election. This test must be held in two or more precincts, and all costs relating to the voting system must be borne by the vendor. The test must be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting units required for the efficient operation of an election. The test must also demonstrate the accuracy of votes cast and reported on the system.

~~(H)~~(I) Before an optical scan voting system may be used in elections in the State, all source codes for the system must be placed in escrow by the manufacturer, at the manufacturer's expense, with the authority approved by the Federal Election Assistance Commission. These source codes must be available to the State Election Commission in case the company goes out of business, pursuant to court order, or if the State Election Commission determines that an examination of these source codes is necessary. The manufacturer shall place all updates of these source codes in escrow, and notify the State Election Commission that this requirement has been met.

~~(I)~~(J) After a vote recorder or optical scan voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section;

however, this requirement does not apply to the technical capability of a general purpose computer ~~or reader to electronically count and record votes~~ or ~~to a~~ printer to accurately reproduce vote totals.

~~(J)~~(K) If the State Election Commission determines that a vote recorder or optical scan voting system that was approved no longer meets the requirements set forth in subsections ~~(A)~~ (B) and ~~(C)~~ (D) or Section 7-13-1340, the commission may decertify that system. A decertified system shall not be used in elections unless the system is reapproved by the commission under subsections ~~(A)~~ (B) and ~~(C)~~ (D).

~~(K)~~(L) Neither a member of the State Election Commission, any county board of voter registration and elections or custodian, nor a member of a county governing body shall have any pecuniary interest in any vote recorder, or in the manufacture or sale of the vote recorder.

(M) To attain a measure of integrity over the process, the optical scan voting system also must maintain an image of each ballot that is cast, such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing, and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the vendor.

(N) All electronic records of configurations, software logs, security devices, ballot images, hardware, and voting system firmware must be preserved for the same amount of time that the state or federal law requires for all election-related materials."

T. Section 7-13-1340(k) of the 1976 Code is amended to read:

"(k) ~~if approved after July 1, 1999, or if an upgrade in software, hardware, or firmware is submitted for approval as required by Section 7-13-1330 (C), is able to electronically transmit vote totals for all elections to the State Election Commission in a format and timeframe specified by the commission~~ prohibits, at all times while utilized in a current election, the following:

A serially numbered stub and strip shall be attached to each ballot card in a manner and form similar to that prescribed by law for paper ballots~~."

V. Section 7-13-1620(A) and (G) of the 1976 Code is amended to read:

A voting system may not be approved for use in the State unless certified by a testing laboratory accredited by the Federal Election Assistance Commission as meeting or exceeding the minimum requirements of the latest federal voting system standards and guidelines. Notwithstanding any other provision of law to the contrary, if these voting system standards have been amended less than thirty-six months prior to an election, the State Election Commission may approve and certify a voting system that meets the prior standards after determining:

(1) the effect that such approval would have on the integrity and security of elections; and

(2) the procedure and cost involved to bring the voting system into compliance with the amended standards.

(G) After a voting system is approved, an improvement or change in the system must be submitted to the State Election Commission for approval pursuant to this section. This requirement does not apply to the technical capability of a general purpose computer, reader, or printer used for election preparation or ballot ~~tallying~~ tally reporting."

W. Section 7-13-1640(C) of the 1976 Code is amended to read:

(1) be connected to the Internet or an external network;

(2) be capable of establishing a wireless connection;

(3) establish a connection to an external network through a cable, a wireless modem, or any other mechanism or process; or

S. 1077 -- Senators Alexander, Rankin, Massey, K. Johnson, Sabb, Garrett, Gambrell, McElveen, Kimbrell, Stephens, McLeod, M. Johnson, Kimpson, Hutto, Grooms, Climer, Davis, Gustafson, Williams, Loftis, Fanning, Adams and Scott: A BILL TO AMEND CHAPTER 27, TITLE 58 OF THE 1976 CODE BY ADDING ARTICLE 8, TO ALLOW THE PUBLIC SERVICE COMMISSION TO AUTHORIZE THE ISSUANCE OF BONDS FOR THE PURPOSES OF OFFSETTING AND REDUCING PRUDENTLY INCURRED COSTS FOR STORM RECOVERY ACTIVITY AND TO ESTABLISH THE REQUIREMENTS AND PROCESSES FOR THE AUTHORIZATION OF THESE BONDS; AND TO AMEND SECTION 36-9-109 TO MAKE FURTHER CONFORMING CHANGES.

The Committee on Labor, Commerce and Industry proposed the following Amendment No. 1 to S. 1077 (COUNCIL\ZW\1077C009.AR.ZW22), which was adopted:

Amend the bill, as and if amended, SECTION 1, Pages 4-5, by striking Section 58-27-1105(16)(a) and inserting:

/ (16) The term ‘storm recovery costs’ means:

(a) all incremental costs, including capital costs, appropriate for recovery from existing and future retail customers receiving transmission or distribution service from an electrical utility that an electrical utility has incurred as a result of the applicable storm that are caused by, associated with, or remain as a result of undertaking storm recovery activity.

(b) Storm recovery costs shall be net of applicable insurance proceeds, tax benefits, income tax savings, and any other amounts intended to reimburse the electrical utility for storm recovery activities such as government grants, or aid of any kind and where determined appropriate by the commission, and may include adjustments for capital

replacement and operating costs previously considered in determining normal amounts in the electrical utility's most recent general rate proceeding. Storm recovery costs may include, to the extent determined appropriate by the commission, the cost to replenish and fund any storm reserves, the costs of retiring any existing indebtedness relating to storm recovery activities, and carrying costs. /

Amend the bill further, as and if amended, SECTION 1, Pages 5-6, by striking Section 58-27-1110(A) and inserting:

/ (A) An electrical utility may petition the commission for a financing order. The petition shall include all of the following:

(1) a description of the storm recovery activities that the electrical utility has undertaken and the reasons for undertaking the activities, or if the electrical utility is subject to a settlement agreement that governs the type and amount of principal costs that could be included in storm recovery costs, a description of the settlement agreement;

(2) the storm recovery costs for any storm recovery activities that have been undertaken;

(3) the level of the storm recovery reserve, if any, that the electrical utility proposes to establish or replenish and has determined would be appropriate to recover through storm recovery bonds and is seeking to so recover, and such level that the electrical utility is funding or will seek to fund through other means, together with a description of the factors and calculations used in determining the amounts and methods of recovery;

(4) an indicator of whether the electrical utility proposes to finance all or a portion of the storm recovery costs using storm recovery bonds. If the utility proposes to finance a portion of such costs, the electrical utility must identify the specific portion in the petition. By requesting not to finance a portion of such storm recovery costs using storm recovery bonds, an electrical utility shall not be deemed to waive its right to seek to recover such costs pursuant to a separate proceeding with the commission;

(5) the financing costs related to the storm recovery bonds;

(6) the storm recovery charges necessary to recover the storm recovery costs, including the storm recovery reserve amount, if any, determined appropriate by the commission, and financing costs and the period for recovery of such costs;

(7) a comparison between the net present value of the costs to customers that are estimated to result from the issuance of storm recovery bonds based on current market conditions and the costs that

would result from the application of the traditional method of financing and recovering storm recovery costs from customers. The comparison should demonstrate that the issuance of storm recovery bonds and the imposition of storm recovery charges are expected to provide quantifiable net benefits to customers on a present value basis as compared to the costs that would have been incurred absent the issuance of storm recovery bonds; and

(8) direct testimony, exhibits, and supporting workpapers supporting the petition, testimony, and exhibits. Such workpapers may be filed under seal to the extent necessary to protect confidential, proprietary, or sensitive information. The electrical utility shall provide functional exhibits and workpapers to the Office of Regulatory Staff and to the commission, subject to any appropriate confidentiality designations. /
